GLOSSARY OF TECHNICAL TERMS

The following are not technical definitions, but they are helpful for the reader's understanding of some terms used in the notes to the consolidated financial statements of the Group.

Terms	Definitions
/day	Per day
AESA	Albanesi Energía S.A. (a company merged into GMSA)
AFIP	Federal Administration of Public Revenue
AJSA	Alba Jet S.A.
APE	Out-of-court reorganization plan
ASA	Albanesi S.A. (a company merged into GMSA)
AVRC	Alto Valle Río Colorado S.A.
BADCOR	Adjusted BADLAR rate
BADLAR	Average interest rate paid by financial institutions on time deposits for over one million pesos.
BCRA	Central Bank of Argentina
BDD	Bodega del Desierto S.A.
CAMMESA	Compañía Administradora del Mercado Mayorista Eléctrico S.A. (Wholesale Electricity Market Management Company)
CC	Combined cycle
IFRIC	International Financial Reporting Interpretations Committee
CNV	National Securities Commission
CTAS	Central Térmica Arroyo Seco, located in Arroyo Seco, Santa Fe
CTCT	Central Térmica de Cogeneración Timbúes, located in Timbués, Santa Fe
CTE	Central Térmica Ezeiza, located in Ezeiza, Buenos Aires
CTF	Central Térmica Frías, located in Frías, Santiago del Estero
CTI	Central Térmica Independencia, located in San Miguel de Tucumán, Tucumán
CTLB	Central Térmica La Banda, located in La Banda, Santiago del Estero
CTMM	Central Térmica Modesto Maranzana, located in Río IV, Córdoba
CTR	Central Térmica Roca S.A.
CTRi	Central Térmica Riojana located in La Rioja, province of La Rioja
CVP	Variable Production Cost
Dam3	Cubic decameter. Volume equivalent to 1,000 (one thousand) cubic meters
DH	Historical Availability
DIGO	Offered Guaranteed Availability
Availability	The percentage of time in which the power plant or machinery, as applicable, is in operation (generating power) or available for power generation, but not called by CAMMESA.
DMC	Minimum Availability Committed
DO	Target Availability
DR	Registered Availability
Grupo Albanesi	Generación Mediterránea S.A., its subsidiaries and other related companies
ENARSA	Energía Argentina S.A.
Energía Plus	Plan created under ES Resolution No. 1281/06
ENRE	National Electricity Regulatory Authority
EPEC	Empresa Provincial de Energía de Córdoba
FACPCE	Argentine Federation of Professional Councils in Economic Sciences
FONINVEMEM	Fund for investments required to increase the electric energy supply in the WEM
GE	General Electric
GECEN	Generación Centro S.A. (a company merged into GMSA)
GLSA	Generación Litoral S.A.
GMGS	GM Gestión y Servicios S.A.C.
GMOP	GM Operaciones S.A.C.
GMSA	Generación Mediterránea S.A.

GLOSSARY OF TECHNICAL TERMS (Cont'd)

Terms	Definitions
Large Users	Based on their consumption, WEM agents are classified into: GUMAs, GUMEs, GUPAs, and GUDIs
GROSA	Generación Rosario S.A.
GUDIs	Large Demand from Distributors' customers, with declared or demanded power of over 300 kW
GW	Gigawatt. Unit of power equivalent to 1,000,000,000 watts
GWh	Gigawatt-hour Unit of energy equivalent to 1,000,000,000 watts hour
HRSG	Heat recovery steam generator
IASB	International Accounting Standards Board
IGJ	Legal Entities Regulator
CPI	Consumer Price Index
WPI	Wholesale Price Index
kV	Kilovolt Unit of electromotive force which is equal to 1,000 (one thousand) volts
kW	Kilowatt Unit of power equivalent to 1,000 watts
kWh	Kilowatt-hour Unit of energy equivalent to 1,000 watts hour
The Company/The Group	Generación Mediterránea S.A. and its subsidiaries
LGS	General Companies Law
LVFVD	Sale liquidations with maturity date to be defined
MAPRO	Major Scheduled Maintenance
MAT	Futures market
WEM	Wholesale Electric Market
MMm3	Million cubic meters.
MVA	Mega-volt ampere. Unit of energy equivalent to 1 volt x 1 ampere x 106
MW	Megawatt. Unit of power equivalent to 1,000,000 watts
MWh	Megawatt hour Unit of energy equivalent to 1,000,000 watts hour
ARG GAAP	Argentine Generally Accepted Accounting Principles
IAS	International Accounting Standards
IFRS	International Financial Reporting Standards
NFHCC	New Date Committed for Commercial Authorization
SDG	Sustainable Development Goals
NO	Negotiable Obligations
GDP	Gross Domestic Product
PWPS	Pratt & Whitney Power System Inc
Gain/(loss) on net monetary position (RECPAM)	Gain/(loss) on net monetary position
Resolution No. 220/07	Regulatory framework for the sale of energy to CAMMESA through the "WEM Supply Agreements" under Energy Secretariat Resolution No. 220/07
GR	General Resolution
RGA	Rafael G. Albanesi S.A.
CSR	Corporate Social Responsibility
TP	Technical Pronouncements
SADI	Argentine Interconnection System
SACDE	Sociedad Argentina de Construcción y Desarrollo Estratégico S.A.
ES	Energy Secretariat
SEK	Swedish crowns
GSE	Government Secretariat of Energy
OHHS	Occupational Health, Safety, and Hygiene
TRASNOA S.A.	Empresa de Transporte de Energía Eléctrica por Distribución Troncal del Noroeste Argentino S.A.
GU	Generating Unit
CGU	Cash Generating Unit
USD	US dollars
UVA	Unit of purchasing value

The accompanying notes form an integral part of these condensed interim consolidated financial statements.

NOTE 1: GENERAL INFORMATION

GMSA's main line of business is the conventional thermal power generation. It has six thermal power plants operating throughout the whole country fed with natural gas as well as diesel as alternative fuel. They sell the energy generated in accordance with different regulatory frameworks. GMSA's nominal installed capacity is 1,315 MW.

Over the last few years, both the unfavorable economic context and the combination of adverse events (described in Note 24) impacted on the Company's business and that of its subsidiaries. This scenario has led to a reduction in liquidity, which has made it difficult to meet some financial obligations, giving rise to a renegotiation process of financial debts. See Notes 3, 13, and 24.

On July 24, 2024, the Board of Directors of the Company resolved to carry out a process of corporate reorganization with Albanesi Energía S.A. whereby the Company would be merged into AESA (the "Merged Company") to achieve a consistent and coordinated performance of the business activities of the companies involved to their own benefit and to the benefit of their shareholders, third-party contractors, trading partners and, particularly, their investors and creditors. The merger into the Company will streamline costs, processes and resources, and the effective merger date is January 1, 2025.

Furthermore, on December 23, 2025, the CNV, by means of Resolutions Nos. 23382 and 23383, approved the process of Merger, which was registered with the Legal Entities' Regulator (IGJ) under No. 2511 of Book 125 of Corporations on February 9, 2026.

GMSA and its subsidiaries are engaged in the generation and sale of electric energy and steam, the latter as from the date of the Merger.

Below is a detail of the equity interest of GMSA in each company:

Companies	Country of incorporation	Main activity	% of interest	
			09/30/2026	12/31/2025
CTR	Argentina	Electric energy generation	75%	75%
GLSA	Argentina	Electric energy generation	95%	95%
GROSA	Argentina	Electric energy generation	95%	95%
Solalban Energía S.A. (Note 31)	Argentina	Electric energy generation	42%	42%
GM Operaciones S.A.C.	Peru	Electric energy generation	50%	50%

At the date of these condensed interim consolidated financial statements, GMSA and its subsidiaries had a total installed capacity of 1,858 MW.

NOTE 1: GENERAL INFORMATION (Cont'd)

Power Plants	Company	Nominal installed capacity	Resolution	Location
Central Térmica Modesto Maranzana (CTMM)	GMSA	471 MW	ES No. 220/07, No. 1281/06 Plus, SE No. 280/25, and EES No. 287/17	Río Cuarto, Córdoba, Argentina

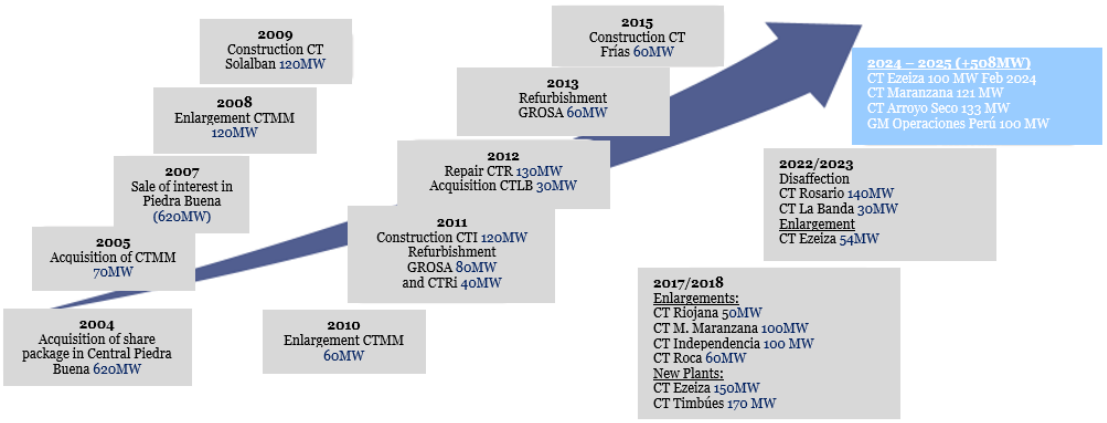
Central Térmica Frías (CTF)	GMSA	60 MW	ES No. 220/07 and ES No. 280/25	Frías, Santiago del Estero, Argentina
Central Térmica Riojana (CTRi)	GMSA	90 MW	ES No. 220/07 and ES No. 280/25	La Rioja, La Rioja, Argentina
Central Térmica Ezeiza (CTE)	GMSA	304 MW	EES No. 21/16 and EES No. 287/17	Ezeiza, Buenos Aires, Argentina
Central Térmica Cogeneración Timbúes	GMSA	170 MW	EES Resoluton No. 21/16	Timbúes, Santa Fe, Argentina
Total nominal installed capacity (GMSA)		**1,315 MW**		
Generación Litoral S.A.	GLSA	133 MW	EES Resoluton No. 287/17	Arroyo Seco, Rosario, Santa Fe, Argentina
Central Térmica Roca (CTR)	CTR	190 MW	ES No. 220/07 and ES No. 280/25	Gral Roca, Río Negro, Argentina
Solalban Energía S.A.		120 MW	Resolution No. 1281/06 Energía Plus	Bahía Blanca, Buenos Aires, Argentina
Central de Cogeneración de la Refinería de Talara	GMOP	100 MW		Talara, Peru
Total nominal installed capacity (GMSA interest)		**543 MW**		
Total nominal installed capacity GMSA and subsidiaries		**1,858 MW**		

GMSA and its subsidiaries entered the electricity market in 2004 with the purchase of the power plant Luis Piedra Buena S.A. This way, the development of the electricity market has become one of the main purposes of the Group.



NOTE 1: GENERAL INFORMATION (Cont'd)

Through EES Resolution No. 287 - E/2017 dated May 10, 2017, the ES instructed CAMMESA to call for those interested parties to offer new thermal generation focused on closure of combined cycles and co-generation technology, with the commitment to install and start up new generation capacity to meet the demand in the WEM.

The environment

Environmental management is a key strategic matter for the Group, and all our plants are operated under an Integrated Management System, certified in May 2024 to ISO standard 14001:2015 (Environmental Management), ISO standard 45001:2018 (Occupational Health and Safety), and ISO standard 9001:2015 (Quality Management). This certification, effective until 2027, covers all of the Group Companies and includes the following power plants: CTE, CTF, CTI, CTRi, CTMM, CTCT, and CTR.

NOTE 2: REGULATORY ASPECTS RELATING TO ELECTRIC ENERGY GENERATION

The regulatory aspects relating to electric energy generation applied to these condensed interim consolidated financial statements are consistent with those used in the financial information for the last fiscal year.

NOTE 3: BASIS FOR PRESENTATION

The condensed interim consolidated Financial Statements for the nine-month and three-month periods ended on September 30, 2026 and 2025 have been prepared in accordance with IAS 34. This condensed interim consolidated financial information must be read jointly with the Company's annual consolidated financial statements for the year ended on December 31, 2025.

NOTE 3: BASIS FOR PRESENTATION (Cont'd)

The presentation in the condensed interim consolidated statement of financial position segregates current and non-current assets and liabilities. Current assets and liabilities are those which are expected to be recovered or settled within twelve months following the end of the reporting period. In addition, the Company reports on the cash flows from operating activities using the indirect method.

The fiscal year commences on January 1 and ends on December 31 of each year.

Economic and financial results are presented on a fiscal year basis, in proportion to the elapsed period.
The condensed interim consolidated Financial Statements for the nine-month and three-month periods ended on September 30, 2026 and 2025 have not been audited. Company Management considers that they include all the necessary adjustments to reasonably present the results for each period. The results for the nine-month and three-month periods ended on September 30, 2026 and 2025 do not necessarily reflect the proportion of the Company's results for full fiscal years.

The Company's functional currency, i.e., the currency of the primary economic environment in which the entity operates, is the US dollar.

These condensed interim consolidated Financial Statements are disclosed in thousands of US dollars without cents, except for the earnings per share.

These condensed interim consolidated Financial Statements were approved for issuance by the Company's Board of Directors on November 18, 2026.

Going concern

These condensed interim consolidated financial statements have been prepared using the "going concern" principle. Notwithstanding the foregoing, according to the Company's Management, the conditions detailed in Notes 1, 13, and 24 create a context of uncertainty that could cast considerable doubt on the Company's ability to continue as a going concern if maturities of financial debts are not adjusted to its operating cash flow.

As mentioned in Note 13, at the date of these financial statements, the APE is pending final approval to conclude the comprehensive restructuring of the debt.

NOTE 3: BASIS FOR PRESENTATION (Cont'd)

Comparative information

Balances at December 31, 2025 and for the nine-month and three-month periods ended on September 30, 2025, disclosed in these condensed interim consolidated Financial Statements for comparative purposes, arise from financial statements at those dates.

Certain reclassifications have been included in the Financial Statement figures presented for comparative purposes to conform them to the current period presentation.

Purpose of these condensed interim consolidated financial statements

These non-statutory condensed interim consolidated financial statements are presented in thousands of United States Dollars (USD), which is the Company's functional currency, and have been prepared to provide interim financial information mainly for use by non-Argentine holders of Company's Negotiable Obligations and foreign financial institutions.

Tax-purpose inflation adjustment

To determine the net taxable income, an adjustment for inflation computed pursuant to Sections 105 to 108 of the Income Tax Law must be deducted from or added to the tax result for the fiscal period being calculated. This will apply in the fiscal year in which a variation percentage of the CPI accumulated over the 36 months prior to year-end exceeds 100%. These provisions are applicable for fiscal years commencing on or after January 1, 2018.

At September 30, 2026, the CPI variation exceeded the index established in the paragraph above; therefore, said adjustment was included in the determination of the taxable income for the current period.

NOTE 4: ACCOUNTING POLICIES

The accounting policies adopted for these condensed interim consolidated financial statements are consistent with those used in the audited financial statements for the last fiscal year, which ended on December 31, 2025.

4.1 New accounting standards, amendments, and interpretations issued by the International Accounting Standards Board (IASB) effective during this fiscal year and adopted by the Company:

- IFRS 9 and IFRS 7 *Financial Instruments and Disclosures*: in May 2024, the application guidance for IFRS 9 was modified and disclosure requirements were incorporated into IFRS 7. These changes introduce new requirements for both financial institutions and corporate entities.

- IMPROVEMENTS TO IFRS - Volume 11: in July 2024, minor amendments are incorporated into IFRS 1, IFRS 7, IFRS 9, IFRS 10, and IAS 7.

NOTE 4: ACCOUNTING POLICIES (Cont'd)

4.2 New published standards, modifications, and interpretations that have not yet entered into force and have not been adopted early by the Company:

Pursuant to CNV General Resolution No. 972/23, the early application of IFRS accounting standards and/or their amendments is not permitted, except where specifically allowed at the time of their adoption:

- IFRS 18 *Presentation and Disclosure in Financial Statements*, issued in April 2024. It establishes new presentation and disclosure requirements with the aim of ensuring that financial statements provide relevant information that faithfully represents the entity's financial position. This standard does not affect the recognition or measurement of items in the financial statements; however, it introduces new requirements aimed at enhancing comparability among entities. In particular: (i) the classification of income and expenses into operating, investing, and financing categories; (ii) the inclusion of required subtotals; and (iii) the disclosure of performance measures defined by management. The standard requires retrospective application for annual and interim reporting periods beginning on or after January 1, 2027. Earlier application is permitted. The Company is analyzing any impact on the disclosure of the financial statements by the application of the standard.

- IFRS 19 *Subsidiaries without Public Accountability*": Disclosures," issued in May 2024. It establishes the option to disclose reduced information requirements for entities without public accountability that are subsidiaries of an entity preparing consolidated financial statements which are publicly available and comply with IFRS accounting standards. In August 2025, amendments were introduced. They reduced disclosure requirements related to supplier financing arrangements, currency non-exchangeability, and international tax reform, and replaced disclosure requirements related to management-defined performance measures with a cross-reference to IFRS 18 for entities using such measures. The standard and its amendments are applicable for reporting periods beginning on or after January 1, 2027. Earlier adoption is permitted. The application thereof will not generate any impact on the results of the Company's operations or its financial position.

- Amendments to IAS 21 -Translation to a Hyperinflationary Presentation Currency: In November 2025, IAS 21 was amended. These limited-scope amendments specify the translation procedures for an entity whose presentation currency is that of a hyperinflationary economy. The entity applies the amendments when:

  - its functional currency is that of a non-hyperinflationary economy and it translates its results and financial position into the currency of a hyperinflationary economy; or

NOTE 4: ACCOUNTING POLICIES (Cont'd)

4.2 New published standards, modifications, and interpretations that have not yet entered into force and have not been adopted early by the Company (Cont'd):

- it translates into the currency of a hyperinflationary economy the results and financial position of a foreign operation whose functional currency is that of a non-hyperinflationary economy. The amendments aim to improve the usefulness of the resulting information in a cost-effective manner. Developed in response to stakeholder feedback, these amendments are expected to reduce diversity in practice and to provide a clearer basis for financial information presented in a hyperinflationary currency.

The amendments are applicable for reporting periods beginning on or after January 1, 2027. Earlier application is permitted, subject to the relevant local approval, if required. The Company is analyzing any impact on the results of its operations and financial position.

- IFRS 20 *Regulatory Assets and Regulatory Liabilities*: Published in May 2026. This is a new accounting standard for entities subject to a specific form of rate regulation. Its objective is to help investors better understand how such regulation affects an entity's financial performance, financial position, and prospects for future cash flows. The standard is applicable for reporting periods beginning on or after January 1, 2029. Earlier application is permitted, subject to the relevant local approval, if required. The application thereof will not generate any impact on the results of the Company's operations or its financial position.

- Amendments to IAS 28 *Fair value option for investments in associates and joint ventures*: Published in June 2026. These amendments clarify which entities may elect to measure their investments in associates and joint ventures at fair value in accordance with IAS 28. The exemption from applying the equity method provided in IAS 28 allows eligible entities to opt to measure such investments at fair value through profit or loss. This choice must be made individually for each associate or joint venture at initial recognition. The amendments address stakeholders' concerns about the diverse practical criteria used to determine which entities may avail themselves of the fair value option. This issue has become particularly relevant because the choice between fair value measurement and the equity method affects the classification of income and expenses within the statement of profit or loss —under IFRS 18—, allocating them to the operating or investing category. The standard is applicable for reporting periods beginning on or after January 1, 2027. The application thereof will not generate any impact on the results of the Company's operations or its financial position.

NOTE 5: CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of these condensed interim consolidated financial statements in accordance with IFRS requires making estimates and assessments that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of issue of these condensed interim consolidated financial statements, as well as the income and expenses recorded in the fiscal year.

The Group makes estimates to be able to calculate, for example, depreciation and amortization charges, the recoverable value of non-current assets, the income tax charge, some labor charges, the provisions for contingencies, labor, civil, and commercial lawsuits and the allowance for bad debts. Actual future results may differ from those estimates and assessments made at the date these financial statements were prepared.

In preparing these condensed interim consolidated financial statements, the critical judgments delivered by the Management to apply the Company's accounting policies and the sources of information used for the related estimates are the same as those delivered in the consolidated financial statements for the fiscal year ended on December 31, 2025. In addition, see Note 3 (Going concern) and Note 13 (Loans).

5.1) Fair value of property, plant and equipment

The Group has opted to value land, real property, facilities, machinery, and turbines at fair value applying discounted cash flows after taxes or comparable market techniques.

The fair value calculated by means of the discounted cash flows after taxes was used to value facilities, machinery, and turbines. This cash flow was prepared on the basis of estimates with an approach to consider different scenarios based on their probability of occurrence.

The following variables have been taken into account in relation to the estimates made: (i) exchange rate fluctuations; (ii) availability and dispatch of turbines associated with demand projections according to estimated growth; (iii) sales prices in forward market operations; (iv) operating and maintenance cost; (v) number of employees; (vi) discount rate used, among others. Each of these scenarios contemplates different assumptions regarding the critical variables used.

The discounted cash flows at September 30, 2026 consider two scenarios (optimistic and base scenarios) with different probabilities of occurrence. The two scenarios arise from rate schedules in force and are combined with different group turbine dispatch alternatives.

NOTE 5: CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Cont'd)

5.1) Fair value of property, plant and equipment (Cont'd)

The criteria considered in each scenario are the following:

1. Base scenario: in this case the Company considers a historical average availability and an expected dispatch according to projections of the demand for energy with a vegetative growth. Probability of occurrence: 70%.

2. Optimistic scenario: In this case, the Company considers higher prices in Forward Market agreements (power and energy), higher expected dispatch driven by energy demand, an average historical availability, and an improvement in operating costs. Probability of occurrence: 30%.

In all scenarios, a discount rate in US dollars of approximately 8.7% was used, which contemplates future scenarios.

The percentages of probability of occurrence assigned were mainly based on the occurrence of different past events (experience).

Actual results could differ from the estimates, so the projected cash flows may be severely affected if any of the aforementioned factors change in the near future.

The Group cannot assure that the future behavior of those variables will be in line with projections, and differences might arise between the estimated cash flows and the ones really obtained.

Valuation processes are discussed and results are approved by the Board of the Companies at least once a year.

However, if the discounted cash flow differs by 10% from Management estimates, the Group will need:

- To increase the fair value of land, buildings, facilities, and machinery by USD 174,013, if it were favorable; or

- To reduce the fair value of land, buildings, facilities, and machinery by USD 174,013, if it were not favorable.

NOTE 5: CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Cont'd)

5.1) Fair value of property, plant and equipment (Cont'd)

At September 30, 2026, the Company analyzed the variables considered in the calculation of the recoverable value of property, plant and equipment, and concluded that there were no significant changes in those variables as against December 31, 2025.

5.2) Current and deferred income tax

The Company recognizes income tax applying the deferred tax method. Consequently, the deferred tax assets and liabilities are recognized based on the future tax consequences attributable to the differences between the carrying amount of existing assets and liabilities and the respective tax bases. Deferred tax assets and liabilities are valued at the approved tax rates that should theoretically be applied on the taxable income in the years in which the temporary differences are expected to be settled. A high degree of judgment is required to determine the provision for income tax since Management regularly assesses the positions on the tax returns regarding situations where the applicable tax regulation is subject to interpretation and, if necessary, sets out provisions based on the amounts payable to the tax authorities. When the final outcome of these matters is different from the initially recognized amounts, such differences will have an impact on income tax and deferred taxes in the fiscal year in which they are determined.

There are many transactions and calculations for which the latest tax determination is uncertain. The Company early recognizes tax liabilities based on the estimates as to whether additional taxes must be paid in the future. When the final tax result differs from the amounts initially recognized, any such differences will have an impact on the current and deferred income tax assets and liabilities in the period in which such determination was made.

Deferred tax assets are reviewed at every reporting date and reduced based on the probability that a sufficient tax base might be available to allow recovering these assets in whole or in part. Deferred assets and liabilities are not discounted. When assessing the realizability of deferred tax assets, Management considers it probable that some, or all, deferred tax assets are not realizable.

Whether deferred tax assets are realizable depends on the generation of future taxable income for the periods in which these temporary differences are deductible. In making this assessment, Management takes into account the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies.

NOTE 5: CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Cont'd)

5.2) Current and deferred income tax (Cont'd)

IFRIC 23 - Uncertainty over Income Tax Treatments:

The Company has applied the interpretation of IFRIC 23 to record the current and deferred income tax in relation to the recognition of the tax-purpose inflation adjustment over cumulative tax losses. The Company Management and its external legal advisors consider that there is a strong probability that the Company's extension request will be accepted. See Note 21 (Income tax).

NOTE 6: FINANCIAL RISK MANAGEMENT

In view of its business activities, the Group is exposed to sundry financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk.

These condensed interim consolidated financial statements do not include the information required for the annual consolidated financial statements regarding risk management. They must be read jointly with the financial statements for the year ended on December 31, 2025. No significant changes have been made to risk management policies, except in terms of liquidity risks (see Notes 13 - Loans and 24 - Working capital), since the last annual closing.

Notes to the condensed interim consolidated financial statements (Cont'd)

NOTE 8: INVESTMENTS IN ASSOCIATES

At September 30, 2026 and December 31, 2025, the Group's associate was Solalban Energía S.A.

In 2008, ASA, with a 42% interest, together with Solvay Indupa S.A.I.C. created Solalban Energía S.A. aimed at building a power plant with a generation capacity of 165 MW located in the petrochemical area of the city of Bahía Blanca, Province of Buenos Aires. On January 1, 2021, GMSA absorbed ASA.

On January 14, 2022, GMSA, GROSA and CBEI LLC created a closed corporation in Peru under the name of GM Operaciones S.A.C. (see Note 26).

As from the date of execution of the Shareholders' Agreement (Note 27), GMSA holds factual control of GMOP, as GMSA manages GMOP's operational and financial policies. Starting April 1, 2024, all GMOP transactions are consolidated into GMSA. The investment in Solalban Energia S.A. was classified as assets held for sale at September 30, 2026. See Note 31.

Changes in the investments in the Group's associates for the nine-month periods ended on September 30, 2026 and 2025 are as follows:

	09/30/2026	09/30/2025
At beginning of year	**-**	**2,776**
Income/(Loss) from interests in associates	-	(404)
Other comprehensive income/(loss) - Translation difference	-	(244)
Year end	**-**	**2,128**

Below is a breakdown of the investments and the value of interests held by the Company in the associates at September 30, 2026 and December 31, 2025, as well as the Company's share of profits in the associates for the nine-month periods ended on September 30, 2026 and 2025:

Name of issuing entity	Main activity	% of share interest		Equity value		Share of profit of the Company in income/(loss)	
		09/30/2026	12/31/2025	09/30/2026	12/31/2025	09/30/2026	09/30/2025
Associates

NOTE 10: OTHER FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

	09/30/2026	12/31/2025
Current		
Mutual funds	5,076	5,014
Funds held in trusts	14,376	5,635
	19,452	**10,649**

The funds are administered and held in guarantee trusts for Class XV, XVI, XVII, XVIII, XIX Negotiable Obligations; 2034 International Bonds – Class XLVI Negotiable Obligations Co-Issuance; 2036 International Bonds – Class XLVII Negotiable Obligations Co-Issuance; Class XLVIII Negotiable Obligations Co-Issuance; Class XLIX Negotiable Obligations Co-Issuance; and Class L Negotiable Obligations Co-Issuance. They are restricted in use and, therefore, they were not classified as cash and cash equivalents in the condensed interim consolidated financial statements. See Note 13.

NOTE 11: CAPITAL STATUS

Subscribed, paid-in, and registered share capital at September 30, 2026, amounts to USD 2,523 (ARS 252,762 thousand).

On February 9, 2026, the Merger with AESA (see Note 1) was registered with the Legal Entities' Regulator (IGJ) under No. 2511 of Book 125 of Corporations. See Note 1.

NOTE 12: TRADE PAYABLES

	Note	09/30/2026	12/31/2025
Non-current			
Business agreements		10,789	22,940
		10,789	**22,940**

The carrying amount of other trade payables approximates their fair value since they fall due in the short term.

NOTE 12: TRADE PAYABLES (Cont'd)

Changes in business agreements are detailed below:

Business agreements	09/30/2026	09/30/2025
Balance at beginning of year	41,046	-
Paid business agreements	(15,061)	-
Interest on accrued business agreements	270	-
Interest on paid business agreements	(270)	-
Balances at year end	**25,985**	**-**

In 2025, GMSA and GLSA executed business agreements with strategic suppliers, in order to settle the overdue debt and refinance a short-term debt into a long-term debt, setting an average repayment period of more than 2 years. These agreements include the one with Siemens Energy S.A. for the overdue debt amounting to USD 24,734. The amount owed will be paid in 36 consecutive monthly installments of USD 687 each, with the first payment due on October 25, 2025, and the last on September 25, 2028, bearing compensatory interest at an annual rate of 5.75% on the outstanding balances.

At September 30, 2026, the principal balance for GMSA and GLSA amounts to USD 16,490.

a) GMSA – Consent from holders of Class XV, XVI, XVII, XVIII, and XIX Negotiable Obligations

On February 18, 2026, GMSA announced a request for consent addressed to each and every holder of the Negotiable Obligations relating to the expansion project of the CTE (Class XV and XVI Negotiable Obligations) (the "Ezeiza Negotiable Obligations") and the expansion project of the CTMM located in Río Cuarto (Class XVII, XVIII, and XIX Negotiable Obligations) (the "Río Cuarto Negotiable Obligations", jointly with the "Ezeiza Negotiable Obligations", the "Project Negotiable Obligations").

The proposed amendments modified the terms and conditions of the Project Negotiable Obligations to:

(i) change the scope of the Event of Default relating to the non-payment of financial indebtedness other than the Negotiable Obligations by the Issuer, so that it applies only as from March 2027, and to exclude certain debt of dissenting creditors in the Restructuring process;
(ii) change the scope of the Event of Default relating to insolvency proceedings, so that it applies only to legal proceedings that are not terminated within 180 consecutive days from the proper notice or service of process to the Issuer, and to exclude a possible APE under the Restructuring from said Event of Default; and
(iii) include a new information covenant regarding the development of the Restructuring process.

On March 3, 2026, GMSA reported the closing of these procedures, indicating that the necessary majorities were obtained to approve both requests for consent, and the amendments to the respective prospectus supplements and the consolidated text of the terms and conditions dated August 14, 2025, were published.

These Negotiable Obligations provide for usual Events of Default for this type of transaction. At the date of these condensed interim consolidated financial statements, no Events of Default exist.

b) Negotiable Obligations swap offer and request for consent of Local Negotiable Obligations and Class X Negotiable Obligations (2027 International Bond)

On February 18, 2026, the Co-Issuers announced a local swap offer and request for consent (the "Unsecured Local Offer"), whereby the Co-Issuers (a) offered to swap Class XV, XVI, XIX, XX, XXIII, XXIV, XXV, XXVI, XXVII, XXVIII, XXX, XXXII, XXXIII, XXXIV

NOTE 13: LOANS (Cont'd)

b) Negotiable Obligations swap offer and request for consent of Local Negotiable Obligations and Class X Negotiable Obligations (2027 International Bond) (Cont'd)

XXXV, XXXVI, XXXVII, XXXVIII and XLII Negotiable Obligations, co-issued by them and Class III, VII, IX, X, XI, XII, XIII, XV, XVI, XVII and XVIII Negotiable Obligations issued by Albanesi Energía S.A. (currently, GMSA) (the "Existing Local Negotiable Obligations") for (i) Class XLIII Negotiable Obligations denominated in US dollars and payable in Argentine pesos at the applicable exchange rate ("Class XLIII Negotiable Obligations"), or (ii) Class XLIV Negotiable Obligations denominated and payable in US dollars in the country ("Class XLIV Negotiable Obligations" and, together with the USD Linked New Negotiable Obligations, the "New Local Negotiable Obligations", as applicable, and (b) requested consent to modify the relevant Existing Local Negotiable Obligations or, alternatively, approve the Issuers' APE, in accordance with the terms and subject to the conditions stated in a prospectus supplement and related documentation. Capitalized terms used in these financial statements and not otherwise defined have the meanings given to them in the prospectus supplement dated February 18, 2026 relating to the Unsecured Local Offer, as supplemented and/or amended by the other documents relating to the Unsecured Local Offer (the "Unsecured Local Prospectus Supplement"). The terms of the New Local Negotiable Obligations and of the Unsecured Local Offer may be found in the Local Supplement.

In order to perform the swap of the Existing Local Negotiable Obligations for the New Local Negotiable Obligations — beyond the voluntary swap— as part of the Unsecured Local Offer, the Co-Issuers requested consent from the Eligible Holders to (i) make certain amendments to the terms and conditions of the respective Eligible Negotiable Obligations in accordance with the provisions set forth in the "Swap Offer and Request for Consent" section of the Unsecured Local Supplement, which include (a) the incorporation of a new call option clause at the option of the Co-Issuers, enabling the redemption of the Eligible Negotiable Obligations through the swap of New Negotiable Obligations at the same Swap Ratio applicable to each class of Eligible Negotiable Obligations under the Offer, without taking into account the Early Swap Consideration; (b) the waiver of payment of accrued default interest on the Eligible Negotiable Obligations up to the applicable Issuance and Settlement Date as a result of the failure to timely pay the debt service; and (c) the waiver of any other Event of Default that occurred and remains outstanding at the Expiration Date; and (ii) alternatively to the execution of the Proposed Amendments, approve the execution of an APE and give instructions and grant powers of attorney to Banco Comafi S.A., as consent agent of the accepting holders, so that, on behalf and representation of the Accepting Holders, it may participate in one or more special meetings of holders of the Eligible Negotiable Obligations for the purpose of voting in favor of the execution of the APE and the restructuring proposal contained therein, and execute the APE.

By means of the publication of the results notice dated April 16, 2026, the Co-Issuers announced the final results at the close of the Early Participation Period, which ended on April 15, 2026. At that date, Existing Local Negotiable Obligations with a total principal amount equivalent to USD 314,6 million were tendered in the swap, out of a total principal amount of USD 442,1 million, representing 71.2% of the principal amount of the Existing Local Negotiable Obligations.

Subsequently, on April 23, 2026, the Co-Issuers announced the final results at the close of the Expiration Date, which ended on April 22, 2026. Existing Local Negotiable Obligations with a principal amount equivalent to USD 337,1 million were tendered, out of a total outstanding amount of USD 442,1 million, representing 76.24% of the principal amount of these outstanding Existing Local Negotiable Obligations. Accordingly, in light of the results obtained, the Co-Issuers announced their intention to proceed with an APE.

NOTE 13: LOANS (Cont'd)

b) Negotiable Obligations swap offer and request for consent of Local Negotiable Obligations and Class X Negotiable Obligations (2027 International Bond) (Cont'd)

Afterwards, the Boards of Directors of the Co-Issuers at meetings held on April 27, 2026 decided to call for Special Meetings of Holders of the Existing Local Negotiable Obligations, as well as to call for holders of the 2027 International bonds to gather at meetings held on May 19, 20, and 21, 2026, which were successfully held, achieving the majorities required to enter into the APE so as to move forward with the restructuring of the debt represented by the Existing Local Negotiable Obligations and thereafter submit it to the competent court.

On June 4, 2026, the APE was filed for court approval under the terms of the Bankruptcy Law No. 24522 (hereinafter, the Approval and the LCQ, respectively). On June 22, 2026, the competent court overseeing the relevant legal proceeding (i) declared the APE to have been filed, (ii) ordered the publication of the notices provided for in Section 74 of the LCQ, informing of such filing and the possibility for creditors to file objections, and (iii) ordered the suspension of monetary-claim actions and enforcement proceedings against GMSA and CTR.

Between July 13 and July 30, 2026, the notices were published —across sixteen (16) channels (official gazettes and newspapers)— with proof of publication filed on August 3, 2026.

The New Series A Local Negotiable Obligations for Accepting Holders who had voluntarily entered the Unsecured Local Offer were issued on July 15, 2026, in a nominal amount of USD 289,112 for Class XLIII Negotiable Obligations and in a nominal amount of USD 79,208 for Class XLIV Negotiable Obligations. The Settlement Date took place on July 17, 2026 for Accepting Holders who participated during the Early Participation Period, and on July 23, 2026 for those who participated during the Late Participation Period. In turn, it is expected that the Issuance and Settlement Date of the New Series B Local Negotiable Obligations will take place once the APE is approved by the competent court, in accordance with applicable regulations.

Within the legal period for filing objections to the approval of the APE under Section 75 of the LCQ —which expired on August 17, 2026— eight (8) objections from various creditors were received. These were answered with a request for their dismissal and with additional documentation, which was served on those creditors on September 29, 2026 for a period of ten (10) days —now expired— and the case file is currently under review by the Court.

At the date of presentation of these condensed interim consolidated financial statements, the APE of the Unsecured Local Negotiable Obligations and International bond Class X Negotiable Obligations is pending final approval to conclude the comprehensive restructuring of the financial debt.

NOTE 13: LOANS (Cont'd)

b) Negotiable Obligations swap offer and request for consent of Local Negotiable Obligations and Class X Negotiable Obligations (2027 International Bond) (Cont'd)

As a result of the Approval, the APE will be binding on all creditors holding the Negotiable Obligations covered by the APE, including dissenting and non-participating creditors, and ─as expressly provided in Section 76 of the LCQ (Bankruptcy Law)─ the APE will produce the effects set forth in Section 56 of the LCQ and will be subject to the provisions of Title II, Chapter IV, Sections III, IV and V of the LCQ (including the replacement of the Negotiable Obligations included in new Negotiable Obligations to be issued and delivered to the creditors). Accordingly, the Approval will also bar the initiation or continuation of individual collection actions based on the Covered Negotiable Obligations, the suspension of which was ordered pursuant to Section 72 of the LCQ and the resolution dated June 22, 2026 mentioned above. Additionally, and pursuant to Sections 3.1 and 3.7 of the APE, the issuance and delivery (or making available) of the New Negotiable Obligations entails the extinguishment of the debt represented by the Covered Negotiable Obligations and constitutes compliance with the APE under Section 59 of the LCQ.

The final registration of the Negotiable Obligations issuance remains subject to review within the framework of the judicial approval process of the Out-of-Court Reorganization Plan (APE).

These are the main terms and conditions of the New Local Negotiable Obligations:

b.1) GMSA and CTR Class XLIII Negotiable Obligations Co-issuance:

Nominal value of Class XLIII Negotiable Obligations (Series A): USD 289,112 (USD 277,989 allocated to GMSA and USD 11,123 allocated to CTR).
Currency: US dollar.
Payment Currency: Class XLIII Negotiable Obligations will be payable in Argentine Pesos at the Applicable Exchange Rate.
Maturity of principal June 30, 2036
Interest rate: Class XLIII Negotiable Obligations will accrue interest at a progressive fixed interest rate as detailed below:
(a) 2.25% annual nominal rate, from the day immediately following the Refinancing Date (inclusive) until Class XLIII Interest Payment Date scheduled for June 30, 2030 (exclusive);
(b) 3% annual nominal rate, from June 30, 2030 (inclusive) until Class XLIII Interest Payment Date scheduled for June 30, 2034 (exclusive); and
(c) 4% annual nominal rate, from June 30, 2034 (inclusive) until Class XLIII Maturity Date.

Interest on Class XLIII Negotiable Obligations will be paid semiannually in arrears on June 30 and December 30 of each year, beginning December 30, 2026.

Capitalization option: Provided that no Event of Default has occurred and is continuing, the Issuer may elect to capitalize, in whole or in part, accrued interest for up to four Interest Accrual Periods, which must be communicated by the Issuer through the publication of a payment notice in advance of the related debt service payment, as required by applicable regulations. ("Payment in kind of Class XLIII Negotiable Obligation").

NOTE 13: LOANS (Cont'd)

b) Negotiable Obligations swap offer and request for consent of Local Negotiable Obligations and Class X Negotiable Obligations (2027 International Bond) (Cont'd)

b.1) GMSA and CTR Class XLIII Negotiable Obligations Co-issuance (Cont'd)

The percentage of interest on Class XLIII Negotiable Obligations subject to payment in kind of Class XLIII Negotiable Obligations will be calculated at an annual nominal interest rate increased by 0.75% over the rate applicable to the related interest accrual period of Class XLIII Negotiable Obligations.

Amortization: Class XLIII Negotiable Obligations will be amortized in six (6) consecutive semi-annual installments according to the following schedule:

Principal payment dates:	Percentage of nominal value originally payable (1)
December 30, 2033	5.0%
June 30, 2034	10.0%
December 30, 2034	10.0%
June 30, 2035	10.0%
December 30, 2035	10.0%
June 30, 2036 (2)	55.0%

(1) Such percentage is subject to a proportional (pro rata) reduction upon any decrease in the outstanding principal amounts of Class XLIII Negotiable Obligations as a result of any partial redemption pursuant to the "Redemption at the Co-Issuers' Option" section or other repurchases of the New Negotiable Obligations, to the extent such New Negotiable Obligations are settled. Likewise, such percentage is subject to a proportional (pro rata) increase upon any rise in the outstanding principal amounts as a result of the issuance of Additional Class XLIII Negotiable Obligations (including any New Series B Negotiable Obligations or Class XLIII Negotiable Obligations issued as a result of the payment in kind of Class XLIII Negotiable Obligations).

(2) The final principal installment will occur on the Maturity Date of Class XLIII Negotiable Obligations and will, in any event, be equal to the total outstanding principal balance of Class XLIII Negotiable Obligations unpaid at that time.

b.2) GMSA and CTR Class XLIV Negotiable Obligations Co-issuance:

Nominal value of Class XLIV Negotiable Obligations (Series A): USD 79,208 (USD 75,590 allocated to GMSA and USD 3,618 allocated to CTR).

Currency: US dollar.

Payment Currency: Class XLIV Negotiable Obligations will be denominated in US dollars.

Maturity of principal June 30, 2036.

NOTE 13: LOANS (Cont'd)

b) Negotiable Obligations swap offer and request for consent of Local Negotiable Obligations and Class X Negotiable Obligations (2027 International Bond) (Cont'd)

b.2) GMSA and CTR Class XLIV Negotiable Obligations Co-issuance (Cont'd)

Interest rate: Class XLIV Negotiable Obligations will accrue interest at a progressive fixed interest rate as detailed below:
(i) 2.25% annual nominal rate, from April 1, 2026, the day immediately following the Refinancing Date (inclusive) until Class XLIV Interest Payment Date scheduled for June 30, 2030 (exclusive);
(ii) 3% annual nominal rate, from June 30, 2030 (inclusive) until Class XLIV Interest Payment Date scheduled for June 30, 2034 (exclusive); and
(iii) 4% annual nominal rate, from June 30, 2034 (inclusive) until Class XLIV Maturity Date.

Interest on Class XLIV Negotiable Obligations will be paid semiannually in arrears on June 30 and December 30 of each year, beginning December 30, 2026.

Capitalization option: Provided that no Event of Default has occurred and is continuing, the Issuer may elect to capitalize, in whole or in part, accrued interest for up to four Interest Accrual Periods, which must be communicated by the Issuer through the publication of a payment notice in advance of the related debt service payment, as required by applicable regulations. ("Payment in kind of Class XLIV Negotiable Obligation").

The percentage of interest on Class XLIV Negotiable Obligations subject to payment in kind of Class XLIV Negotiable Obligations will be calculated at an annual nominal interest rate increased by 0.75% over the rate applicable to the related interest accrual period of Class XLIV Negotiable Obligations.

Amortization: Class XLIV Negotiable Obligations will be amortized in six (6) consecutive semi-annual installments according to the following schedule:

Principal payment dates:	Percentage of nominal value originally payable (1)
December 30, 2033	5.0%
June 30, 2034	10.0%
December 30, 2034	10.0%
June 30, 2035	10.0%
December 30, 2035	10.0%
June 30, 2036 (2)	55.0%

(1) Such percentage is subject to a proportional (pro rata) reduction upon any decrease in the outstanding principal amounts of Class XLIV Negotiable Obligations as a result of any partial redemption pursuant to the "Redemption at the Co-Issuers' Option" section or other repurchases of the New Negotiable Obligations, to the extent such New Negotiable Obligations are settled. Likewise, such percentage is subject to a proportional (pro rata) increase upon any rise in the outstanding principal amounts as a result of the issuance of Additional Class XLIV Negotiable Obligations (including any New Series B Negotiable Obligations or Class XLIV Negotiable Obligations issued as a result of the payment in kind of Class XLIV Negotiable Obligations).

NOTE 13: LOANS (Cont'd)

b) Negotiable Obligations swap offer and request for consent of Local Negotiable Obligations and Class X Negotiable Obligations (2027 International Bond) (Cont'd)

b.2) GMSA and CTR Class XLIV Negotiable Obligations Co-issuance (Cont'd)

(2) The final principal installment will occur on the Maturity Date of Class XLIV Negotiable Obligations and will, in any event, be equal to the total outstanding principal balance of Class XLIV Negotiable Obligations unpaid at that time.

b.3) GMSA and CTR Class XLV Negotiable Obligations Co-issuance ("International Bond")

On April 10, 2026, the Co-Issuers announced an international swap offer and request for consent, expiring on May 8, 2026, to approve the Issuers' APE (the "Unsecured International Offer" and collectively with the Unsecured Local Offer, the "Unsecured Concurrent Offers"), whereby the Issuers (a) offered to swap outstanding Class X Negotiable Obligations at a fixed interest rate of 9.625% maturing in 2027 (the "2027 Negotiable Obligations") for Class XLV Negotiable Obligations denominated and payable in US dollars abroad at a fixed and incremental interest rate maturing in 2036 (the "New Unsecured International Negotiable Obligations") under substantially similar terms to the New Local Negotiable Obligations; and (b) consents were requested to amend 2027 Negotiable Obligations or, alternatively, approve the Issuers' APE, in accordance with the terms and subject to the conditions stated in a prospectus supplement and related documentation.

Subsequently, through the disclose of a material event dated April 24, 2026, the Co-Issuers reported partial results at the end of the early participation period, which ended on April 23, 2026, in which approximately USD 52 million of Existing Negotiable Obligations, equivalent to 44.30% of total Class X Negotiable Obligations, participated in the Offer and APE Request. Furthermore, the Co-Issuers reported the extension of the early participation period through May 6, 2026.

On May 07, 2026, the Co-Issuers announced the final results at the close of the Early Participation Period, which ended on May 06, 2026. At that date, a total principal amount equivalent to USD 56.2 million, out of a total principal amount equivalent to USD 117.1 million, which represents 48.03% of the principal amount of Existing Negotiable Obligations, had participated in the Unsecured International Offer.

The Unsecured International Offer also contemplated obtaining consents and instructions for the execution of the APE as set out and explained in Note 13 b); reference is made thereto for a summary of the milestones related to the APE.

NOTE 13: LOANS (Cont'd)

b) Negotiable Obligations swap offer and request for consent of Local Negotiable Obligations and Class X Negotiable Obligations (2027 International Bond) (Cont'd)

b.3) GMSA and CTR Class XLV Negotiable Obligations Co-issuance ("International Bond") (Cont'd)

Finally, on July 8, 2026, the Co-Issuers announced the issuance amounts of the New Unsecured International Negotiable Obligations, in a nominal amount of USD 41,885 for Class XLV Negotiable Obligations, as well as their Issuance and Settlement Dates for the Accepting Holders who had voluntarily entered the Unsecured International Offer. In this regard, the New Unsecured International Negotiable Obligations were issued and settled in favor of the Participating Holders on July 17, 2026. In turn, it is expected that the Issuance and Settlement Date of the New Unsecured International Negotiable Obligations to holders of the 2027 Negotiable Obligations who did not participate in the Unsecured International Offer will take place once the APE is approved by the competent court, in accordance with applicable regulations.

These are the main terms and conditions of the New Negotiable Obligations:

Nominal value of Class XLV Negotiable Obligations (Series A): USD 41,885 (USD 34,532 allocated to GMSA and USD 7,353 allocated to CTR).

Currency: US dollar.
Payment Currency: Class XLIV Negotiable Obligations will be denominated in US dollars.
Maturity of principal June 30, 2036
Interest rate: Class XLV Negotiable Obligations will accrue interest at a progressive fixed interest rate as detailed below:
(i) 2.25% annual nominal rate, from April 1, 2026 (inclusive);
(ii) 3% annual nominal rate, from June 30, 2030 (inclusive) until Class XLV Interest Payment Date scheduled for June 30, 2034 (exclusive); and
(iii) 4% annual nominal rate, from June 30, 2034 (inclusive) until Class XLV Maturity Date.

Interest on Class XLV Negotiable Obligations will be paid semiannually in arrears on June 30 and December 30 of each year, beginning December 30, 2026.

NOTE 13: LOANS (Cont'd)

b) Negotiable Obligations swap offer and request for consent of Local Negotiable Obligations and Class X Negotiable Obligations (2027 International Bond) (Cont'd)

b.3) GMSA and CTR Class XLV Negotiable Obligations Co-issuance ("International Bond") (Cont'd)

Capitalization option: Provided that no Event of Default has occurred and is continuing, the Issuer may elect to capitalize, in whole or in part, accrued interest for up to four Interest Accrual Periods, which must be communicated by the Issuer through the publication of a payment notice in advance of the related debt service payment, as required by applicable regulations. ("Payment in kind of Class XLV Negotiable Obligation").

The percentage of interest on Class XLV Negotiable Obligations subject to payment in kind of Class XLV Negotiable Obligations will be calculated at an annual nominal interest rate increased by 0.75% over the rate applicable to the related interest accrual period of Class XLV Negotiable Obligations.

Amortization: Class XLV Negotiable Obligations will be amortized in six (6) consecutive semi-annual installments according to the following schedule:

Principal payment dates:	Percentage of nominal value originally payable (1)
December 30, 2033	5.0%
June 30, 2034	10.0%
December 30, 2034	10.0%
June 30, 2035	10.0%
December 30, 2035	10.0%
June 30, 2036 (2)	55.0%

(1) Such percentage is subject to a proportional (pro rata) reduction upon any decrease in the outstanding principal amounts of Class XLV Negotiable Obligations as a result of any partial redemption pursuant to the "Redemption at the Co-Issuers' Option" section or other repurchases of the New Negotiable Obligations, to the extent such New Negotiable Obligations are settled. Likewise, such percentage is subject to a proportional (pro rata) increase upon any rise in the outstanding principal amounts as a result of the issuance of Additional Class XLV Negotiable Obligations (including any New Series B Negotiable Obligations or Class XLV Negotiable Obligations issued as a result of the payment in kind of Class XLV Negotiable Obligations).

(2) The final principal installment will occur on the Maturity Date of Class XLV Negotiable Obligations and will, in any event, be equal to the total outstanding principal balance of Class XLV Negotiable Obligations unpaid at that time.

At the date of presentation of these condensed interim consolidated financial statements, the APE of the Unsecured Local Negotiable Obligations and International bond Class X Negotiable Obligations is pending final approval to conclude the comprehensive restructuring of the financial debt.

NOTE 13: LOANS (Cont'd)

b) Negotiable Obligations swap offer and request for consent of Local Negotiable Obligations and Class X Negotiable Obligations (2027 International Bond) (Cont'd)

As a result of the Approval, the APE will be binding on all creditors holding the Negotiable Obligations covered by the APE, including dissenting and non-participating creditors, and ─as expressly provided in Section 76 of the LCQ (Bankruptcy Law)─ the APE will produce the effects set forth in Section 56 of the LCQ and will be subject to the provisions of Title II, Chapter IV, Sections III, IV and V of the LCQ (including the replacement of the Negotiable Obligations included in new Negotiable Obligations to be issued and delivered to the creditors). Accordingly, the Approval will also bar the initiation or continuation of individual collection actions based on the Covered Negotiable Obligations, the suspension of which was ordered pursuant to Section 72 of the LCQ and the resolution dated June 22, 2026 mentioned above. Additionally, and pursuant to Sections 3.1 and 3.7 of the APE, the issuance and delivery (or making available) of the New Negotiable Obligations entails the extinguishment of the debt represented by the Covered Negotiable Obligations and constitutes compliance with the APE under Section 59 of the LCQ.

c) Issuance of secured Class XLVI Negotiable Obligations and secured Class XLVII Negotiable Obligations, to be paid-in with secured Class XXXIX Negotiable Obligations.

On May 4, 2026, the Co-Issuers announced an international swap offer and request for consent (the "International Offer"), whereby the Co-Issuers (a) offered to swap outstanding Class XXXIX Negotiable Obligations (the "Existing Negotiable Obligations"), co-issued by the Co-Issuers, for (i) Class XLVI Negotiable Obligations denominated and payable in US dollars ("Class XLVI Negotiable Obligations"), and (ii) Class XLVII Negotiable Obligations denominated and payable in US dollars ("Class XLVII Negotiable Obligations", and together with Class XLVI Negotiable Obligations, the "New Negotiable Obligations"), in relation to which the Co-Issuers are co-debtors, as applicable, and (b) requested consents to modify certain provisions of the Issuance Agreement dated October 30, 2024 (as amended on November 8, 2024) (the "Existing Issuance Agreement"), and terminate or modify the Collateral documents (as defined in the Existing Issuance Agreement, the "Existing Collateral Documents").

In order to release the collateral securing the Existing Negotiable Obligations, in accordance with the terms and subject to the conditions set forth in the prospectus supplement and related documentation.

The Offer was open up to June 2, 2026. At that date, the Co-Issuers informed that USD 346,457 of Class XXXIX Negotiable Obligations, equivalent to 97.88% of total outstanding Class XXXIX Negotiable Obligations, had participated in the Offer and Request (Early Participation: USD 345,616; Late Participation: USD 841), thus complying with the Minimum Requirements to Participate, the Collateral Release Threshold (at least 85% of principal amount of outstanding Existing Negotiable Obligations) and the Redemption Option Threshold (at least 90% of principal amount of outstanding Existing Negotiable Obligations).

NOTE 13: LOANS (Cont'd)

c) Issuance of secured Class XLVI Negotiable Obligations and secured Class XLVII Negotiable Obligations, to be paid-in with secured Class XXXIX Negotiable Obligations. (Cont'd)

The Issuance and Settlement Date for the voluntary swap by the acceptors of the International Offer (the "International Voluntary Swap") took place on June 5, 2026, and the settlement date for the mandatory swap carried out pursuant to the terms of the Existing Negotiable Obligations and the results of the International Offer (the "International Mandatory Swap") took place on June 15, 2026, such that additional amounts of Negotiable Obligations were issued as a result of the Co-Issuers' exercise of their right to redeem, through the aforementioned International Mandatory Swap, all outstanding Existing Negotiable Obligations after the settlement of the International Voluntary Swap. As a result, Class XXXIX Negotiable Obligations have been fully redeemed and are not outstanding.

The final results are set forth below, taking into account both the International Voluntary Swap and the International Mandatory Swap (together, the "Swaps"):

1. **International Voluntary Swap - issuance amount of the New Negotiable Obligations at June 5, 2026:**
   - Class XLVI Negotiable Obligations: nominal value USD 392,488;
   - Class XLVII Negotiable Obligations: nominal value USD 54,041.

2. **International Mandatory Swap - additional issuance amount of the New Negotiable Obligations at June 15, 2026:**
   - Class XLVI Negotiable Obligations: nominal value USD 8,085;
   - Class XLVII Negotiable Obligations: nominal value USD 1,111.

Swaps - total resulting issuance amount of the New Negotiable Obligations:
- Class XLVI Negotiable Obligations: nominal value USD 400,573;
- Class XLVII Negotiable Obligations: nominal value USD 55,152.

The Company assessed whether the instruments subject to swap were substantially different, considering both qualitative aspects (e.g., currency, term, and rate) and quantitative aspects (whether the present value of the cash flows discounted under the new terms, including any fees paid net of any fees received, and using the original effective interest rates as the discount rate, differs by at least 10% from the discounted present value of cash flows remaining under the original financial liabilities). In this regard, the Company recognized the Negotiable Obligations swap as a modification in accordance with IFRS 9 *Financial Instruments* with respect to the swap of the Class XXXIX Negotiable Obligations co-issuance ("2031 International Bond"), Class XL and XLI Negotiable Obligations co-issuance, and Class XIX and XX Negotiable Obligations (AESA) — the last two detailed in the following item **d)**— given that the instruments subject to swap are not substantially different, as well as an extinguishment of the original debt with respect to the swap of the Private Negotiable Obligations.

As a result of the entire transaction, the Company recognized a gain of USD 3,594, which was recorded within financial results under Income/(loss) from negotiable obligations swap.

NOTE 13: LOANS (Cont'd)

c) Issuance of secured Class XLVI Negotiable Obligations and secured Class XLVII Negotiable Obligations, to be paid-in with secured Class XXXIX Negotiable Obligations. (Cont'd)

The terms and conditions of the New Negotiable Obligations, as well as the other aspects of the International Offer and the Swaps, are described in the International Prospectus Supplement. These are the main terms and conditions of the New Negotiable Obligations:

C.1) GMSA and CTR Secured Class XLVI Negotiable Obligations Co-issuance

Nominal value of Class XLVI Negotiable Obligations: USD 400,573 (USD 362,059 allocated to GMSA and USD 38,514 allocated to CTR).
Currency: US dollar.
Maturity date: December 31, 2034
Interest payment dates: Interest on New Negotiable Obligations shall accrue at the following rates: (i) from and including the Date of Issuance of the New Negotiable Obligations up to but excluding June 30, 2028, at an annual rate of 7.5%; (ii) from and including June 30, 2028 up to but excluding June 30, 2030, at an annual rate of 8%; and (iii) from and including June 30, 2030 up to but excluding the date in which New Negotiable Obligations are fully paid, at an annual rate of 9%. Interest will be paid semiannually in arrears on June 30 and December 31 of each year, beginning on December 31, 2026.
Amortization: New Negotiable Obligations shall be amortized in cash in 17 consecutive installments, on each Payment Date indicated below and on the Maturity Date.

Principal payment dates:	Percentage of nominal value originally payable (1)
December 31, 2026	3.0%
June 30, 2027	3.0%
December 31, 2027	5.0%
June 30, 2028	6.0%
December 31, 2028	6.0%
June 30, 2029	6.0%
December 31, 2029	6.0%
June 30, 2030	6.0%
December 31, 2030	6.0%
June 30, 2031	6.0%
December 31, 2031	6.0%
June 30, 2032	6.0%
December 31, 2032	6.0%
June 30, 2033	7.0%
December 31, 2033	7.0%
June 30, 2034	7.5%
December 31, 2034	Outstanding principal amount

NOTE 13: LOANS (Cont'd)

c) Issuance of secured Class XLVI Negotiable Obligations and secured Class XLVII Negotiable Obligations, to be paid-in with secured Class XXXIX Negotiable Obligations. (Cont'd)

c.1) GMSA and CTR Secured Class XLVI Negotiable Obligations Co-issuance (Cont'd)

(1) Any optional redemption or other repurchase of the New Negotiable Obligations will be applied to the amortization installments in inverse order of maturity and in accordance with the procedures of The Depository Trust Company (DTC).

The secured Class XLVI Negotiable Obligations provide for usual Events of Default for this type of transaction, including, but not limited to, failure to pay principal or interest when due; failure to implement the Reorganization of Unsecured Negotiable Obligations (SUNs) and to reach a SUNs Reorganization Closing Date within a reasonable time; or the Out-of-Court Reorganization Plan (APE) entered into or to be entered into by the Issuers in connection with the Reorganization of SUNs being declared invalid, illegal, or unenforceable by a competent court, and such court decision becoming final. At the date of these condensed interim separated financial statements, no events of default exist.

c.2) GMSA and CTR Secured Class XLVII Negotiable Obligations Co-issuance

Nominal value of Class XVII Negotiable Obligations: USD 55,152 (USD 49,849 allocated to GMSA and USD 5,303 allocated to CTR).

Maturity date: June 30, 2036
Currency: US dollar.
Interest: Interest on Class XLVII Negotiable Obligations will accrue at the following rates:

- from and including the Date of Issue of Class XLVII Negotiable Obligations up to but excluding December 31, 2034, at an annual rate of 10.50%; and
- from and including December 31, 2034 up to but excluding June 30, 2036, at an annual rate of 4%.

From and including the Date of Issue of Class XLVII Negotiable Obligations up to but excluding December 31, 2034, interest on Class XLVII Negotiable Obligations will be payable only in kind in the form of Class XLVI Negotiable Obligations, except in the case of a repurchase or redemption of Class XLVII Negotiable Obligations, or if so determined by the Co-Issuers at their sole discretion, in which case interest will be payable in cash.
Amortization and Maturity: Class XLVII Negotiable Obligations shall be amortized in cash in three (3) consecutive installments, on each Payment Date indicated below and on the Maturity Date (individually, an "Amortization Date"). Payments of principal scheduled on each Amortization Date shall be equivalent in amount to the outstanding principal of Class XLVII Negotiable Obligations at December 31, 2034 (after implementing all increases in the outstanding principal amount of Class XLVII Negotiable Obligations resulting from the relevant in-kind payments) as set forth below next to the applicable Amortization Date.

NOTE 13: LOANS (Cont'd)

c) Issuance of secured Class XLVI Negotiable Obligations and secured Class XLVII Negotiable Obligations, to be paid-in with secured Class XXXIX Negotiable Obligations. (Cont'd)

c.2) GMSA and CTR Secured Class XLVII Negotiable Obligations Co-issuance (Cont'd)

Amortization date	Percentage of principal to be amortized (1)
June 30, 2035	22.50%
December 31, 2035	22.50%
June 30, 2036	Outstanding principal amount

(1) Any optional redemption or other repurchase of Class XLVII Negotiable Obligations will be applied to the amortization installments in inverse order of maturity and in accordance with the procedures of the DTC.

The secured Class XLVII Negotiable Obligations provide for usual Events of Default for this type of transaction, including, but not limited to, failure to pay principal or interest when due; failure to implement the Reorganization of Unsecured Negotiable Obligations (SUNs) and to reach a SUNs Reorganization Closing Date within a reasonable time; or the Out-of-Court Reorganization Plan (APE) entered into or to be entered into by the Issuers in connection with the Reorganization of SUNs being declared invalid, illegal, or unenforceable by a competent court, and such court decision becoming final. At the date of these condensed interim separated financial statements, no events of default exist.

c.3) Collateral

The New Negotiable Obligations will be secured (i) initially, by a first-priority lien over the Initial Collateral, and (ii) thereafter, by a first-priority lien over the Designated Collateral, after full repayment or other settlement of the Designated Debt and the release of the first-priority lien over the Designated Collateral.

The Co-Issuers' obligation to pay principal, interest and other amounts due under the New Negotiable Obligations and Class XLVII Negotiable Obligations is initially secured by first-priority lien over certain assets and receivables (the "Initial Collateral"), which mainly comprise:

(1) Collateral of Timbúes

(a) a fiduciary assignment for guarantee purposes over the receivables arising from the Timbúes Assigned Agreements, including the Timbúes Steam Purchase Agreement, established pursuant to the Local Guarantee Trust Agreement;
(b) a chattel mortgage which grants a first-priority lien over the Timbúes Equipment, established pursuant to the Timbúes Pledge Agreement;
(c) a fiduciary assignment for guarantee purposes of GMSA's contractual position under the Timbúes Usufruct Agreement, including the rights of use and enjoyment over the property held in usufruct and the associated economic rights.

(2) Collateral of Ezeiza

(a) a fiduciary assignment for guarantee purposes over the receivables arising from CCEE Ezeiza 1 and CCEE Ezeiza 2; and
(b) a chattel mortgage which grants a first-priority lien over Ezeiza Simple-Cycle Equipment.

NOTE 13: LOANS (Cont'd)

c) Issuance of secured Class XLVI Negotiable Obligations and secured Class XLVII Negotiable Obligations, to be paid-in with secured Class XXXIX Negotiable Obligations. (Cont'd)

c.3) Collateral (Cont'd)

(3) Collateral of Independencia

(a) a fiduciary assignment for guarantee purposes over the receivables arising from CCEE Independencia;
(b) a chattel mortgage over Independencia Equipment; and
(c) a mortgage which grants a first-priority lien over Independencia Mortgaged Property.

(4) Collateral of Frías

(a) a fiduciary assignment for guarantee purposes over the receivables arising from CCEE Frías; and
(b) a chattel mortgage over Frías Equipment.

(5) Collateral of Riojana

(a) a chattel mortgage which grants a first-priority lien over Riojana Equipment.

(6) Collateral of Maranzana

(a) a chattel mortgage which grants a first-priority lien over Maranzana Simple-Cycle Equipment.

(7) Collateral of Roca

(a) a fiduciary assignment for guarantee purposes over the revenues derived from CTR ("Roca Revenues"); and
(b) a pledge over 75% of the capital stock and voting rights of CTR owned by GMSA, including dividends, distributions, and other rights associated with such shares.

(8) Open Market Revenues

(a) a fiduciary assignment for guarantee purposes over certain receivables from sales of energy and capacity to CAMMESA made under the Base Energy regime or equivalent regulatory schemes.

(9) Solalban's Sale Revenues

(a) a fiduciary assignment for guarantee purposes over Solalban's Sale Revenues.

(10) Syndicated Revenues

(a) a fiduciary assignment for guarantee purposes over Syndicated Revenues.

(11) Other Sales Revenues

(a) a fiduciary assignment for guarantee purposes over certain receivables arising from future sales or asset disposals.

NOTE 13: LOANS (Cont'd)

c) Issuance of secured Class XLVI Negotiable Obligations and secured Class XLVII Negotiable Obligations, to be paid-in with secured Class XXXIX Negotiable Obligations. (Cont'd)

GMSA-CTR Co-Issuers have established one or more guarantee trusts governed by Argentine law in the City of Buenos Aires, pursuant to one or more Local Guarantee Trust Agreements entered into between GMSA, CTR, and the Trustee. The Local Guarantee Trust Agreement operates under an active trust structure that will require monthly reserves to cover: (a) all fees, costs, and expenses of the Trustee, the Local Collateral Agent, the Monitoring Agent, and the AHG Advisors; and (b) incremental and cumulative percentages of the immediately following Payment Date corresponding to interest and principal under the New Negotiable Obligations. Any surplus will be distributed to the Co-Issuers provided that no Event of Default has occurred and survives.

2026 Reserve Schedule: July 2026: 0.0%; August 2026: 0.0%; September 2026: 5.0% (5.0% cumulative); October 2026: 15.0% incremental (20.0% cumulative); November 2026: 30.0% incremental (50.0% cumulative); December 2026: 50.0% incremental (100.0% cumulative).

2027 Reserve Schedule and subsequent years: Month 1: 5.0% (5.0% cumulative); Month 2: 5.0% incremental (10.0% cumulative); Month 3: 2.0% incremental (12.0% cumulative); Month 4: 18.0% incremental (30.0% cumulative); Month 5: 20.0% incremental (50.0% cumulative); Month 6: 50.0% incremental (100.0% cumulative).

Additionally, the issuance documentation provides that, once the financial debt that currently has priority over certain assets (the "Designated Debt") has been fully repaid or otherwise discharged, the New Negotiable Obligations and Class XLVII Negotiable Obligations will be secured by a first Liens on the so-called "Designated Collateral," which comprises: (i) certain CCEEs linked to the syndicated loan; (ii) the guarantees for Maranzana, Ezeiza, and Arroyo Seco expansion projects; (iii) the guarantees associated with additional project indebtedness; (iv) mortgages which grant a first-priority lien over certain properties related to the Maranzana and Ezeiza plants; and (v) equity interests in Talara.

d) Issuance of secured Class XLVIII, XLIX, and L Negotiable Obligations, to be paid-in with secured Class XL and XLI Negotiable Obligations, and secured Class XIX and XX Negotiable Obligations

On May 14, 2026, the Co-Issuers announced a local swap offer and a request for consent (the "Local Offer"), by virtue of which the Co-Issuers offered to swap (A) secured Class XL and Class XLI Negotiable Obligations maturing in 2031, which were co-issued by the Co-Issuers pursuant to the provisions of the prospectus supplement dated November 4, 2024, and (B) secured Class XIX and Class XX Negotiable Obligations maturing in 2031, which were issued by Albanesi Energía S.A. pursuant to the provisions of the prospectus supplement dated November 4, 2024 (jointly (A) and (B), "2031 Local Negotiable Obligations" or "Eligible Negotiable Obligations"), for (i) Class XLVIII Negotiable Obligations ("Class XLVIII Negotiable Obligations"); (ii) Class XLIX Negotiable Obligations ("Class XLIX Negotiable Obligations"); and (iii) Class L Negotiable Obligations ("Class L Negotiable Obligations", and together with Class XLVIII and Class XLIX Negotiable Obligations, the "New Secured Local Negotiable Obligations").

NOTE 13: LOANS (Cont'd)

d) Issuance of secured Class XLVIII, XLIX, and L Negotiable Obligations, to be paid-in with secured Class XL and XLI Negotiable Obligations, and secured Class XIX and XX Negotiable Obligations (Cont'd)

Afterwards, by means of the publication of the results notice dated June 4, 2026, the Co-Issuers announced the final results at the close of the Expiration Date, which ended on June 3, 2026. At that date, Eligible Negotiable Obligations with a total principal amount equivalent to USD 27,262 million were tendered in the swap, out of a total principal amount of USD 29,164 million, representing 93.48% of the principal amount of the outstanding Eligible Negotiable Obligations. In this context, the Co-Issuers reported that they obtained the required Consents for the implementation of the modifications proposed within the framework of the Local Offer.

Then, the Issuance and Settlement Date for the voluntary swap by Accepting Holders of the Local Offer (the "Local Voluntary Swap") took place on June 5, 2025, and the Settlement Date for the mandatory swap conducted under the terms of the Existing Negotiable Obligations and the results of the Local Offer (the "Local Mandatory Swap") took place on June 16, 2026, thus additional amounts of Negotiable Obligations were issued as a result of the exercise of the Co-Issuers' right to redeem, by means of the above-mentioned Mandatory Swap, the total outstanding Eligible Negotiable Obligations after the settlement of the Local Voluntary Swap.

As a result, such Eligible Negotiable Obligations have been fully redeemed and are not outstanding.

Then, final results were reported considering both the Local Voluntary Swap and the International Mandatory Swap (collectively, the "Swaps").

1. **Local Voluntary Swap: issue amount of the New Secured Local Negotiable Obligations at June 5, 2026:**

• Class XLVIII Negotiable Obligations: nominal value: USD 2,106;
• Class XLIX Negotiable Obligations: nominal value: USD 31,029;
• Class L Negotiable Obligations: nominal value: USD 4,504.

2. **International Mandatory Swap: additional issue amount of the New Secured Local Negotiable Obligations at June 16, 2026:**

• Class XLVIII Negotiable Obligations: nominal value: USD 147;
• Class XLIX Negotiable Obligations: nominal value: USD 314;
• Class L Negotiable Obligations: nominal value: USD 62.

Swaps: total resulting issue amount of New Secured Local Negotiable Obligations:

• Class XLVIII Negotiable Obligations: nominal value: USD 2,253;
• Class XLIX Negotiable Obligations: nominal value: USD 31,343;
• Class L Negotiable Obligations: nominal value: USD 4,566.

NOTE 13: LOANS (Cont'd)

d) Issuance of secured Class XLVIII, XLIX, and L Negotiable Obligations, to be paid-in with secured Class XL and XLI Negotiable Obligations, and secured Class XIX and XX Negotiable Obligations (Cont'd)

The terms and conditions of the New Secured Local Negotiable Obligations, as well as the remaining aspects of the Local Offer and the Swaps, are described in the Local Supplement. The New Secured Local Negotiable Obligations are guaranteed by: (a) The Timbúes Guarantee Trust, including, but not limited to, assigned collection rights, the fiduciary assignment for collection right guarantee purposes under the wholesale demand agreement executed with CAMMESA in relation to Central Térmica Timbúes, the steam purchase agreement executed with Renova S.A.; and (b) a chattel mortgage which grants a first-priority lien over the Timbúes Equipment. These guarantees also secure other negotiable obligations issued by the Co-Issuers, and the management and enforcement of these guarantees in common are governed by a creditors' agreement dated June 5, 2026.

These are the main terms and conditions of the New Negotiable Obligations:

d.1) GMSA and CTR Secured Class XLVIII Negotiable Obligations Co-issuance

Nominal Value of Class XLVIII Negotiable Obligations: USD 2,253 (USD 2,137 allocated to GMSA and USD 116 allocated to CTR)

Currency: US dollar.

Payment currency: Class XLVIII Negotiable Obligations shall be payable in US dollars

Maturity of principal December 31, 2034

Interest: Class XLVIII Negotiable Obligations will accrue interest at a progressive fixed interest rate as detailed below:

• from and including the Issuance and Settlement Date up to but excluding June 30, 2028, at an annual rate of 7.5%;

• from and including June 30, 2028 up to but excluding June 30, 2030, at an annual rate of 8%; and

• from and including June 30, 2030 up to but excluding the date in which Class XLVIII Negotiable Obligations are fully paid, at annual rate of 9%.

Interest will be paid semiannually in arrears on June 30 and December 31 of each year, beginning on December 31, 2026.

NOTE 13: LOANS (Cont'd)

d) Issuance of secured Class XLVIII, XLIX, and L Negotiable Obligations, to be paid-in with secured Class XL and XLI Negotiable Obligations, and secured Class XIX and XX Negotiable Obligations (Cont'd)

d.1) GMSA and CTR Secured Class XLVIII Negotiable Obligations Co-issuance (Cont'd)

Amortization: The principal of Class XLVIII Negotiable Obligations will be paid in 17 consecutive installments, on each payment date indicated below, with the final installment due on the Maturity Date of Class XLVIII (individually, an "Amortization Date of Class XLVIII"). Scheduled principal payments of Class XLVIII Negotiable Obligations on each Amortization Date of Class XLVIII will be for an amount equivalent to the percentage of the original principal amount of Class XLVIII Negotiable Obligations issued on the Issuance and Settlement Date:

Principal payment dates:	Percentage of nominal value original payable (1)
December 31, 2026	3.0%
June 30, 2027	3.0%
December 31, 2027	5.0%
June 30, 2028	6.0%
December 31, 2028	6.0%
June 30, 2029	6.0%
December 31, 2029	6.0%
June 30, 2030	6.0%
December 31, 2030	6.0%
June 30, 2031	6.0%
December 31, 2031	6.0%
June 30, 2032	6.0%
December 31, 2032	6.0%
June 30, 2033	7.0%
December 31, 2033	7.0%
June 30, 2034	7.5%
December 31, 2034	Outstanding principal amount

(1) Any optional redemption or other repurchase of Class XLVIII Negotiable Obligations will be applied against amortization installments in inverse order of maturity.

NOTE 13: LOANS (Cont'd)

d) Issuance of secured Class XLVIII, XLIX, and L Negotiable Obligations, to be paid-in with secured Class XL and XLI Negotiable Obligations, and secured Class XIX and XX Negotiable Obligations (Cont'd)

d.2) GMSA and CTR Secured Class XLIX Negotiable Obligations Co-issuance

Nominal Value of Class XLIX Negotiable Obligations: USD 31,343 (USD 30,152 allocated to GMSA and USD 1,191 allocated to CTR)
Currency: US dollar.
Payment currency: Class XLIX Negotiable Obligations will be payable in pesos at the applicable exchange rate.
Maturity of principal December 31, 2034
Interest payment dates: Class XLIX Negotiable Obligations will accrue interest at a progressive fixed interest rate as detailed below:

• from and including the Issuance and Settlement Date up to but excluding June 30, 2028, at an annual rate of 7.5%;
• from and including June 30, 2028 up to but excluding June 30, 2030, at an annual rate of 8%; and
• from and including June 30, 2030 up to but excluding the date in which Class XLIX Negotiable Obligations are fully paid, at annual rate of 9%.

Interest will be paid semiannually in arrears on June 30 and December 31 of each year, beginning on December 31, 2026.

Amortization: The principal of Class XLIX Negotiable Obligations will be paid in 17 consecutive installments, on each payment date indicated below, with the final installment due on the Maturity Date of Class XLIX (individually, an "Amortization Date of Class XLIX"). Scheduled principal payments of Class XLIX Negotiable Obligations on each Amortization Date of Class XLIX will be for an amount equivalent to the percentage of the original principal amount of Class XLIX Negotiable Obligations issued on the Issuance and Settlement Date:

Principal payment dates:	Percentage of nominal value original payable (1)
December 31, 2026	3.0%
June 30, 2027	3.0%
December 31, 2027	5.0%
June 30, 2028	6.0%
December 31, 2028	6.0%
June 30, 2029	6.0%
December 31, 2029	6.0%
June 30, 2030	6.0%
December 31, 2030	6.0%
June 30, 2031	6.0%
December 31, 2031	6.0%
June 30, 2032	6.0%
December 31, 2032	6.0%
June 30, 2033	7.0%
December 31, 2033	7.0%
June 30, 2034	7.5%
December 31, 2034	Outstanding principal amount

(1) Any optional redemption or other repurchase of Class XLIX Negotiable Obligations will be applied against amortization installments in inverse order of maturity.

NOTE 13: LOANS (Cont'd)

d) Issuance of secured Class XLVIII, XLIX, and L Negotiable Obligations, to be paid-in with secured Class XL and XLI Negotiable Obligations, and secured Class XIX and XX Negotiable Obligations (Cont'd)

d.3) GMSA and CTR Secured Class L Negotiable Obligations Co-issuance

Nominal Value of Class L Negotiable Obligations: USD 4,566. (USD 4,389 allocated to GMSA and USD 177 allocated to CTR)

Currency: US dollar.

Payment currency: Class L Negotiable Obligations will be payable in pesos at the applicable exchange rate.

Maturity of principal June 30, 2036

Interest payment dates: Class L Negotiable Obligations will accrue interest at a progressive fixed interest rate as detailed below:

• from and including the Issuance and Settlement Date up to but excluding December 31, 2034 (the "Final Date of Payment in Kind") at an annual rate of 10.5%; and

• from and including the Final Date of Payment in Kind up to but excluding the Class L Maturity Date, at an annual rate of 4%.

From and including the Issuance and Settlement Date up to but excluding the Final Date of Payment in Kind, the interest of Class L Negotiable Obligations will be payable exclusively in kind and at the Co-Issuers' discretion (i) as Additional Class L Negotiable Obligations, or (ii) by the increase of the residual nominal value of each outstanding Class L Negotiable Obligation (individually, a "Payment in Kind"), except in the case of repurchase or redemption of Class L Negotiable Obligations if decided by the Co-Issuers at their sole discretion, in which case interest will be payable in cash.

In case the Co-Issuers decide not to make a Payment in Kind but to pay interest accrued on Class L Negotiable Obligations in cash, the Co-Issuers must inform the holders of their decision in the applicable payment notice. Without explicit clarification in that regard, interest on Class L Negotiable Obligations will be payable as a Payment in Kind up to but excluding the Final Date of Payment in Kind, as applicable.

NOTE 13: LOANS (Cont'd)

d) Issuance of secured Class XLVIII, XLIX, and L Negotiable Obligations, to be paid-in with secured Class XL and XLI Negotiable Obligations, and secured Class XIX and XX Negotiable Obligations (Cont'd)

d.3) GMSA and CTR Secured Class L Negotiable Obligations Co-issuance (Cont'd)

Amortization: The principal of Class L Negotiable Obligations will be paid in 3 consecutive installments, on each payment date indicated below, with the final installment due on the Maturity Date of Class L (individually, an "Amortization Date of Class L"). Scheduled principal payments of Class L Negotiable Obligations on each Amortization Date of Class L will be for an amount equivalent to the percentage of the principal amount of Class L Negotiable Obligations issued and outstanding on the Final Date of Payment in Kind (as defined below):

Amortization date	Percentage of principal to be amortized (1)
June 30, 2035	22.50%
December 31, 2035	22.50%
June 30, 2036	Outstanding principal amount

(1) Any optional redemption or other repurchase of Class L Negotiable Obligations will be applied against amortization installments in inverse order of maturity.

The secured Class XLVIII, XLIX, and L Negotiable Obligations provide for usual Events of Default for this type of transaction, including, but not limited to, failure to pay principal or interest when due; failure to implement the Reorganization of Unsecured Negotiable Obligations (SUNs) and to reach a SUNs Reorganization Closing Date within a reasonable time; or the Out-of-Court Reorganization Plan (APE) entered into or to be entered into by the Issuers in connection with the Reorganization of SUNs being declared invalid, illegal, or unenforceable by a competent court, and such court decision becoming final. At the date of these condensed interim separated financial statements, no events of default exist.

e) Syndicated loan agreement

On March 26, 2026, GMSA and CTR agreed an amendment with the lenders under their Syndicated Loan, extending the principal amortization and achieving a reduction in the applicable interest rate. The monthly amortization schedule ends in August 2028 (30 monthly installments) and the interest rate is reduced to 8.25%. Additionally, modifications to certain terms and conditions were agreed upon. The guarantees provided under the loan remained unchanged. The agreement reached allows the Companies to continue progressing in the process of restructuring liabilities. Amount 100% assigned to GMSA.

The principal balance due on this loan at September 30, 2026 amounts to USD 52,001.

NOTE 13: LOANS (Cont'd)

e) Syndicated loan agreement (Cont'd)

The Syndicated Loan establishes usual Events of Default for this type of transaction including, but not limited to, the following scenarios: i) default on payment at principal or interest maturity date; ii) in case any financial debt owed to a debtor or guarantor is accelerated, matures early, is unpaid at maturity date (or within a grace period), or the obligations deriving from related guarantees or indemnities are not fulfilled, as long as total amount is equal to or higher than USD 20,000; except for defaults reported as Material Events under a Restructuring Process subject to an Out-of-Court Reorganization Plan or any other similar procedure governed by foreign legislation that has already been filed and initiated. This scenario is exempted up to December 31, 2026, which is the date of restructuring set forth in the Syndicated Loan Agreement.

f) Default on principal and interest payments of the main loans

At September 30, 2026, the current accounts held at Banco Supervielle S.A., Banco Hipotecario S.A., Banco Industrial S.A., and Banco Ciudad S.A. are under attachments totaling USD 2,135 and are disclosed under other receivables.

At September 30, 2026, 85 foreclosure proceedings and 2 bankruptcy petitions are filed against the Company by holders of Negotiable Obligations, relating to default on payment of debt services. As a result of the opening of the Out-Of-Court Reorganization Plan (APE), the Company appeared in most of these proceedings and announced the existence of the APE and requested the suspension of foreclosure proceedings filed, as well as the lifting of precautionary measures applied and the restitution of garnished funds, as applicable. As a result, the Company understands that the foreclosure proceedings that fall within the scope of the APE should remain suspended in accordance with the applicable regulations.

Below are the foreclosure proceedings against the Company for an amount higher than USD 50:

1. *Avalian y Bienestar Cooperativa Limitada c/ Generación Mediterránea S.A. s/ Ejecutivo*

Avalian and Bienestar Cooperativa Limitada initiated foreclosure proceedings against GMSA (Case file Avalian y Bienestar Cooperativa Limitada initiated foreclosure proceedings against GMSA (Case file No. 3966/2026), claiming the amount of USD 551 as principal, allegedly arising from the default on the payment of Class X Negotiable Obligations. On June 16, 2026, a judgment was rendered in these proceedings, and on June 22, 2026, GMSA announced the opening of the APE. The judgment was appealed and referred to the Court of Appeals; however, on November 5, 2026, the Court of Appeals ordered that the proceedings be remanded to the Court of First Instance for a ruling on the request for a stay of the enforcement proceedings. In the context of the trial, a precautionary measure for a total amount of ARS 860,320 thousand was established to cover the claimed amount and associated costs. Additionally, such funds are invested in a fixed-term deposit that can be renewed every thirty (30) days.

NOTE 13: LOANS (Cont'd)

f) Default on principal and interest payments of the main loans (Cont'd)

2. Arizmendi, Guillermo Martín y otro c/ Generación Mediterránea S.A. s/ Ejecutivo

On March 9, 2026, Guillermo Martín Arizmendi initiated foreclosure proceedings against GMSA (Case file No. 3540/2026, filed with National Court of First Instance in Commercial Matters No. 7, Court Clerk's Office No. 14), claiming the amount of USD 57 as principal, allegedly arising from the default in the payment of Class X and XVI Negotiable Obligations. On April 10, 2026, GMSA filed an answer to the notice of the proceedings and an objection of title invalidity. On June 4, 2026, the court issued an order for judicial sale, rejecting title invalidity and approving the foreclosure sought. This decision was appealed by GMSA and by CTR and is therefore not yet final. On June 22, 2026, GMSA announced the opening of the APE. In this regard, the first instance court denied the suspension of proceedings; that decision was appealed and is pending before the Court of Appeals.

3. Edificar Seguros S.A. c/ Generación Mediterránea S.A. y otro s/ Ejecutivo

On November 19, 2025, Edificar Seguros S.A. initiated foreclosure proceedings against the Co-Issuers (Case file No. 22765/2025, filed with National Court of First Instance in Commercial Matters No. 12, Court Clerk's Office No. 120), claiming the amount of ARS 577,350 thousand as principal, allegedly arising from the default in the payment of co-issued Class XXIV Negotiable Obligations. The Co-Issuers were duly notified of these proceedings on December 17, 2025. On December 29, 2025, the court issued an order for judicial sale, directing the foreclosure to proceed until full payment of the claimed principal, interest, and costs is made. The Co-Issuers were duly notified of this decision on February 5, 2026. The disputing party has received the full claimed debt amount. Furthermore, the fees awarded in the proceedings have already been paid. Finally, it is reported that the attachment measures imposed at the following institutions have been lifted: Banco de la Ciudad de Buenos Aires, Banco Santander, Banco Supervielle, Banco de la Provincia de Buenos Aires, Banco de Chubut, Banco Industrial, Banco Hipotecario, and Caja de Valores. In turn, Caja de Valores proceeded to pay the Negotiable Obligations.

4. Bezzato, Franco Sebastián c/ Central Térmica Roca S.A. y otro s/ Ejecutivo

On March 3, 2026, Franco Sebastián Bezzato initiated foreclosure proceedings against the Co-Issuers (Case file No. 2886/2026, filed with National Court of First Instance in Commercial Matters No. 9, Court Clerk's Office No. 18), claiming the amount of USD 75 as principal, allegedly arising from the default in the payment of Class XXXVI and XV Negotiable Obligations. The Co-Issuers were duly notified of these proceedings on April 01, 2026. On April 17, 2026, the court issued an order directing the foreclosure against the Co-Issuers solely for the accrued and unpaid interest, as long as the Negotiable Obligations have neither been accelerated nor matured in full. The Co-Issuers were duly notified of this decision on April 18, 2026. This decision is not final; the proceedings remain pending before the Court of Appeals, as it has been appealed by both parties. On June 31, 2026, the Co-Issuers announced the opening of the APE and the court suspended the proceedings. In the context of the trial, a precautionary measure was established to cover the claimed amount and associated costs.

NOTE 13: LOANS (Cont'd)

f) Default on principal and interest payments of the main loans (Cont'd)

5. NFP Group S.A. c/ Generación Mediterránea S.A. y otro s/ Ejecutivo

On March 3, 2026, NFP Group S.A. initiated foreclosure proceedings against the Co-Issuers (Case file No. 2,914/2026, filed with National Court of First Instance in Commercial Matters No. 31, Court Clerk's Office No. 62), claiming the amount of USD 269 as principal, allegedly arising from the default in the payment of Class X and XXIV Negotiable Obligations. The Co-Issuers were duly notified of these proceedings on April 01, 2026. On April 30, 2026, ruling was rendered against the Co-Issuers in the proceedings mentioned above. In the context of the trial, a precautionary measure was established to cover the claimed amount and associated costs for ARS 487,271 thousand, which are invested in a 30-day term deposit with automatic rollover. On June 22, 2026, the Co-Issuers announced the opening of the APE and the court ordered the suspension of foreclosure proceedings.

6. Lentini, Gastón Ariel c/ Central Térmica Roca S.A. y otro s/ Ejecutivo

On March 27, 2026, Gastón Ariel Lentini initiated foreclosure proceedings against the Co-Issuers (Case file No. 6295/2026 filed with National Court of First Instance in Commercial Matters No. 12, Court Clerk's Office No. 120), claiming the amount of USD 211 as principal, allegedly arising from the default in the payment of Class X Negotiable Obligations. On April 14, 2026, the Co-Issuers filed an answer to the notice of the proceedings and an objection of title invalidity. At the date of these financial statements, a ruling has been rendered against the Co-Issuers in the proceedings mentioned above, which is pending appellate review. On July 2, 2026, the Co-Issuers announced the opening of the APE thus suspending the proceedings.

7. Lentini, Gastón Ariel c/ Generación Mediterránea S.A. y otro s/ Ejecutivo

On May 26, 2026, Gastón Ariel Lentini initiated foreclosure proceedings against the Co-Issuers (Case file No. 11161/2026, filed with National Court of First Instance in Commercial Matters No. 3, Court Clerk's Office No. 5), claiming the amount of USD 115 as principal, allegedly arising from the default in the payment of Class X Negotiable Obligations. At the date of these financial statements, no ruling has been rendered in the proceedings mentioned above. On July 2, 2026, the Co-Issuers announced the opening of the APE thus suspending the proceedings.

8. Dubniewski, Walter Uriel c/ Generación Mediterránea S.A. s/ Ejecutivo

On March 2, 2026, Walter Uriel Dubniewski initiated foreclosure proceedings against GMSA (Case file No. 2711/2026, filed with National Court of First Instance in Commercial Matters No. 13, Court Clerk's Office No. 26), claiming the amount of USD 143 as principal, allegedly arising from the default in the payment of Class XV and XVI Negotiable Obligations. On April 15, 2026, GMSA filed an answer to the notice of the proceedings and an objection of title invalidity. On May 12, 2026, a ruling was rendered in favor of GMSA in the proceedings mentioned above. In the context of the trial, a precautionary measure was established to cover the claimed amount and associated costs for ARS 20,765 thousand, which are invested in a 30-day term deposit with automatic rollover. On June 22, 2026, GMSA announced the opening of the APE and the court ordered the suspension of foreclosure proceedings.

NOTE 13: LOANS (Cont'd)

f) Default on principal and interest payments of the main loans (Cont'd)

9. NFP Group S.A. c/ Generación Mediterránea S.A. y otro s/ Ejecutivo

NFP Group S.A. initiated foreclosure proceedings against the Co-Issuers (Case file No. 4986/2026), claiming the amount of USD 114 as principal, allegedly arising from the default on the payment of Class XV, XVI and XXXVI Negotiable Obligations. At the date of these financial statements, no ruling has been rendered in the proceedings mentioned above. On June 22, 2026, the Co-Issuers announced the opening of the APE. Consequently, the court ordered the suspension of proceedings. In the context of the trial, a precautionary measure was established to cover the claimed amount and associated costs for a total amount of ARS 179,478 thousand. Additionally, such funds are invested in a fixed-term deposit that can be renewed every thirty (30) days.

10. Monferini, Mariano c/ Generación Mediterránea S.A. s/ Ejecutivo

On March 18, 2026, Mariano Monferini initiated foreclosure proceedings against GMSA (Case file No. 4783/2026, filed with National Court of First Instance in Commercial Matters No. 9, Court Clerk's Office No. 17), claiming the amount of USD 65 as principal, allegedly arising from the default in the payment of Class XVI and XVII Negotiable Obligations. On April 10, 2026, GMSA filed an answer to the notice of the proceedings and an objection of title invalidity. On April 23, 2026, the court issued an order directing the foreclosure against GMSA for the amount of USD 65 plus interest. GMSA was duly notified on the same date. The Court of Appeals ratified the first instance court ruling. In the context of the trial, a precautionary measure was established to cover the claimed amount plus associated costs for ARS 99,875 thousand, which are invested in a fixed-term deposit. On July 6, 2026, GMSA announced the opening of the APE thus suspending the proceedings.

11. López Chersanaz, Horacio Oscar c/ Generación Mediterránea S.A. y otro s/ Ejecutivo

Horacio Oscar López Chersanaz initiated foreclosure proceedings against the Co-Issuers (Case file No. 9490/2026), claiming the amount of USD 58 as principal, allegedly arising from the default on the payment of Class XXXVI Negotiable Obligations. At the date of these financial statements, no ruling has been rendered in the proceedings mentioned above. On June 22, 2026, the Co-Issuers announced the opening of the APE. On June 25, 2026, the suspension of the foreclosure was ordered under the terms of Section 21 of the Bankruptcy Law No. 24522.

12. López Chersanaz, Horacio Oscar c/ Generación Mediterránea S.A. s/ Ejecutivo

On May 5, 2026, Horacio Oscar López Chersanaz initiated foreclosure proceedings against GMSA (Case file No. 9632/2026), claiming the amount of USD 57 as principal, arising from the default on the payment of Class XLI Negotiable Obligations. At the date of these financial statements, no ruling has been rendered in the proceedings mentioned above. On June 22, 2026, GMSA announced the opening of the APE. On August 14, 2026, the proceedings were suspended.

NOTE 13: LOANS (Cont'd)

f) Default on principal and interest payments of the main loans (Cont'd)

13. Castaño Guerrero, Diego Sebastián c/ Generación Mediterránea S.A. y otro s/ Ejecutivo

Diego Sebastián Castaño Guerrero initiated foreclosure proceedings against the Co-Issuers (Case file No. 4111/2026), claiming the amount of USD 56 as principal. At the date of these financial statements, no ruling has been rendered in the proceedings mentioned above. On June 22, 2026, the Co-Issuers announced the opening of the APE. On June 30, 2026, the suspension of the foreclosure was ordered under the terms of Section 21 of the Bankruptcy Law No. 24522.

14. Roldán Martín c/ Generación Mediterránea S.A. y otro s/ Ejecutivo

On March 3, 2026, Martín Roldán initiated foreclosure proceedings against the Co-Issuers (Case file No. 2942/2026, filed with National Court of First Instance in Commercial Matters No. 22, Court Clerk's Office No. 44), claiming the amount of USD 55 as principal, allegedly arising from the default in the payment of Class XXVI, XVI and XXXVI Negotiable Obligations. On April 24, the Co-Issuers appeared in the case file filing an objection of title invalidity. At the date of these financial statements, a ruling has been rendered in favor of the Co-Issuers in the proceedings mentioned above. On June 22, 2026, the Co-Issuers announced the opening of the APE. On July 1, 2026, the suspension of the foreclosure was ordered under the terms of Section 21 of the Bankruptcy Law No. 24522.

15. Fraire, Luciano c/ Generación Mediterránea S.A. s/ Pedido de Quiebra

On August 8, 2025, Luciano Fraire filed a bankruptcy petition against the Company (Case file No. 13987/2025, filed with National Court of First Instance in Commercial Matters No. 25, Court Clerk's Office No. 49), claiming the amount of USD 374 as principal, plus the relating interest, allegedly arising from the default in the payment of Class XVI, XV, XXXVI and XXXVII Negotiable Obligations. On February 26, 2026, the Company timely appeared in court and filed a response requesting that the bankruptcy petition be dismissed on the grounds that (i) the claimed debt was not duly substantiated; and (ii) the calculation of the amount claimed by the petitioner is incorrect. On April 21, 2026, Luciano Fraire adhered to the Negotiable Obligations swap offer submitted by the Company on February 18, 2026.

g) GLSA - Consent from holders of Class I, III, and IV Negotiable Obligations

On July 28, 2025, GLSA announced a request for consent addressed to each and all holders of Class I, III, and IV Negotiable Obligations to:

On August 13, 2025, the majorities required to approve the requests for consent were obtained, whereby the following amendments to the documents became effective, as shown in the Amendments to the Supplements published on August 14, 2025:

NOTE 13: LOANS (Cont'd)

g) GLSA – Consent from holders of Class I, III, and IV Negotiable Obligations (Cont'd)

The proposed amendments modified the terms and conditions of the Negotiable Obligations to:

- change the principal amortization schedule of the Negotiable Obligations as follows: an 18-month extension of the next amortization dates for Class I and Class IV Negotiable Obligations, and a 36- month extension of the next amortization dates for Class III Negotiable Obligations;
- change the interest rates applicable to Negotiable Obligations by adding 0.50% for Class I Negotiable Obligations and 0.25% for the other Negotiable Obligations;
- prospectively remove the Event of Default that might be triggered by a potential Change of Control;
- include a pledge of shares representing 75% of the capital stock and GLSA's votes as an additional guarantee of the Negotiable Obligations, which are held by GMSA;
- include an additional mandatory prepayment event of the Negotiable Obligations;
- establish a new deadline to reach the Completion Date of the Project, setting it for June 30, 2025. This milestone was reached on August 14, with the publication of the Material Event on August 25, 2025.

The payments made on August 28, 2025 incorporated the changes included in each amendment.

Regarding the guarantees, as the work stage has been completed, the surety bond guaranteeing it and the pledge on 100% of GLSA capital stock were canceled.

The guarantees remain unchanged and are supplemented by a pledge representing 75% of the capital stock and GLSA's votes, which are held by GMSA, as an additional guarantee.

The due dates of Group loans and their exposure to interest rates are as follows:

	09/30/2026	12/31/2025
Fixed rate		
Less than 1 year	284,129	1,285,161
Between 1 and 2 years	91,351	11,315
Between 2 and 3 years	89,393	15,254
More than 3 years	1,056,595	195,966
	1,521,468	**1,507,696**
Floating rate		
Less than 1 year	299	6,725
	299	**6,725**
	1,521,767	**1,514,421**

The fair value of the Company's international bonds at September 30, 2026, and December 31, 2025 amounts to approximately USD 225,056 and USD 290,553, respectively. This value was calculated based on the estimated market price of the Company's international bonds at the end of each period. The applicable fair value category would be Level 1.

Regarding the remaining loans, the carrying amount of short-term financial loans approximates their fair value since they fall due in the short term. Long-term financial loans were measured at amortized cost.

Fair values are based on the present value of the contractual cash flows, using a discount rate derived from the observable market prices of other similar debt instruments plus the related credit risk.

NOTE 13: LOANS (Cont'd)

As a result of the issue of International Bonds, the Company has undertaken standard commitments for this type of issue, whose specific conditions are detailed in the pertinent public prospectus.

As indicated above, at September 30, 2026, the Company defaulted on payments of unsecured local negotiable obligations and 2027 International Bond, therefore, the debt is classified as current.

Group loans are denominated in the following currencies:

	09/30/2026	12/31/2025
Argentine pesos	55,290	145,671
US dollars	1,466,477	1,368,750
	1,521,767	**1,514,421**

Changes in Group's loans during the period were the following:

	09/30/2026	09/30/2025
Loans at beginning of year	**1,514,421**	**1,370,514**
Addition due to merger	-	226,797
Loans received	904,766	413,254
Loans paid	(796,821)	(504,317)

Difference in UVA value	19,978	28,046
Bank overdrafts	(1)	(10,901)
Income/(loss) from negotiable obligations swap	6,623	-
Capitalized expenses	(84,739)	(4,672)
Gain/(loss) on net monetary position (RECPAM)	44	-
Loans at period end	**1,521,767**	**1,517,265**

NOTE 14: ALLOWANCES AND PROVISIONS

Provisions cover contingencies arising in the ordinary course of business and other sundry risks that could create obligations for the Company. In estimating the amounts and probabilities of occurrence, the opinion of the Company's legal advisors has been considered. They include the activity of the provision for trade and other receivables disclosed in the pertinent captions.

NOTE 14: ALLOWANCES AND PROVISIONS (Cont'd)

	For trade receivables	For other receivables
Balances at December 31, 2025	**3**	**47**
Increases	-	4

Total financial results, net	**(126,721)**	**(107,035)**

NOTE 20: EARNINGS/(LOSSES) PER SHARE

Basic

Basic earnings/(losses) per share are calculated by dividing the income attributable to the holders of the Company's equity instruments by the weighted average number of ordinary shares outstanding during the fiscal period.

	Nine-month period at		Three-month period at	
	09/30/2026	09/30/2025	09/30/2026	09/30/2025
(Loss) for the period attributable to the owners	(30,647)	(16,810)	(3,817)	(1,513)
Weighted average of outstanding ordinary shares	252,762	203,124	252,762	203,124
Basic and diluted (losses) per share	**(0.12)**	**(0.08)**	**(0.02)**	**(0.01)**

There are no differences between the calculation of the basic earnings per share and the diluted earnings per share.

NOTE 21: INCOME TAX

Deferred assets and liabilities are offset when: a) there is a legally enforceable right to offset tax assets with tax liabilities; and b) the deferred tax charges are related to the same tax authority. The following amounts, determined after offsetting, are disclosed in the statement of financial position.

	09/30/2026	12/31/2025
Deferred tax assets:		
Deferred tax assets receivable	3,727	1,595
	3,727	**1,595**
Deferred tax liabilities:		
Deferred tax liabilities payable	(226,798)	(231,609)
	(226,798)	**(231,609)**
Deferred tax (liabilities), net	**(223,071)**	**(230,014)**

The gross transactions recorded in the deferred tax account are as follows:

	09/30/2026	09/30/2025
Balance at beginning of year	(230,014)	(223,752)
Addition due to merger (Note 1)	-	(28,643)
Charge to income statement	6,943	12,174
Closing balance	**(223,071)**	**(240,221)**

NOTE 21: INCOME TAX (Cont'd)

The activity in deferred tax assets and liabilities, without considering the offsetting of balances that relate to the same tax jurisdiction, has been as follows:

Items	Balances at 12/31/2025	Charge to income statement	Balances at 09/30/2026
		USD	
Deferred tax - Assets (Liabilities)			
Property, plant and equipment	(346,956)	67,975	(278,981)
Investments	(6,074)	6,512	438
Trade receivables	(2)	-	(2)
Other receivables	2,220	2,035	4,255
Loans	3,601	(2,116)	1,485
Inventories	(2,746)	969	(1,777)
Taxes payable	89	15	104
Trade payables	-	706	706
Provisions	702	856	1,558
Bonus accrual-SC	9	27	36
Deferred assets allowance	(109)	(818)	(927)
Inflation adjustment	(92)	-	(92)
Subtotal	**(349,358)**	**76,161**	**(273,197)**
Deferred tax losses	119,344	(69,218)	50,126
Subtotal	**119,344**	**(69,218)**	**50,126**
Total	**(230,014)**	**6,943**	**(223,071)**

The reconciliation of the Income Tax charged to income/(loss) for the year to that resulting from the application of the tax rate in force in Argentina to the pre-tax profit/(loss) for the nine-month periods ended on September 30, 2026 and 2025 is the following:

	09/30/2026	09/30/2025
Pre-tax profit/(loss)	(29,530)	(24,538)
Current tax rate	35%	35%
Income/(loss) at the tax rate	**10,336**	**8,588**
Permanent differences	1,945	(2,940)
Difference between the income tax provision for the prior year and the tax returns	716	2,236
Income/(loss) from interests in associates	-	(141)
Expiration of tax losses	-	(7,560)
Unrecognized tax losses	(713)	-
Adjustment for application of progressive rate	48	41
Accounting inflation adjustment	(904)	(442)
Inflation adjustment for tax purposes and restatement of tax losses	(27,862)	(99,801)
Expiration of Minimum Notional Income Tax	(2)	(2)
Effects of exchange and translation differences of property, plant and equipment	16,048	109,456
Income tax	**(388)**	**9,435**

NOTE 21: INCOME TAX (Cont'd)

	09/30/2026	09/30/2025
Current tax	(8,039)	(4,973)
Deferred tax	6,937	12,174
Variation between the income tax provision and the tax returns	716	2,236
Expiration of Minimum Notional Income Tax	(2)	(2)
Income tax	**(388)**	**9,435**

The deferred tax assets due to tax losses are recognized as far as the realization of the relevant fiscal benefit through future taxable income is probable.

Income tax losses arising from GMSA, CTR, and GLSA are valued at the rate prevailing in the year in which they are expected to be used, considering their index-adjustment in line with the tax-purpose inflation adjustment procedures mentioned in Note 3 to the consolidated financial statements at December 31, 2025. Based on the guidelines of IFRIC 23 - *Uncertainty over Income Tax Treatments* and in accordance with the opinion of the legal and tax advisors, the Company has restated for inflation the tax losses using the Wholesale Price Index, pursuant to Section 19 of the Income Tax Law. The Company recognizes the deferred tax assets only if there are sufficient future taxable profits against which the tax losses may be offset.

On February 6, 2026, GMSA, CTR, and GLSA initiated declaratory actions for legal certainty under Section 322 of the Argentine Civil and Commercial Procedure Code against the National State – Tax Collection and Customs Control Agency, seeking recognition of the applicability of the index-adjustment of tax losses provided for in Section 25 of the Income Tax Law with respect to their tax return for the 2024 fiscal period. They maintain that, following the reform introduced by Law No. 27430 (Official Gazette published on December 29, 2017), the mechanism has become fully operational given the existence of a confiscatory situation pursuant to the doctrine set forth by the Argentine Supreme Court (CSJN) in "Candy S.A.", "Telefónica Argentina S.A." and related cases, thus eliminating the uncertainty generated by the Argentine Tax Authorities' contrary position.

The Group and its legal advisors consider that the arguments presented by GMSA, CTR, and GLSA are strong and sufficient to support the index-adjustment of tax losses, as they constitute a reasonable interpretation of the applicable regulations. Therefore, there is a strong probability that the Company's extension request will be accepted. At September 30, 2026, the Company did not recognize any liability associated with this matter.

At September 30, 2026, accumulated tax losses amount to USD 143,216 and pursuant to the tax laws in force, they can be offset against tax profits from future fiscal years in accordance with the following breakdown:

Year	Amount in USD	Year of expiration
Tax loss for the year 2021	78	2026
Tax loss for the year 2022 (*)	3,745	2027
Tax loss for the year 2023	23,755	2028
Tax loss for the year 2024	479	2029
Tax loss for the year 2025	119,461	2030
Total accumulated tax losses at September 30, 2026	**147,518**	
Unrecognized tax losses	(4,302)	
Recorded tax losses	**143,216**	

(*) From losses generated in 2022, USD 3,720 are specific losses.

NOTE 22: FINANCIAL AND NON-FINANCIAL ASSETS AND LIABILITIES

The following tables show the financial assets and financial liabilities per category of financial instruments and reconciliation with the line exposed in the statement of financial position, as applicable. As the captions Trade and other receivables and Trade and other payables contain both financial instruments and financial assets or liabilities, such as advances, receivables and tax debts), the reconciliation is shown in Non-financial assets and Non-financial liabilities.

Financial assets and liabilities at September 30, 2026, and December 31, 2025 were as follows:

At September 30, 2026	Financial assets/liabilities at amortized cost	Financial assets/liabilities at fair value through profit or loss	Non-financial assets/liabilities	Total
Assets				
Trade receivables, other receivables and others	106,274	-	22,403	128,677
Other financial assets at fair value through profit or loss	-	19,452	-	19,452
Cash and cash equivalents	6,574	8,039	-	14,613
Non-financial assets	-	-	1,773,645	1,773,645
Total	**112,848**	**27,491**	**1,796,048**	**1,936,387**
Liabilities				
Trade and other payables	86,049	-	-	86,049
Loans (finance leases excluded)	1,518,649	-	-	1,518,649
Finance leases	3,118	-	-	3,118
Non-financial liabilities	-	-	243,667	243,667
Total	**1,607,816**	**-**	**243,667**	**1,851,483**

At December 31, 2025	Financial assets/liabilities at amortized cost	Financial assets/liabilities at fair value through profit or loss	Non-financial assets/liabilities	Total
Assets				
Trade receivables, other receivables and others	86,433	-	21,721	108,154
Other financial assets at fair value through profit or loss	-	10,649	-	10,649
Cash and cash equivalents	3,649	6,245	-	9,894
Non-financial assets	-	-	1,831,403	1,831,403
Total	**90,082**	**16,894**	**1,853,124**	**1,960,100**
Liabilities				
Trade and other payables	82,655	-	-	82,655
Loans (finance leases excluded)	1,510,714	-	-	1,510,714
Finance leases	3,707	-	-	3,707
Non-financial liabilities	-	-	250,871	250,871
Total	**1,597,076**	**-**	**250,871**	**1,847,947**

NOTE 22: FINANCIAL AND NON-FINANCIAL ASSETS AND LIABILITIES (Cont'd)

The categories of financial instruments were determined based on IFRS 9.

Below are presented the revenues, expenses, profits, and losses arising from each financial instrument category.

At September 30, 2026	Financial assets at amortized cost	Financial liabilities at amortized cost	Non-financial instruments	Assets/Liabilities at fair value	Total
Interest gain	2,975	-	-	-	2,975
Interest expense	-	(96,712)	-	-	(96,712)
Changes in the fair value of financial instruments	-	-	-	1,858	1,858
Exchange differences, net	(447,525)	449,734	-	-	2,209
Other financial costs	-	(14,245)	(2,828)	(19,978)	(37,051)
Total	**(444,550)**	**338,777**	**(2,828)**	**(18,120)**	**(126,721)**

At September 30, 2025	Financial assets at amortized cost	Financial liabilities at amortized cost	Non-financial instruments	Assets/Liabilities at fair value	Total
Interest gain	4,170	-	-	-	4,170
Interest expense	-	(115,385)	-	-	(115,385)
Changes in the fair value of financial instruments	-	-	-	(842)	(842)
Exchange differences, net	(619,340)	661,889	-	-	42,549
Other financial costs	-	(7,076)	(2,405)	(28,046)	(37,527)
Total	**(615,170)**	**539,428**	**(2,405)**	**(28,888)**	**(107,035)**

Determination of fair value

GMSA classifies fair value measurements of financial instruments using a three-level hierarchy, which gives priority to the inputs used in making such measurements. Fair value hierarchies:

- Level 1: Inputs such as (unadjusted) quoted prices in active markets for identical assets or liabilities;
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., prices) or indirectly (i.e., deriving from prices).
- Level 3: Inputs on the assets or liabilities not based on observable market inputs (i.e., unobservable inputs).

NOTE 22: FINANCIAL AND NON-FINANCIAL ASSETS AND LIABILITIES (Cont'd)

These charts show the financial assets and liabilities of the Group measured at fair value at September 30, 2026 and December 31, 2025 and their allocation to the different hierarchy levels:

At September 30, 2026	Level 1	Level 3	Total
Assets			
Cash and cash equivalents			
Mutual funds	8,039	-	8,039
Other financial assets at fair value through profit or loss			
Mutual funds	19,452	-	19,452
Property, plant and equipment at fair value	-	1,740,126	1,740,126
Total	**27,491**	**1,740,126**	**1,767,617**

At December 31, 2025	Level 1	Level 3	Total
Assets			
Cash and cash equivalents			
Mutual funds	3,842	-	3,842
Short-term investments	2,403	-	2,403
Other financial assets at fair value through profit or loss			
Mutual funds	10,649	-	10,649
Property, plant and equipment at fair value	-	1,801,799	1,801,799
Total	**16,894**	**1,801,799**	**1,818,693**

There were no reclassifications of financial instruments among the different levels.

The fair value of financial instruments traded in active markets is based on quoted market prices at the date of the statement of financial position. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in Level 1.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximize the use of observable market data where it is available and rely as little as possible on the Company's specific estimates. If all significant inputs required to determine the fair value of a financial instrument are observable, the instrument is included in Level 2. No financial instruments should be included in Level 2. If one or more of the significant inputs are not based on observable market inputs, the financial instrument is included in Level 3. These instruments are included in Level 3. This is the case of the revaluation of certain categories of property, plant and equipment.

NOTE 22: FINANCIAL AND NON-FINANCIAL ASSETS AND LIABILITIES (Cont'd)

Determination of fair value (Cont'd)

Specific valuation techniques used to determine the fair value of property, plant and equipment include:

a) The fair values of real property and land have been adjusted by a method using coefficients that comprise changes in the purchasing power of the currency to conform a fair value.

b) The fair values of Facilities and Machinery and turbines have been calculated by means of the discounted cash flows (see Note 5).

The fair value determination of property, plant and equipment is significantly affected by the dollar exchange rate. This situation, valuation processes and results are discussed and approved by the Board of the Companies at least once a year.

NOTE 23: TRANSACTIONS AND BALANCES WITH RELATED PARTIES

a) Transactions with related parties and associates

Interest paid	-	806
Closing balance	**(18,680)**	**(17,383)**

The loans are governed by the following terms and conditions:

Entity	Amount in thousands of USD	Interest rate	Conditions
At 09/30/2026			
RGA	(17,039)	8% in USD	Maturity date: March 31, 2031
Total in USD	**(17,039)**		

	09/30/2026	09/30/2025
Loans from other related parties		
Balance at beginning of year	(470)	-
Accrued interest	(28)	-
Balances at year end	**(498)**	**-**

The loans are governed by the following terms and conditions:

Entity	Amount in thousands of USD	Interest rate	Conditions
At 09/30/2026			
Loans from other related parties	470	Interest rate	Maturity date: 1 year
Total in thousands of US dollars	**470**		

Receivables from related parties arise mainly from transactions of services provided and fall due in the month following the transaction date. No allowances have been recorded for these receivables from related parties in any of the periods covered by these condensed interim consolidated financial statements. Trade payables with related parties arise mainly from transactions of purchases of gas and fall due in the month following the transaction date. Transactions with related parties are performed under similar conditions to those carried out with independent parties.

NOTE 24: WORKING CAPITAL

At September 30, 2026, the Company reports a negative working capital of USD 214,966 (calculated as current assets less current liabilities), which means a decrease of USD 1,025,367, compared to the working capital at December 31, 2025 (a USD 1,240,333 deficit). Negative working capital fell significantly due to the refinancing of secured Negotiable Obligations and the projects' Negotiable Obligations. At September 30, 2026, the final approval of the APE is still pending to complete the restructuring of the local Negotiable Obligations and the 2027 Bond, and, consequently, the comprehensive debt restructuring process.

EBITDA(*) for the nine-month period ended on September 30, 2026 amounted to USD 175,900, as expected. Additionally, annualized EBITDA(*) recorded in GMSA's consolidated financial statements at September 30, 2026 was USD 221,034.

(*) Amount not covered by the audit report. It was determined based on the guidelines of the international bonds.

On April 30, 2025, through the disclosure of a material event, GMSA and CTR announced that they would not make interest payments on co-issued Class XXXIX, XL, and XLI Negotiable Obligations, which were due on May 5, 2025. Subsequently, through the disclosure of several material events, the Co-Issuers and AESA informed that debt services on other financial obligations would not be paid at maturity, noting that they were undergoing a Restructuring process, seeking to prioritize the continuity of their operations and to preserve the interests of their creditors and other stakeholders while exploring alternatives and proposals to address the situation. The failure to make timely payments on these obligations constituted events of default under the terms and conditions applicable to such financial borrowings, once the respective grace periods had elapsed.

Throughout the Restructuring process, the Co-Issuers prioritized uninterrupted operations across their entire thermal generation platform. During this period, generating assets achieved an average availability of approximately 92%, as a result of coordinated maintenance planning and the continuous fulfillment of dispatch and performance obligations under supply agreements with CAMMESA, as well as private energy purchase agreements. Additionally, fuel supply and transportation agreements were maintained to support Energía Plus deliveries and co-generation commitments, enabling the Co-Issuers to preserve their primary sources of operating income during the restructuring period. Furthermore, during 2025, the Co-Issuers completed all scheduled preventive inspections with original equipment manufacturers, including Siemens at CTCT and CTI, General Electric at CTR, and Mitsubishi at CTF. Simultaneously, the Co-Issuers Management established strategic agreements with key suppliers to extend payment terms and ensure continuity in the supply of critical spare parts and services. These agreements included the advance purchase of long-lead components necessary for future overhauls, risk mitigation, and support for fleet reliability beyond the immediate restructuring timeframe.

At the date of these condensed interim financial statement, the comprehensive financial restructuring for an approximate amount of USD 1.5 billion in national and international capital markets is in an advanced stage of success. The restructuring process was carried out without applying any reductions to the principal amount owed and covered the total liabilities incurred in the process. The Company aims to establish a more sustainable financial structure that aligns with the projected cash flow generation for the coming years. At all times, the main objective was

NOTE 24: WORKING CAPITAL (Cont'd)

to act with equity and respect toward all creditor groups that trusted in our company. The commitment demonstrated during the most challenging times is our greatest asset and reflects the values that define us as a company. As mentioned in Note 13, at the date of these financial statements, the APE is pending final approval to conclude the comprehensive restructuring of the debt.

As the Group Companies have been reporting through material event disclosures on the CNV's Financial Information Highway and various relevant publications and channels, the key milestones and current status of the Restructuring to date are highlighted below:

Project Negotiable Obligations:

On February 18, 2026, GMSA issued new requests for consent to amend some of the terms of certain classes of Project Negotiable Obligations, specifically Classes XV and XVI (Ezeiza Project) on one hand, and Classes XVII, XVIII, and XIX (Río Cuarto Project) on the other. The objective of these requests is to adapt the default event scheme without modifying the economic terms and conditions of these Negotiable Obligations, to allow the continuation of the Restructuring regarding the remaining indebtedness involved. On March 3, 2026, GMSA reported the closing of these procedures, indicating that the necessary majorities were obtained to approve both requests for consent.

More recently, on March 3, 2026 (GMSA under ID Nos. 3489589 and 3489590), the Co-Issuers reported the successful outcome of the requests for consent to amend the terms and conditions of various classes of Negotiable Obligations issued for project financing (namely, GMSA Class XV, XVI, XVII, XVIII, and XIX Negotiable Obligations) for a total amount of USD 442,000. See Note 13.a)

XXXIX Negotiable Obligations (2031 International Bond) and RUFO (Co-issuance of Class XL and XLI Negotiable Obligations, and AESA Class XIX and XX Negotiable Obligations):

On May 4, 2026, the Co-Issuers announced an international swap offer and request for consent whereby the Co-Issuers (a) offered to swap outstanding Class XXXIX Negotiable Obligations co-issued by the Co-Issuers for (i) Class XLVI Negotiable Obligations denominated and payable in US dollars and (ii) Class XLVII Negotiable Obligations denominated and payable in US dollars ("Class XLVI Negotiable Obligations") and (ii) Class XLVII Negotiable Obligations denominated and payable in US dollars in relation to which the Co-Issuers are co-debtors, as applicable, and (b) requested consents to modify certain provisions of the Issuance Agreement dated October 30, 2024 and terminate or modify the Collateral documents to release the collaterals that secure the Existing Negotiable Obligations, in accordance with the terms and subject to the conditions stated in the prospectus supplement and related documentation. (See new conditions in Note 13: Loans c). The Offer was open up to June 2, 2026. At that date, the Co-Issuers informed that USD 346,457 of Class XXXIX Negotiable Obligations, equivalent to 97.88% of total outstanding Class XXXIX Negotiable Obligations, had participated in the Offer and Request (Early Participation: USD 345,616; Late Participation: USD 841), thus complying with the Minimum Requirements to Participate, the Collateral Release Threshold (at least 85% of principal amount of outstanding Existing Negotiable Obligations) and the Redemption Option Threshold (at least 90% of principal amount of outstanding Existing Negotiable Obligations).

NOTE 24: WORKING CAPITAL (Cont'd)

XXXIX Negotiable Obligations (2031 International Bond) and RUFO (Co-issuance of Class XL and XLI Negotiable Obligations, and AESA Class XIX and XX Negotiable Obligations) (Cont'd):

On May 14, 2026, the Co-Issuers announced a local swap offer and request for consent, by virtue of which the Co-Issuers offered to swap (a) secured Class XL and XLI Negotiable Obligations maturing in 2031, which were co-issued by the Co-Issuers in accordance with the prospectus supplement dated November 4, 2024, and (b) secured Class XIX and XX Negotiable Obligations maturing in 2031, which were issued by Albanesi Energía S.A. in accordance with the prospectus supplement dated November 4, 2024, for (i) Class XLVIII Negotiable Obligations; (ii) Class XLIX Negotiable Obligations; and (iii) Class L Negotiable Obligations. (See new conditions in Note 13: Loans). Afterwards, by means of the publication of the results notice dated June 4, 2026, the Co-Issuers announced the final results at the close of the Expiration Date, which ended on June 3, 2026. At that date, Eligible Negotiable Obligations with a total principal amount equivalent to USD 27,262 million were tendered in the swap, out of a total principal amount of USD 29,164 million, representing 93.48% of the principal amount of the outstanding Eligible Negotiable Obligations. In this context, the Co-Issuers reported that they obtained the required Consents for the implementation of the modifications proposed within the framework of the Local Offer.

The Issuance and Settlement Date for the voluntary swap by the holders accepting the International and Local Offer (the "Voluntary Swap") took place on June 5, 2025, and the Settlement Date for the mandatory swap conducted under the terms of the Existing Negotiable Obligations and the results of the International and Local Offer (the "Mandatory Swap") took place on June 15 and 16, 2026, thus additional amounts of Negotiable Obligations were issued as a result of the exercise of the Co-Issuers' right to redeem, by means of the above-mentioned Mandatory Swap, the total outstanding Existing Negotiable Obligations after the settlement of the Voluntary Swap. (For further details, see Note 13 c and d).

Unsecured Local Negotiable Obligations:

On February 18, 2026, the Co-Issuers announced a local swap offer and request for consents, by virtue of which the Co-Issuers (a) offered to swap total Class XV, XVI, XIX, XX, XXIII, XXIV, XXV, XXVI, XXVII, XXVIII, XXX, XXXII, XXXIII, XXXIV, XXXV, XXXVI, XXXVII, XXXVIII and XLII Negotiable Obligations, co-issued by the Co-Issuers and outstanding Class III, VII, IX, X, XI, XII, XIII, XV, XVI, XVII and XVIII Negotiable Obligations issued by AESA (currently, GMSA) for (i) Class XLIII Negotiable Obligations denominated in US dollars and payable in pesos at the applicable exchange rate; and (ii) Class XLIV Negotiable Obligations denominated and payable in US dollars in the country and (b) requested consents to modify the applicable Local Existing Negotiable Obligations or, alternatively, to approve the Issuers' APE, in accordance with the terms and subject to the conditions stated in the prospectus supplement and related documentation.

The Co-Issuers announced their intention to proceed with an APE by means of the publication of the final results, whereby Existing Local Negotiable Obligations were submitted, with a total principal amount equivalent to USD 337.1 million, out of a total principal outstanding amount equivalent to USD 442.1 million, representing 76.24% of the principal amount. Special Meetings of Holders of the Existing Local Negotiable Obligations were called for the consideration of the APE execution. These meetings were held on May 19, 20, and 21, 2026 On May 22, 2026, the Co-Issuers informed Holders that these meetings were successfully held, having obtained the required majorities for the APE's approval, in order to restructure the debt represented by the Existing Local Negotiable Obligations and subsequently submit it to the competent court.

NOTE 24: WORKING CAPITAL (Cont'd)

Unsecured Local Negotiable Obligations (Cont'd):

On June 8, 2026, through the disclosure of material events, the Co-Issuers reported that the APE has been executed and requested the court's final approval. On June 22, 2026, the Co-Issuers reported that the competent court overseeing the APE ordered the publication of the notices provided for in Section 74 of the Bankruptcy Law. Additionally, on July 6, 2026, the court ordered that the publication be resumed. This milestone is related to the issuance of New Local Negotiable Obligations by holders voluntarily accepting the Unsecured Local Offer.

On July 8, 2026, the Co-Issuers announced the issuance amounts of the New Series A Local Negotiable Obligations, in a nominal amount of USD 289,112 for Class XLIII Negotiable Obligations, and in a nominal amount of USD 79,208 for Class XLIV Negotiable Obligations, as well as their Issuance and Settlement Date for the Accepting Holders who had voluntarily entered the Unsecured Local Offer. (See the Negotiable Obligations conditions in Note 13 b): Loans).

In turn, it is expected that the Issuance and Settlement Date of the New Series B Local Negotiable Obligations will take place once the APE is approved by the competent court, in accordance with applicable regulations.

Class X Negotiable Obligations (2027 International Bond):

On April 10, 2026, an international swap offer and request for consent to approve the Issuers' APE were announced, whereby the Issuers (a) offered to swap outstanding Class X Negotiable Obligations at a fixed interest rate of 9.625% maturing in 2027 (the "2027 Negotiable Obligations") for Class XLV Negotiable Obligations denominated and payable in US dollars abroad at a fixed and incremental interest rate maturing in 2036 (the "New Unsecured International Negotiable Obligations") under substantially similar terms to the New Local Negotiable Obligations; and (b) requested consents to amend 2027 Negotiable Obligations or, alternatively, approve the Issuers' APE, in accordance with the terms and subject to the conditions stated in a/the prospectus supplement and related documentation.

Upon publication of the final results, Existing International Negotiable Obligations were submitted, with a total principal amount equivalent to USD 56.2 million, out of a total principal amount equivalent to USD 117.1 million, representing 48.03% of the principal amount of the Existing Negotiable Obligations. The Unsecured International Offer also provided for the request of consents and instructions for the execution of the APE.

Finally, on July 8, 2026, the Co-Issuers announced the issuance amounts of the New Unsecured International Negotiable Obligations, in a nominal amount of USD 41,885 for Class XLV Negotiable Obligations, as well as their Issuance and Settlement Dates for the Accepting Holders who had voluntarily entered the Unsecured International Offer. In this regard, the New Unsecured International Negotiable Obligations will be issued and settled in favor of the Participating Holders on July 17, 2026. In turn, it is expected that the Issuance and Settlement Date of the New Unsecured International Negotiable Obligations to holders of the 2027 Negotiable Obligations who did not participate in the Unsecured International Offer will take place once the APE is approved by the competent court, in accordance with applicable regulations. (See the Negotiable Obligations conditions in Note 13 b): Loans).

NOTE 24: WORKING CAPITAL (Cont'd)

Class X Negotiable Obligations (2027 International Bond) (Cont'd):

At the date of presentation of these condensed interim consolidated financial statements, the APE (of the unsecured Local Negotiable Obligations and Class X Negotiable Obligations (2027 International Bond) is pending final approval to conclude the comprehensive restructuring of the debt.

Syndicated loan:

GMSA and CTR have been engaging in discussions with the lenders under their Syndicated Loan, aiming to extend the principal repayment term and achieve a reduction in the applicable interest rate, in each case with the objective of aligning the debt service under the Syndicated Loan with the operational cash flows of the Co-Issuers.

On March 27, 2026, a material event was disclosed to inform that, on March 26, 2026, an amendment to the syndicated loan was executed (See more details in Note 13.e).

NOTE 25: SEGMENT REPORTING

The information on exploitation segments is presented in accordance with the internal information furnished to the chief operating decision maker (CODM). The Board of Directors of the Company has been identified as the highest authority in decision-making, responsible for allocating resources and assessing the performance of the operating segments.

Management has determined the operating segment based on reports reviewed by the Board of Directors and used for strategic decision making.

At December 31, 2024, the Board of Directors of GMSA considers the business as a single segment: the Electric Energy segment. It comprises the generation and sale of electricity, the development and execution of energy projects, advisory tasks, service delivery, and management and execution of works of any nature. In turn, at December 31, 2024, and after having obtained the commercial authorization for generation and delivery of steam in February 2019, the Board of Directors of AESA considers the business as two separate segments: generation and sale of electric energy, and generation and sale of steam.

As from January 1, 2025, date on which AESA merged into GMSA, the Board of Directors considers the business as two separate segments: generation and sale of electric energy and generation and sale of steam.

NOTE 25: SEGMENT REPORTING (Cont'd)

The information used by the Board of Directors for decision-making is based primarily on operating indicators of the business. Considering that the adjustments between the previous accounting standards and IFRS refer to non-operating items, this information has not been substantially affected by the application of new standards.

NOTE 26: AWARD OF TALARA REFINERY MODERNIZATION PROJECT

On January 12, 2022, GMSA was awarded, under the framework of the Abbreviated Bidding Process, the "Talara Refinery Modernization Project - Process for engaging the operating management service of auxiliary unit packages of Talara Refinery (Package 4)" called for by Petróleos del Perú S.A.

The purpose of the bidding process was to engage a specialized legal entity to undertake the operating management of Package 4 of Talara Refinery Auxiliary Units, located in the City of Talara, District of Pariñas, Perú. Package 4 consists of the following components:

- Electric co-generation units (GE), 100MW
- Water distribution unit for Boilers (steam generation system)
- Condensed treatment unit (RCO)
- Electrical Stations (GE2, GE1)

In this way, the engagement includes the beneficial interest of GMSA over the assets that form part of Package 4, an agreement with Petroperú for the supply of electricity, steam and water for boilers, and operation and maintenance of substations GE2 and GE1 for a term of 20 years counted as from the "operating stage".

With the purpose of operating the cogeneration plant in Talara, GMSA (25% equity interest), GROSA (25%) and CBEI LLC (50%) created on January 14, 2022 a closed corporation in Peru under the name of GM Operaciones S.A.C.

At September 30, 2026, GMSA holds an interest in GMOP of PEN 3,375,250 (three million three hundred and seventy-five thousand two hundred and fifty) with an equal number of fully subscribed and paid-up shares representing 25% of the total capital stock of the latter. GROSA also holds an interest in GMOP of PEN 3,375,250 (three million three hundred and seventy-five thousand two hundred and fifty) with an equal number of fully subscribed and paid-up shares representing 25% of the total capital stock of the latter.

Thus, on November 14, 2022, GMOP entered into two complementary agreements with Petróleos del Perú – Petroperú SA to operate and maintain the co-generation Power Plant known as Package 4: On the one hand, a usufruct agreement whereby (i) GMOP is granted a usufruct title over the area covered by the Cogeneration Plant, and (ii) the operation and maintenance obligations assumed by GMOP on the assets

NOTE 26: AWARD OF TALARA REFINERY MODERNIZATION PROJECT (Cont'd)

comprising Package 4 are regulated; and, on the other hand, an agreement for the supply of electricity, steam, and water for boilers to the Talara Refinery and the operation and maintenance of the GE2 and GE1 substations, with a duration of 20 years from the "operational stage".

GMSA and its subsidiaries received approval from the relevant authority for the commercial operation of plant Central de Cogeneración de la Refinería de Talara with an installed capacity of 100 MW effective on April 19, 2024. Furthermore, the operational stage of the agreement with Petróleos del Perú – Petroperú S.A. commenced, supplying electricity and 600 tn/h of process steam for the Talara Refinery.

Petróleos del Perú – Petroperú SA,'s current situation

On December 31, 2025, Emergency Decree No. 010-2025 was issued, establishing extraordinary economic and financial measures aimed at the reorganization of PETROPERÚ S.A., with the declared objective of ensuring the continuity of the hydrocarbon production and supply chain. In a context of structural solvency crisis affecting the state-owned company, with a direct impact on national energy security and the provision of essential public services, the Private Investment Promotion Agency (ProInversión), under the Ministry of Economy and Finance of Peru, was entrusted with the design and comprehensive management of the reorganization process, with the authority to define the applicable promotion modality, select private operators, and structure trust agreements. Additionally, the regulation prohibiting the sale or transfer of assets was repealed.

Payments that Petroperú must make depend, among other factors, on its financial situation; operational liquidity; the performance of its refining, marketing, and hydrocarbon transportation activities, as well as on the financial support it may receive from the Peruvian State. In recent years, Petroperú has faced significant financial difficulties, including high levels of indebtedness, recurring operating losses, liquidity constraints, and the need to receive capital contributions, guarantees, and financing from the Peruvian State to meet its financial and operational obligations.

To the extent that Petroperú does not have sufficient resources, it may incur delays in payments, rescheduling, non-monetary compensations, or defaults on its contractual obligations, which could adversely affect the financial position, operating results, and cash flows of GM Operaciones S.A.C.

Regardless of the reforms carried out, neither their advancement nor any upcoming additional measures can currently be predicted. GMOP Management permanently monitors the performance of variables affecting its business to define the course of action and identify the potential impact on its economic and financial position.

Notwithstanding these uncertainties, GMOP Management highlights that transactions with Petroperú over the past 12 months have been conducted satisfactorily, commitments have been honored, and a stable operational dynamic is maintained. In this context, and considering the ongoing reorganization process aimed at strengthening Petroperú's sustainability, Management deems it reasonable to anticipate the continuation of this favorable trend during the next fiscal year and throughout the contractual term, while actively monitoring the evolving environment.

NOTE 27: SHAREOLDERS' AGREEMENT OF GM OPERACIONES S.A.C. (GMOP)

On April 3, 2024, GMSA, GROSA, and CBEI LLC, in their capacity as GMOP's shareholders, executed a shareholders' agreement whereby their rights and regulations are established under the following characteristics:

Term: The agreement shall be valid as from its date of execution and will last indefinitely as long as the Parties remain as GMOP's shareholders, and GMOP maintains its legal existence.
Designation of General Manager: The Parties expressly agree that GMSA shall designate GMOP's General Manager.
Designation of attorneys-in-fact: The Parties expressly agree that GMSA shall designate attorneys-in-fact and establish the scope of the powers granted to them.

Lack of agreement in Shareholders' Meetings: In the event of a tie vote in the General Shareholders' Meetings, GMSA shall have the casting vote and decide the issue under discussion.

As from the date of execution of the Shareholders' Agreement, GMSA holds factual control of GMOP as GMSA manages GMOP's operating and financial policies. As from April 1, 2024, all of GMOP's operations and transactions are consolidated into GMSA.

See accounting policy "4.2 Consolidation" in the notes to the consolidated financial statements at December 31, 2025.

NOTE 28: ALL-RISK INSURANCE POLICY WITH COVERAGE FOR LOSS OF PROFIT

The Company has taken out all-risk insurance coverage for all the risks of loss or physical damage, whether it is accidental or unforeseeable, including machinery failures and loss of profit as a result, up to 12 months, directly and totally attributable to any cause. The aim of this policy is to cover the losses caused by the interruption of the activities as a result of the accident, both as regards the profit that is no longer obtained and the expenses the Company continues to bear despite its inactivity, such that the insured may be in the same financial situation as if the accident had not occurred.

This insurance covers all physical assets of any type and description, not expressly excluded from the text of the policy, belonging to the insured or in his/her care, custody or control, for which the insured has assumed a responsibility for insuring against any damage, or for which the insured may acquire an insurable interest.

On November 30, 2025, the all-risk insurance policy of all generators of Grupo Albanesi was renewed for a further 18 months through first-class insurers such as: Starr Insurance Companies, Federación Patronal, La Meridional, Chubb, Sancor, Allianz and Nación Seguros.

On February 20, 2025, the CTF experienced a rupture. A gain for loss of profits totaling USD 5,746 was recognized following a note of agreement dated February 10, 2026. This net amount was charged to the Sale of electricity Res. 220 (See Note 15).

On September 10, 2024, CTE suffered the consequences of a fire that broke out in the industrial park (we experienced the effects of the shockwave). A gain for loss of profits totaling USD 1,000 was recognized following a note of agreement dated February 9, 2026. This net amount was charged to the Sale of electricity Res. 21 (See Note 15).

NOTE 29: SUPPLY AGREEMENT WITH CAMMESA: COMMITTED DATE OF AUTHORIZATION FOR COMMERCIAL OPERATION

a. CENTRAL TÉRMICA EZEIZA

On December 14, 2017, within the framework of Resolution SEE No. 287-E/2017, awarded through Resolution SEE No. 926-E/2017, GMSA -as seller- and CAMMESA -as buyer, on behalf of the WEM- entered into the Supply Agreement for the closing of CTE's cycle. At that time, the Committed Date for the commercial authorization of the committed machines that make up CTE's combined cycle was set for June 19, 2020.

Subsequently, two addenda were signed in connection with the Supply Agreement on May 7, 2021 and June 9, 2022, modifying the Committed Date. Pursuant to the latter (Addendum II), the Committed Date (renamed as "NFCE") was set for November 7, 2023 (and remains so at present).

In order to guarantee that the commercial authorization would be obtained by the Committed Date, GMSA posted a performance bond in favor and to the satisfaction of CAMMESA, for an amount equivalent to USD 20,286.

If the commercial authorization deadline is not met, CAMMESA has the right to demand payment of the amounts resulting from non-compliance, and only if the penalties invoiced remain unpaid and the relating demand for payment has been served by CAMMESA may it be entitled to foreclose the above-mentioned bond.

On July 18 and November 22, 2023, GMSA made a filing with the ES, informing them of the negative consequences that the changes implemented in the system for the import of goods and services have had on the project. In view of the above, GMSA requested an 89-day extension to the SE to meet the commercial authorization deadline, without this entailing a reduction in the term of the agreement or the application of default penalties.

On April 4, 2024, GMSA requested CAMMESA to grant an extension of 135 days, without this entailing a reduction in the term of the Agreement.

On December 10, 2024, a new addendum was entered into whereby a new committed extended date was established to obtain commercial authorization on February 28, 2024, without this entailing a reduction in the term of the Agreement.

On April 17, 2024, commercial authorization in the WEM was obtained.

The Group and its external legal advisors consider that, under the terms of the signed Addendum, it is expected that no fines will be imposed on GMSA.

Therefore, at September 30, 2026, GMSA did not recognize any liability associated with this matter.

NOTE 30: GUARANTEES GRANTED FOR FINANCIAL OPERATIONS WITH SUBSIDIARIES AND RELATED PARTIES

In July 2017, Alba Jet S.A. acquired a new aircraft, a Challenger 350, manufactured by Bombardier, Serial No.: 20687, Engine LH P136489 and RH P136488. For financing purposes, Alba Jet S.A. entered into a leasing agreement for up to a total amount of USD 16,480.

Under this financing, GMSA granted Export Development Canada ("EDC") a bond governed by the laws of the State of New York through the execution of a bond agreement dated July 13, 2017.

On July 13, 2026, GMSA, Alba Jet, and EDC have signed the Pay Off Letter and the Omnibus Release Agreement, by means of which the Lease and Loan with EDC have been settled in full. As a result, the guarantees relating to these obligations have been released, including the bond granted by GMSA.

NOTE 31: FRAMEWORK AGREEMENT FOR THE EXECUTION AND OPERATION OF THE SELF-GENERATION PROJECT AND SHAREHOLDERS' AGREEMENT

At September 30, 2026, GMSA has classified its investment in Solalban Energia S.A. as non-current assets held for sale, in accordance with IFRS. (See Note 4.20 to the consolidated financial statements at December 31, 2025)

Company name	Principal place of business	Main activity	Ordinary shares 1 vote	Value of the Group's share of equity 09/30/2026	% of share interest 09/30/2026
Associates					
Solalban Energía S.A.	Argentina	Electric energy	73,184,200	2,394	42%
				2,394	

The assets were classified as held for sale because they are available for immediate sale in their current condition, as detailed below. The sale is expected to be completed within twelve months following the date of classification.

On October 29, 2025, Unipar Indupa S.A.I.C. notified GMSA of its intention to exercise the option to purchase the Class B shares issued by Solalban Energía S.A. and owned by GMSA, which represent 42% of Solalban's capital stock and voting rights, within the framework of the non-compliance of GMSA obligations under the "Framework Agreement for the Execution and Operation of the Self-generation Project and Shareholders' Agreement" entered into on March 27, 2008 between Solvay Indupa S.A.I.C. (Today, Unipar Indupa S.A.I.C.) and Albanesi S.A. (today, GMSA).

The price will be determined through an independent appraisal, in accordance with the provisions set forth in the aforementioned agreement between the parties and always within the framework established by the General Companies Law and related regulations.

NOTE 31: FRAMEWORK AGREEMENT FOR THE EXECUTION AND OPERATION OF THE SELF-GENERATION PROJECT AND SHAREHOLDERS' AGREEMENT (Cont'd)

On March 25, 2026, Unipar Indupa notified GMSA that a legal action had been filed against it with the Arbitration Court of the Buenos Aires Stock Exchange (Case file No. 1559/25 titled "Unipar Indupa S.A.I.C. c/ Generación Mediterránea S.A. s/ incumplimiento contractual"), in which Unipar Indupa included several claims to complete the valuation and calculation of the purchase price of Class B shares issued by Solalban and held by GMSA. GMSA has been granted a 25-business-day period (beginning on April 6, 2026) to file an answer to the complaint.

On May 11, 2026, GMSA filed a response invoking the applicability of Section 459 of the Commercial Code and Section 1350 of the Civil Code to the case.

On July 3, 2026, Unipar Indupa filed a pleading to report new subsequent facts and to expand and amend its claim. On August 25, 2026, GMSA challenged this request and on September 14, 2026, it was partially denied, rejecting the proposed amendments and expansion but permitting the inclusion of new facts.

On November 3, 2026, a first hearing was held before the Arbitration Court, at which it was agreed that a further hearing would be held on November 17, 2026, to determine whether there was consensus on the issuance of a partial award addressing, as a preliminary matter, whether the obligation to sell the shares had been terminated.

On November 17, 2026, a hearing was held before the Arbitration Court, at which it was agreed that a partial award would be issued addressing, as a preliminary matter, whether the obligation to sell the shares had been terminated. The parties have until December 4, 2026, to submit their arguments prior to such partial award, and the Arbitration Court has a period of thirty (30) business days, excluding January 2027, to issue the award.

NOTE 32: INCIDENT IN BOILER C FIREFOX AND CLAIM SETTLEMENT (GMOP)

On June 30, 2025, during the startup of boiler C, pressure was released in boiler firebox, accompanied by a deflagration that resulted in the shutdown of boiler C startup sequence.

This incident did not cause any personal injuries, and the steam supply continued to be provided to the refinery. However, the incident resulted in a penalty as set forth in Exhibit O "Environmental, Safety, and Occupational Health Clauses and Penalties for New Service and Work Contracts" of the Usufruct Agreement entered into between GM Operaciones SAC and PETROPERÚ S.A.

As a consequence of this event, the Company initiated the applicable settlement proceedings against the insurance company pursuant to the conditions of policy no. 1301-545863 (Claims No. 1301-53537/1301-53538).

In January 2026, the Company entered into an Adjustment Agreement with Sedgwick Perú Ajustadores de Seguros S.A.C., in its capacity as assigned adjuster, whereby a final compensation amount was determined according to the terms and conditions of the policy in force and the insurance company denied any liability.

The net compensation amount recognized in favor of GMOP totals USD 5,475.

NOTE 33: LOAN FOR CONSUMPTION WITH RGA

On December 19, 2016, AESA (merged company) entered into a loan agreement with RGA to formalize financing for an amount equivalent to USD 20 million, to meet all commitments for the development, construction and start-up of the Power Plant.

NOTE 33: LOAN FOR CONSUMPTION WITH RGA (Cont'd)

On March 28, 2025, RGA and GMSA decided to amend the loan agreement by replacing the items detailed below:

The Lender undertakes to grant a Loan to the Borrower for USD 17,039 for the purposes agreed upon.

The Borrower will repay such amount to the Lender in full by March 31, 2031.

Interest on the Loan will be accrued at an annual rate of 8%, the prevailing rate in the market for similar subordinated loans. Such interest will be paid on a quarterly basis on the last day of March, June, September, and December each year.

On September 25, 2025, the reorganization proceeding of Rafael G. Albanesi S.A. was declared open. This company has the same shareholders as GMSA. Rafael G. Albanesi S.A. filed for reorganization due to its inability to regularly meet its obligations, seeking a solution that would allow it to restructure liabilities, maintain operations, and preserve the company's value.

NOTE 34: SUBSEQUENT EVENTS

ES Resolution No. 293/2026

On October 21, 2026, the Energy Secretariat issued Resolution No. 293/2026, dated October 20, 2026, amending the Rules for the Normalization of the WEM and their progressive adoption, as approved by ES Resolution No. 400/2025, and a new registration procedure for Large Users is approved, which prevails over Exhibit 17 of the Procedures.

The Resolution introduces three amendments to the WEM normalization framework, each included in a separate Exhibit:

- **Exhibit I (Article 1): Bands of Statement of Variable Production Cost (VPC).**

With the increased self-management of fuel by the generators, the margin for reporting costs below reference values is expanded, while the margin for reporting costs above reference values is narrowed. The dispatch at minimum operating and failure cost, and the general methodology for the statement of VPC are maintained.

Generators with self-managed fuel supply must state their VPC within a band calculated using the reference VPC, which is obtained by applying the reference fuel price to the machine's efficiency.

In accordance with Exhibit I, the current band will remain in effect throughout 2026 and will gradually narrow starting in 2027, as per the following schedule:
2025 and 2026: 75% + 25%
2027: 50% + 17.5%
From 2028 onward: 25% + 10%

NOTE 34: SUBSEQUENT EVENTS (Cont'd)

ES Resolution No. 293/2026 (Cont'd)

- **Exhibit I (Article 1): Bands of Statement of Variable Production Cost (VPC) (Cont'd).**

In case of an NG Agreement, the maximum additional margin is 0%: the declared VPC cannot exceed the reference VPC.

Implications for the generators:

Floor: The reduction of the floor to 50% (2027) and 25% (2028) expands the margin for generators who have obtained fuel at prices below the reference one, allowing them to reflect this advantage in their declared VPC and improve their position in the dispatch order. It does not require them to declare costs below what the generator considers sustainable.

Ceiling: The reduction of the additional margin to 17.5% (2027) and 10% (2028) limits the possibility of reflecting fuel costs above the reference price in the VPC. This is particularly relevant when energy generation relies on imported LNG or gas during periods of high winter demand, as the pass-through of gas price volatility to the VPC will be constrained by the reference price established by the authorities.

Consequently, the fuel reference price becomes crucial. A reference price that fails to reflect actual supply costs might impede the recovery of costs actually incurred through the VPC.

- **Exhibit II (Article 2): Energy supply from existing generation available for contracting in the Energy MAT.**

Exhibit II applies to Thermal Generation in the Spot and to Hydroelectric Generation in the Spot not included in the Assigned Generation, in both cases with access prior to January 1, 2025. The limit is measured based on the monthly production of energy available for contracting with Large Users:

Until March 31, 2027: 20%
4/1/2027 – 3/31/2028 60%
4/1/2028 – 12/31/2028 80%
From January 1, 2029: no limit, with any Spot Demand.

Both may contract all of its monthly output with Distributors to supply Uncovered Seasonalized Demand.

For existing generation, as from January 4, 2027, it will be possible to commit up to 60% —and then 80%— of their monthly production in contracts with Large Users, thus reducing their exposure to the spot price. Contracts negotiated in advance must adjust amounts to the limit established for each period.

For New Generation (commercial authorization after January 1, 2025), which is not subject to these restrictions, the measure implies increased competition for the demand of Large Users in the MAT.

The supply being released relates to existing generation, and therefore does not qualify as new supply for the purposes of the Special Supply Plan for Extratendential Demands (Res. 264/2026

NOTE 34: SUBSEQUENT EVENTS (Cont'd)

ES Resolution No. 293/2026 (Cont'd)

- **Exhibit III (Article 3): Simplified procedure for the monthly entry of GUMA and GUME into the WEM.**

Advances in measurement, information exchange, and commercial administration of the WEM would allow substituting the quarterly entry windows with a monthly scheme, without affecting operational security or other agents' rights.

The Extratendential Demand System (XDEM), as approved by Res. ES No. 264/2026 (Appendix C to Exhibit 17), remains in force. The new procedure only applies subsidiarily and insofar as it is compatible.

The monthly entry expands and streamlines the incorporation of Large Users, who are the main counterparties of contracts in the MAT and MATER. The contract start date may also be aligned with the user's incorporation date.

Reseña informativa al 30 de septiembre de 2026 y 2025

1. Breve comentario sobre las actividades de la emisora, incluyendo referencias a situaciones relevantes posteriores al cierre del período

Se expone a continuación un análisis de los resultados de las operaciones de Generación Mediterránea S.A. (la Sociedad) y de su situación patrimonial y financiera, que debe ser leído junto con los estados financieros consolidados condensados intermedios que se acompañan.

(Información no cubierta sobre el informe de revisión sobre los estados financieros consolidados condensados intermedios emitidos por los auditores independientes).

Ventas:

Las ventas netas ascendieron a USD 292.119 para el período de nueve meses finalizado el 30 de septiembre de 2026, comparado con los USD 280.603 para el mismo período de 2025, lo que equivale a un aumento de USD 11.516 (4%).

Durante el período de nueve meses finalizado el 30 de septiembre de 2026, la venta de energía fue de 3.235 GWh, lo que representa una disminución del 3% comparado con los 3.341 GWh para el mismo período de 2025.

A continuación, se describen los principales ingresos del Grupo, así como su comportamiento durante el período de nueve meses finalizado el 30 de septiembre de 2026 en comparación con el ejercicio anterior:

(i) No hubo ventas de energía Plus en el período de nueve meses finalizado el 30 de septiembre de 2026, en el período de nueve meses finalizado el 30 de septiembre de 2025 las ventas fueron de USD 37.119. Debido a que la SE del Ministerio de Economía publicó la Resolución 21/2025 y estableció modificaciones al marco regulatorio del sector eléctrico, entre otras cuestiones, la norma eliminó restricciones para la celebración de contratos en el MAT. Se dio por finalizado el esquema de Energía Plus cuyos últimos contratos vencían el 31 de enero de 2026.

(ii) USD 24.316 por ventas de energía bajo mercado spot, lo que representó un aumento del 19% o USD 3.909 respecto de los USD 20.407 del mismo período 2025. La variación se debe a que la SE del Ministerio de Economía publicó la Resolución 400/2025 y estableció modificaciones al marco regulatorio del sector eléctrico.

(iii) USD 12.794 por ventas de energía por contratos, lo que representó un aumento del 100% con respecto al mismo período 2025, la variación se debe a que la SE del Ministerio de Economía publicó la Resolución 400/2025 y estableció modificaciones al marco regulatorio del sector eléctrico.

(iv) USD 54.552 por ventas de energía en el mercado a término a CAMMESA en el marco de la Res. 220/07, lo que representó un aumento del 27% respecto de los USD 43.066 del mismo período de 2025. Dicha variación se explica principalmente por un aumento en la cantidad de energía vendida del 7% bajo esta Resolución para el período de nueve meses finalizado el 30 de septiembre de 2026, respecto el mismo período 2025.

(v) USD 87.628 por ventas de energía bajo Res. 21, lo que representó una disminución del 3% respecto de los USD 89.891 para el mismo período de 2025.

(vi) USD 57.500 por ventas de energía bajo Res. 287, lo que representó una disminución del 0,4% respecto de los USD 57.747 del mismo período de 2025.

(vii) USD 22.313 por ventas de energía en Perú, lo que representó un aumento del 32% respecto de los USD 16.952 del mismo período de 2025.

(viii) USD 6.121 por ventas de vapor, lo que representó una disminución del 60% respecto del mismo período de 2025. Debido a las modificaciones al marco regulatorio del sector eléctrico se permitió la compra de gas por parte del cliente para la generación del vapor vendido, por lo que en el período de nueve meses finalizado el 30 de septiembre de 2026 se empezó a facturar solo margen.

(ix) USD 26.895 por reconocimiento de combustible, lo que representó un aumento del 100% respecto del mismo período de 2025. La SE del Ministerio de Economía publicó la Resolución 400/2025 y estableció modificaciones al marco regulatorio del sector eléctrico y se habilitó esta posibilidad.

Costo de ventas:

El costo de ventas total para el período de nueve meses finalizado el 30 de septiembre de 2026 fue de USD 174.927 comparado con USD 177.080 del mismo período de 2025, lo que equivale a una disminución de USD 2.153

A continuación, se describen los principales costos de venta de la Sociedad, así como su comportamiento durante el período de nueve meses finalizado el 30 de septiembre de 2026 en comparación con el mismo período del año anterior:

(i) USD 19.155 por compras de energía eléctrica, lo que representó una disminución del 43% respecto de USD 33.415 para el mismo período de 2025.

(ii) USD 33.866 por consumo de gas, lo que representó un aumento del 75% respecto de los USD 19.330 para el mismo período 2025.

(iii) USD 13.148 por sueldos, jornales y cargas sociales, lo que representó un aumento del 36% respecto de los USD 9.647 para el mismo período 2025. Dicha variación se explica por los incrementos salariales.

Resultado bruto:

El resultado bruto para el período de nueve meses finalizado el 30 de septiembre de 2026 arrojó una ganancia de USD 117.192, comparado con una ganancia de USD 103.523 para el mismo período 2025, representando un aumento del 13%.

Gastos de Comercialización:

Los gastos de comercialización para el período de nueve meses finalizado el 30 de septiembre de 2026 fueron de USD 1.223 comparado con los USD 1.164 para el mismo período 2025, lo que equivale a un aumento de USD 59. Se debe, principalmente a la variación en el monto de ventas, dado por la habilitación comercial de las turbinas y calderas de la CTAS.

Gastos de Administración:

Los gastos de administración para el período de nueve meses finalizado el 30 de septiembre de 2026 ascendieron a USD 18.109, comparado con los USD 19.979 para el mismo período 2025, lo que equivale a una disminución de USD 1.870 (9%).

Los principales componentes de los gastos de administración de la Sociedad son los siguientes:

(i) USD 3.677 de honorarios profesionales, lo que representó una disminución del 66% respecto de los USD 10.818 para el mismo período 2025.

(ii) USD 12.248 por sueldos, jornales y cargas sociales, lo que representó un aumento de USD 7.349 respecto de los USD 4.899 para el mismo período 2025. Dicha variación se explica, principalmente, por la incorporación del personal administrativo a la nómina de GMSA a partir de abril 2025, debido a la finalización del contrato de servicios administrativos mantenido con RGA.

(iii) USD 95 por acuerdos laborales, lo que representó una disminución del 96% respecto de los USD 2.591 para el mismo período 2025, dado por los acuerdos de desvinculación laboral realizados por GMSA, CTR y GLSA finales de 2025.

Otros Ingresos y Egresos Operativos:

Los otros ingresos operativos totales para el período de nueve meses finalizado el 30 de septiembre de 2026 ascendieron a USD 7.273 lo que representó un aumento de USD 6.710 comparado con los USD 563 para el mismo período 2025. Dicha variación se explica debido al daño material que sufrió caldera C durante las maniobras de arranque en la planta de GMOP, como resultado, se reconoció un ingreso indemnizatorio de USD 5.475.

Los otros egresos operativos totales para el período de nueve meses finalizado el 30 de septiembre de 2026 ascendieron a USD 7.942, aumentando USD 7.900 con respecto al mismo período 2025. Dicha variación se explica, principalmente, debido a que GMOP, en virtud de lo explicado en el párrafo anterior, mantiene la obligación contractual de asumir y ejecutar el reparo de la caldera C de acuerdo con el contrato de usufructo vigente, por lo cual estimo un monto de gastos por USD 5.200.

Resultado operativo:

El resultado operativo para el período de nueve meses finalizado el 30 de septiembre de 2026 fue una ganancia de USD 97.191, comparado con una ganancia de USD 82.901 para el mismo período 2025, representando un aumento de USD 14.290

Resultados financieros:

Los resultados financieros para el período de nueve meses finalizado el 30 de septiembre de 2026 totalizaron una pérdida de USD 126.721, comparado con una pérdida de USD 107.035 para el mismo período de 2025, representando un aumento de USD 19.686.

Los aspectos más salientes de dicha variación son los siguientes:

(i) USD 94.907 de pérdida por intereses por préstamos, lo que representó una disminución del 14% respecto de los USD 110.268 de pérdida para el mismo período 2025. Dicha variación se debe a la disminución de las deudas bancarias y préstamo sindicado.

(ii) USD 2.209 de ganancia por diferencias de cambio netas, lo que representó una variación de USD 40.340 respecto de los USD 42.549 de ganancia del mismo período 2025.

(iii) USD 19.978 de pérdida por diferencia de cotización UVA, lo que representó una disminución del 29% comparado con la pérdida de USD 28.046 para el mismo período 2025. La variación se debe al incremento de la cotización de la UVA neto de la registración del reemplazo de las ONs anteriores por el canje realizado el 17 de julio.

Resultado antes de impuestos:

Para el período de nueve meses finalizado el 30 de septiembre de 2026, la Sociedad registra una pérdida antes de impuestos de USD 29.530 comparada con una pérdida de USD 24.538 para el mismo período 2025, lo que representa un aumento de la pérdida de USD 4.992.

El resultado negativo de impuesto a las ganancias fue de USD 388 para el período de nueve meses finalizado el 30 de septiembre de 2026, lo que representa una disminución de la ganancia de USD 9.823 en comparación con los USD 9.435 de resultado positivo del mismo período 2025.

Resultado neto:

El resultado neto para el período de nueve meses finalizado el 30 de septiembre de 2026 fue una pérdida de USD 29.918 comparada con los USD 15.103 de pérdida para el mismo periodo 2025, lo que representa un aumento de la pérdida de USD 14.815.

Resultados integrales:

La ganancia por los otros resultados integrales para el período de nueve meses finalizado el 30 de septiembre de 2026 fue de USD 2.669, e incluyen las diferencias de conversión de subsidiarias y asociadas, representando una disminución del 353% en comparación con los USD 1.056 de ganancia para el mismo período 2025.

El resultado integral total para el período de nueve meses finalizado el 30 de septiembre de 2026 fue una pérdida de USD 27.249, representando un incremento de la pérdida del 69% respecto de la pérdida integral para el mismo período 2025, de USD 16.159.

(1) (información no cubierta sobre el informe de revisión sobre los estados financieros consolidados condensados intermedios emitidos por los auditores independientes).

Breve comentario sobre perspectivas para el año 2026 (información no cubierta sobre el informe de revisión sobre los estados financieros consolidados condensados intermedios emitidos por los auditores independientes).

Energía Eléctrica

La dirección del Grupo espera para el año 2026 continuar operando y manteniendo correctamente las distintas unidades de generación con el objeto de mantener su disponibilidad en niveles elevados. En cuanto al despacho, el ingreso al Sistema Eléctrico de máquinas del grupo más eficientes, como el cierre de ciclo de CTE y CTMM, implicaría conseguir un mayor despacho de estas y, en consecuencia, aumentar la generación de energía eléctrica.

El proyecto de cogeneración en Arroyo Seco, a través de GLSA, consistió en: i) la instalación de dos turbinas de gas Siemens modelo SGT800 de 50 MW (TG01 y TG02) cada una de capacidad nominal, cuya habilitación comercial en el MEM se obtuvo el 17 de septiembre de 2024 y el 1 de octubre de 2024 respectivamente; y ii) una TV y dos calderas de recuperación del calor que, mediante el uso de los gases de escape de la turbina, generan vapor. Con fecha 3 de julio de 2025, CAMMESA ha otorgado la habilitación comercial de la TV.

De este modo GLSA genera energía eléctrica, que se comercializa bajo un contrato suscripto con CAMMESA en el marco de la licitación pública bajo la Resolución SEE N° 287/2017 y adjudicado por Resolución SEE N° 820/2017; y vapor, que será suministrado a LDC Argentina S.A. para su planta ubicada en Arroyo Seco mediante un acuerdo de generación tanto de vapor como de energía eléctrica.

Situación Financiera

Antecedentes

El 30 de abril de 2025 GMSA y CTR publicaron un hecho relevante en el que dieron a conocer que no iban a realizar los pagos de intereses de las ON clases XXXIX, XL y XLI co-emitidas que vencían el 5 de mayo de 2025. Posteriormente, las Co-Emisoras y AESA han publicado diversos hechos relevantes informando que no se pagarían a su vencimiento los servicios de deuda de otros endeudamientos financieros, informando que se encontraban atravesando la Reestructuración, buscando priorizar la continuidad de su operación y preservar los intereses de sus acreedores y otras partes interesadas mientras se buscaban alternativas y propuestas para reordenar la situación. La falta de pago en tiempo y forma de estas obligaciones dio lugar a la configuración de eventos de incumplimiento bajo los términos y condiciones aplicables a esos endeudamientos financieros, una vez transcurridos los plazos de gracia aplicables a cada caso.

A lo largo del proceso de Reestructuración, las Co-Emisoras priorizaron la operación ininterrumpida en toda su plataforma de generación térmica. Durante este tiempo, los activos de generación alcanzaron una disponibilidad promedio de

aproximadamente 92%, reflejo de una planificación de mantenimiento coordinada y del cumplimiento continuo de las obligaciones de despacho y desempeño de los contratos de suministro con CAMMESA y de los acuerdos de compra de energía privados. Asimismo, se mantuvieron los acuerdos de suministro y transporte de combustible para respaldar las entregas de Energía Plus y los compromisos de cogeneración, lo que permitió a las Co-Emisoras preservar sus principales fuentes de ingresos operativos durante el período de reestructuración. Asimismo, durante 2025, las Co-Emisoras completaron todas las inspecciones preventivas programadas con fabricantes de equipos originales, incluyendo Siemens en CTCT y CTI, General Electric en CTRO y Mitsubishi en CTF. Paralelamente, la Dirección de las Co-Emisoras establecieron acuerdos estratégicos con proveedores clave para ampliar los plazos de pago y asegurar la continuidad del suministro de repuestos y servicios críticos. Estos acuerdos incluían la adquisición anticipada de componentes con plazos largos necesarios para futuras revisiones, la reducción del riesgo de ejecución y el apoyo a la fiabilidad de la flota más allá del plazo inmediato de reestructuración.

A la fecha de los Estados Financieros Condensado Intermedios, el reordenamiento financiero integral, por un monto aproximado de USD 1.500 millones, en los mercados de capitales nacional e internacional, se encuentra en un estado avanzado de éxito. La reestructuración se realizó sin aplicar quitas sobre el capital adeudado y alcanzó a la totalidad de los pasivos incluidos en el proceso. Con su finalización, la compañía busca consolidar una estructura financiera más sostenible y compatible con los flujos de generación de caja previstos para los próximos años. En todo momento, el objetivo central fue actuar con equidad y respeto hacia todos los grupos de acreedores que depositaron su confianza en nuestra compañía. El compromiso demostrado en los momentos más exigentes es el mayor activo con el que contamos, y refleja los valores que nos definen como compañía. Tal como se menciona en nota 13 a la fecha se encuentra pendiente la homologación final del APE para concluir el proceso integral de restructuración de deuda.

A continuación, y tal como las sociedades del Grupo vienen informando a través de hechos relevantes en la Autopista de Información Financiera de la CNV y las diversas publicaciones y vías pertinentes, se destacan los hitos centrales y estado actual de la Reestructuración a la fecha:

ONs Proyectos:

Con fecha 18 de febrero de 2026, GMSA ha lanzado nuevas solicitudes de consentimiento para modificar ciertos términos de ciertas clases de las ONs Proyecto, a saber, las clases XV y XVI por un lado (Proyecto Ezeiza), y clases XVII, XVIII y XIX por el otro (Proyecto Río Cuarto). El objetivo de estas solicitudes es adaptar el esquema de eventos de incumplimiento sin modificar términos y condiciones económicos de dichas obligaciones negociables para permitir continuar con la Reestructuración respecto a los restantes endeudamientos comprendidos. Con fecha 3 de marzo de 2026, GMSA informó el cierre de estos procedimientos indicando que se obtuvieron las mayorías necesarias para aprobar ambas solicitudes de consentimiento.

Mas recientemente, con fecha 3 de marzo de 2026 (GEMSA bajo los ID #3489589 y #3489590) las Co-Emisoras publicaron un hecho relevante informando sobre el éxito de las solicitudes de consentimiento para modificar los términos y condiciones de distintas clases de obligaciones negociables emitidas para la financiación de proyectos (a saber, las obligaciones negociables de GEMSA clases XV, XVI, XVII, XVIII y XIX) por un monto total de USD 442.000. Ver nota 13.a)

ONs XXXIX (Bono internacional 2031) y RUFO (Coemisión ON Clase XL; XLI y AESA ON Clase XIX y XX):

Con fecha 4 de mayo de 2026, las Co-Emisoras anunciaron una oferta de canje internacional y solicitud de consentimiento, en virtud de la cual las Co-Emisoras (a) ofrecieron canjear las Obligaciones Negociables Clase XXXIX, co-emitidas por las Co-Emisoras en circulación por (i) obligaciones negociables clase XLVI denominadas y pagaderas en dólares estadounidenses (las “Obligaciones Negociables Clase XLVI”), y (ii) obligaciones negociables clase XLVII denominadas y pagaderas en dólares estadounidenses, respecto de las cuales las Co-Emisoras son co-deudoras, según corresponda, y (b) solicitaron consentimientos para modificar ciertas disposiciones del contrato de emisión de fecha 30 de octubre de 2024, y terminar o modificar los documentos del Colateral a fin de liberar las garantías que garantizan las Obligaciones Negociables Existentes, de conformidad con los términos y sujeto a las condiciones establecidas en el suplemento de prospecto y la documentación relacionada. (Ver nuevas condiciones Nota 13: Préstamos c). La Oferta estuvo abierta hasta el 2 de junio de 2026, a dicha fecha las Co-Emisoras informaron que USD 346.457 de las Obligaciones Negociables Clase XXXIX, equivalentes al 97,88% del total de las Obligaciones Negociables Clase XXXIX en circulación, han participado de la Oferta y Solicitud (Participación Temprana USD 345.616 - Participación Tardía USD 841) cumpliéndose la Condición Mínima de Participación, el Umbral de Liberación de Colateral (al menos el 85% del monto de capital de las Obligaciones Negociables Existentes en circulación) y el Umbral de la Opción de Rescate (al menos el 90% del monto de capital de las Obligaciones Negociables Existentes en circulación).

Con fecha 14 de mayo de 2026, las Co-Emisoras anunciaron una oferta de canje local y solicitud de consentimiento, en virtud de la cual las Co-Emisoras, ofrecieron canjear (a) las ON clase XL y clase XLI garantizadas y con vencimiento en 2031, que fueron co-emitidas por las Co-Emisoras de acuerdo con lo previsto en el suplemento de prospecto de fecha 4 de noviembre de 2024, y (b) las ON clase XIX y clase XX garantizadas y con vencimiento en 2031, que fueron emitidas por Albanesi Energía S.A. de acuerdo con lo previsto en el suplemento de prospecto de fecha 4 de noviembre de 2024, por (i) ON clase XLVIII; (ii) ON clase XLIX; y (iii) ON clase L. (Ver nuevas condiciones Nota 13: Préstamos de los EEFF consolidados condensados intermedios). Seguidamente, mediante la publicación del aviso de resultados de fecha 4 de junio de 2026, las Co-Emisoras anunciaron los resultados finales al cierre de la Fecha de Expiración, que finalizó el 3 de junio de 2026. A dicha fecha, se habían presentado en el canje Obligaciones Negociables Elegibles por un monto de capital total de USD 27.262, sobre un monto de capital total en circulación de USD 29.164 de las Obligaciones Negociables Elegibles, lo que representa el 93,48% del monto de capital de las Obligaciones Negociables Elegibles en circulación. En ese contexto, las Co-Emisoras informaron que alcanzaron los Consentimientos Requeridos para la implementación de las modificaciones propuestas en el marco de la Oferta Local.

Con fecha 5 de junio de 2026 tuvo lugar la fecha de emisión y liquidación del canje voluntario por los aceptantes de la Oferta Internacional y Local (el "Canje Voluntario") y, con fecha 15 y 16 de junio de 2026, tuvo lugar la fecha de liquidación del canje compulsivo realizado conforme a los términos de las Obligaciones Negociables Existentes y los resultados de la Oferta Internacional y Local (el "Canje Compulsivo"), de forma que se emitieron montos adicionales de las Obligaciones Negociables como consecuencia del ejercicio del derecho de las Co-Emisoras a rescatar, mediante el mencionado Canje Compulsivo, la totalidad de las Obligaciones Negociables Existentes que permanecían en circulación luego de la liquidación del Canje Voluntario.

ON Locales no garantizadas:

El 18 de febrero de 2026, las Co-Emisoras anunciaron una oferta de canje local y solicitud de consentimientos, en virtud de la cual las Co-Emisoras (a) ofrecieron canjear la totalidad de las ONs Clases XV, XVI, XIX, XX, XXIII, XXIV, XXV, XXVI, XXVII, XXVIII, XXX, XXXII, XXXIII, XXXIV, XXXV, XXXVI, XXXVII, XXXVIII y XLII, co-emitidas por las Co-Emisoras y ONs Clases III, VII, IX, X, XI, XII, XIII, XV, XVI, XVII y XVIII emitidas por AESA (actualmente GMSA) en circulación por (i) ON clase XLIII denominadas en Dólares Estadounidenses y pagaderas en Pesos al Tipo de Cambio Aplicable; y (ii) ON clase XLIV denominadas y pagaderas en Dólares Estadounidenses en el país y (b) solicitaron consentimientos para modificar las correspondientes Obligaciones Negociables Existentes Locales o, alternativamente, aprobar el APE de las Emisoras, de conformidad con los términos y sujeto a las condiciones establecidas en un suplemento de prospecto y la documentación relacionada.

Mediante la publicación de los resultados finales en el que se presentaron Obligaciones Negociables Existentes Locales por un monto de capital equivalente a USD 337,1 millones, sobre un total en circulación de USD 442,1 millones, lo que representa el 76,24% del capital, las Co-Emisoras informaron su intención de obtener un cierre por APE. La convocatoria a Asambleas Especiales de Tenedores de las Obligaciones Negociables Existentes Locales, tuvieron lugar los días 19, 20 y 21 de mayo de 2026, a efectos de considerar la celebración del APE. Con fecha 22 de mayo de 2026, las Co-Emisoras informaron a los Tenedores, se celebraron satisfactoriamente, alcanzando las mayorías requeridas para la celebración del APE, a efectos de consumar la reestructuración de la deuda representada por las Obligaciones Negociables Existentes Locales y su posterior presentación ante el tribunal competente.

Con fecha 8 de junio de 2026, las Co-Emisoras informaron mediante hechos relevantes la celebración del APE, y han solicitado su homologación en sede judicial. En ese contexto, con fecha 22 de junio de 2026, las Co-Emisoras informaron que el tribunal competente a cargo del proceso judicial correspondiente al APE ordenó la publicación de los edictos previstos en el artículo 74 de la Ley de Concursos y Quiebras. Asimismo, con fecha 6 de julio de 2026, dicho tribunal ordenó la reanudación del diligenciamiento de dicha publicación. Este hito se vincula con la emisión de las Nuevas Obligaciones Negociables Locales por la parte de tenedores aceptantes voluntarios de la Oferta Local No Garantizada.

Con fecha 8 de julio de 2026, las Co-Emisoras informaron los montos de emisión de las Nuevas Obligaciones Negociables Locales Serie A, por un valor nominal de USD 289.112 correspondiente a las ON Clase XLIII y por un valor nominal de USD 79.208 correspondiente a las ON Clase XLIV, así como las correspondientes fechas de emisión y liquidación para los Tenedores Aceptantes que hubieran ingresado voluntariamente a la Oferta Local No Garantizada. (Ver condiciones de ONs en la Nota 13 b): Préstamos de los EEFF consolidados condensados intermedios).

Por su parte, se prevé que la fecha de emisión y liquidación de las Nuevas Obligaciones Negociables Locales Serie B tenga lugar una vez que el APE sea homologado por el tribunal competente, de conformidad con la normativa aplicable.

ON Clase X (Bono Internacional 2027):

Con fecha 10 de abril de 2026, anunciaron una oferta de canje internacional y solicitud de consentimiento para aprobar el APE de las Emisoras, en virtud de la cual las Emisoras, (a) ofrecieron canjear la totalidad de las ON Clase X, a una tasa de interés fija del 9,625% y con vencimiento en 2027 (las "ONs 2027") en circulación por ON Clase XLV, denominadas y pagaderas en dólares Estadounidenses en el exterior, a una tasa de interés fija e incremental y con vencimiento en 2036 (las "Nuevas ONs Internacionales No Garantizadas") en términos sustancialmente similares a las Nuevas Obligaciones Negociables Locales; y (b) solicitaron consentimientos para modificar las correspondientes ONs 2027 o, alternativamente, aprobar el APE de las Emisoras, de conformidad con los términos y sujeto a las condiciones establecidas en un suplemento de prospecto y la documentación relacionada.

Mediante la publicación de los resultados finales en el que se presentaron Obligaciones Negociables Existentes Internacional, por un monto de capital total equivalente a USD 56,2 millones, sobre un monto de capital total equivalente a USD 117,1 millones, lo que representa el 48,03% del monto de capital de las Obligaciones Negociables Existentes, la Oferta Internacional No Garantizada también preveía la obtención de consentimientos e instrucciones para la celebración del APE.

Finalmente, con fecha 8 de julio de 2026, las Co-Emisoras informaron los montos de emisión de las Nuevas ONs Internacionales No Garantizadas, por un valor nominal de USD 41.885 correspondiente a las Obligaciones Negociables Clase XLV, así como las correspondientes fechas de emisión y liquidación para los Tenedores Aceptantes que hubieran ingresado voluntariamente a la Oferta Internacional No Garantizada. En ese sentido, las Nuevas ONs Internacionales No Garantizadas serán emitidas y liquidadas en favor de los Tenedores Participantes el 17 de julio de 2026. Por su parte, se prevé que la fecha de emisión y liquidación de las Nuevas ONs Internacionales No Garantizadas a los tenedores de ONs 2027 que no hubieran participado de la Oferta Internacional No Garantizada tenga lugar una vez que el APE sea homologado por el tribunal competente, de conformidad con la normativa aplicable. (Ver condiciones de ONs en la Nota 13 b): Préstamos de los EEFF consolidados condensados intermedios).

A la fecha de presentación de los presentes estados financieros condensados intermedios se encuentra pendiente la homologación final del APE (por las ON Locales no garantizadas y ON Clase X (Bono Internacional 2027) para concluir el proceso integral de restructuración de deuda.

Préstamo Sindicado:

Las Sociedades GMSA y CTR han estado manteniendo conversaciones con los prestamistas bajo su Préstamo Sindicado, con el objetivo de extender la amortización de capital y lograr una reducción en la tasa de interés aplicable, en cada caso con el fin de alinear los servicios de deuda bajo el Préstamo Sindicado con los flujos de caja operativos de las Co-Emisoras

Con fecha 27 de marzo de 2026, se publicó un hecho relevante para indicar que, con fecha 26 de marzo de 2026, se firmó una enmienda al préstamo sindicado (Ver mayor detalle en nota 13.e).

Report on review of interim financial information

To the Shareholders, President and Directors of

Generación Mediterránea S.A.

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Generación Mediterránea S.A. and its subsidiaries (the 'Group') as at September 30, 2026 and the related condensed consolidated interim statements of comprehensive income for the nine-month and three-month periods then ended, and condensed consolidated statements of changes in equity and cash flows for the nine-month period then ended and selected explanatory notes.

Responsibilities of the Board of Directors

The board of Directors of Generación Mediterránea S.A. is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with IFRS Accounting Standards and is therefore responsible for the preparation and presentation of the condensed interim financial statements mentioned in the first paragraph, in accordance with International Accounting Standard 34 (IAS 34).

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of interim financial information performed by the independent auditor of the entity'. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Price Waterhouse & Co. S.R.L. Bouchard 557, 8th floor, C1106ABG
Autonomous City of Buenos Aires, Argentina, T: +(54.11) 4850.0000

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34.

Material Uncertainty Related to Going Concern

Without modifying our conclusion, we draw attention to the information included in Notes 3, 13 and 24 to the accompanying condensed interim consolidated financial statements, which indicate that the Group is facing financial difficulties, and has incurred default on its financial obligations. At the date of these financial statements, the out-of-court reorganization agreement (APE) is pending final approval to conclude the comprehensive restructuring of the debt. At period end, the Company reports a negative working capital of USD 214,966 thousand.

These circumstances indicate that there is a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern.

Other Matter

These condensed consolidated financial statements are presented in U.S. Dollars, which is the functional currency of the Company. However, the condensed interim consolidated financial statements used by the Company for statutory, legal and regulatory purposes in Argentina are those presented in Argentine pesos, issued and filed with the Argentine Securities Commission (Comisión Nacional de Valores in Spanish), which were approved for issuance by the Board of Directors on November 6, 2026.
