### **NOTE 1: GENERAL INFORMATION**

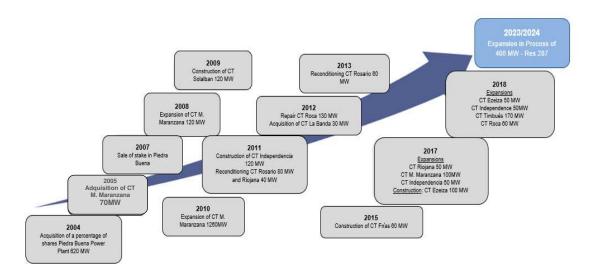

CTR's main line of business is the generation and sale of electric energy. Nominal installed capacity is 190 MW under ES Resolution No. 220/07 and SRRyME Resolution No. 01/2019.

In 2011, Grupo Albanesi acquired through CTR a power plant located in the outskirts of the city of General Roca, province of Río Negro, on Provincial Road No. 6, km 11.1 (the "Power Plant"), which had been unavailable since 2009.

GMSA holds a 75% interest in the capital stock of CTR, and Tefu S.A., the remaining 25%.

At the date of these Financial Statements, Grupo Albanesi had a total installed capacity of 1,380 MW, it being expanded with additional 408 MW with all the new projects awarded.

Grupo Albanesi entered the electricity market in 2004 with the purchase of the power plant Luis Piedra Buena S.A. In this way, the development of the electricity market became one of the main purposes of the Group.

### **NOTE 1: GENERAL INFORMATION (Cont'd)**

### **Environmental management**

The certification for an Environmental Management System under the ISO 14001:2015 standard, developed and implemented across the entire corporation, is maintained in effect. Its documentation has been updated in compliance with the new requirements of the organization about environmental management, as a result of the changes introduced by the revised version of the Standard and on-field facts in connection with the development of the project related to the extension of existing processes and the installation of new generation sites.

The staff has been trained based on the training needs identified for a correct performance of duties, and the controls and preventative follow-ups undertaken have been performed in accordance with planning.

In July 2017, the Environmental Management System was migrated to the new 2015 version and placed in production, upon completion of the respective in-house training and distance learning.

### NOTE 2: REGULATORY ASPECTS RELATING TO THE COMPANY'S POWER GENERATION ACTIVITIES

The regulatory aspects relating to electric energy generation applied for these condensed interim Financial Statements are consistent with those used in the financial information corresponding to the last fiscal year, except for the changes mentioned below:

#### ES Resolution No. 59/2023 - Agreement on Power Availability and Efficiency Improvement Commitment

Resolution No. 59/2023 was published on February 7, 2023. By means of this resolution, the ES enables Generating Agents who own combined cycle power plants but have entered into no electric energy supply contracts to sign a Power Availability and Efficiency Improvement Agreement with CAMMESA for the purpose of encouraging the necessary investments in Major and Minor Maintenance of the machines. Any combined cycle plant who adheres to this agreement must declare a committed availability of 85% of the net power, for a term that may not exceed 5 years.

The committed power of the unit will be remunerated with USD 2,000/MW-month, payable in its equivalent in Argentine pesos, provided that the monthly average availability is greater than or equal to 85% of the net power of each committed machine. In case of average available power lower than 55%, the price to be remunerated will be 30% of the established price for the month of operation.

In addition to the above remuneration, the same generating unit will receive 65% of the price set for the Offered Guaranteed Availability (DIGO) in December, January, February, June, July, and August and 85% of the price for the Offered Guaranteed Availability (DIGO) in March, April, May, September, October, and November.

The energy generated will be remunerated based on the energy price agreement in dollars per Megawatt-hour payable in its equivalent in pesos:

Energy generated with natural gas: 3.5 USD/MWh.

Energy generated with gasoil: 6.1 USD/MWh.

### **NOTE 3: BASIS FOR PRESENTATION**

The condensed interim Financial Statements for the six-month and three-month periods ended on June 30, 2023 and 2022 have been prepared in accordance with IAS 34. This condensed interim financial information must be read jointly with the Company's Financial Statements for the year ended on December 31, 2022.

The presentation in the condensed interim Statement of Financial Position segregates current and non-current assets and liabilities. Current assets and liabilities are those expected to be recovered or settled within the twelve months following the end of the reporting period. In addition, the Company reports on the cash flows from operating activities using the indirect method.

The fiscal year commences on January 1 and ends on December 31 of each year.

Economic and financial results are presented on a fiscal year basis, in proportion to the elapsed period.

The condensed interim Financial Statements for the six-month and three-month periods ended on June 30, 2023 and 2022 have not been audited. Company Management considers that they include all the necessary adjustments to reasonably present the results for each period. The results for the six-month and three-month periods ended on June 30, 2023 and 2022 do not necessarily reflect the proportion of the Company's results for full fiscal years.

These condensed interim Financial Statements are stated in thousands of US dollars without cents, as are notes, except for net earnings per share.

These condensed interim Financial Statements were approved for issuance by the Company's Board of Directors on August 17, 2023.

### **Comparative information**

Balances at December 31, 2022 and for the six-month and three-month periods ended on June 30, 2022, disclosed in these condensed interim Financial Statements for comparative purposes, arise from financial statements at those dates.

Certain reclassifications have been included in the Financial Statement figures presented for comparative purposes to conform them to the current period presentation.

### Purpose of the condensed interim separate Financial Statements

The non-statutory condensed interim separate Financial Statements are presented in United States Dollars (USD), which is the Company's functional currency, and have been prepared to provide interim financial information mainly for use by non-Argentine holders of Company's Negotiable Obligations and foreign financial institutions.

### Tax-purpose inflation adjustment

To determine the net taxable income, an adjustment for inflation computed pursuant to Sections 105 to 108 of the Income Tax Law must be deducted from or added to the tax result for the fiscal period being calculated. This will apply in the fiscal year in which a variation percentage of the CPI accumulated over the 36 months prior to year-end exceeds 100%.

The Company has estimated that at June 30, 2023 the CPI variation will exceed the index established in the above paragraph; therefore, said adjustment was included in the determination of the taxable income for the current period.

Notes to the condensed interim Financial Statements (Cont'd)

#### NOTE 3: BASIS FOR PRESENTATION (Cont'd)

### Going concern principle

At the date of these condensed interim Financial Statements, there are no uncertainties regarding events or conditions that may raise doubts about the possibility that the Company will continue to operate normally as a going concern.

### **NOTE 4: ACCOUNTING POLICIES**

The accounting policies adopted for these condensed interim Financial Statements are consistent with those used in the audited financial statements for the last fiscal year, ended on December 31, 2022.

# 4.1 New published standards, modifications, and interpretations that have not yet entered into force and have not been early adopted by the Company.

- Amendment to IAS 12 International tax reform Pillar Two model rules. Amended in May 2023. These amendments aim to provide a temporary exception to the accounting for deferred taxes arising from the implementation of the international tax reform by the Organization for Economic Co-operation and Development (OECD). The amendments also introduce targeted disclosure requirements for affected companies. Deferred tax exemption and disclosure of the fact that the exception has been applied are effective immediately. The other disclosure requirements are for annual periods effective beginning on or after January 1, 2023. The Company estimates that the application thereof will not have a significant impact on the results of operations or the financial position of the Company.
- Amendments to IAS 7 and IFRS 7 on supplier financing agreements. Amended in May 2023. These amendments contain disclosure requirements to enhance the transparency of supplier financial arrangements and their effects on a company's liabilities, cash flows, and exposure to liquidity risk. The disclosure requirements are the IASB's response to investors' concerns that some companies' supplier financing arrangements are not sufficiently visible, hindering investors' analysis. The amendment applies to annual fiscal years beginning on or after January 1, 2024 (with transitory exemptions in the first year). The Company estimates that the application thereof will not have a significant impact on the results of operations or the financial position of the Company.

There are no new IFRS or IFRIC interpretations applicable as from the current period which have a material impact on the Company's condensed interim Financial Statements.

These condensed interim Financial Statements must be read jointly with the audited Financial Statements at December 31, 2022 prepared under IFRS.

The Company measures facilities, machinery, and buildings at fair value less accumulated depreciation and impairment losses recognized at the date of revaluation, if any. Land is measured at fair value and is not depreciated. (See accounting policy for property, plant and equipment in Note 4 to the December 31, 2022 Financial Statements.) Revaluations are made frequently enough to ensure that the fair value of a revalued asset does not differ significantly from its carrying amount.

At June 30, 2023, the Company has not revalued land, buildings, facilities, and machinery, as there have not been important changes in the fair values of those assets caused by macroeconomic fluctuations.

Notes to the condensed interim Financial Statements (Cont'd)

### **NOTE 5: CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS**

The preparation of these condensed interim Financial Statements in accordance with IFRS requires the Company to make estimates and assessments that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of issue of these condensed interim Financial Statements, as well as the income and expenses recorded in the current period.

The Company makes estimates to calculate the depreciation and amortization charges, the recoverable value of non-current assets, the Income Tax charge, certain labor costs, provisions for contingencies, for labor, civil and commercial lawsuits and bad debt allowance. Actual future results may differ from those estimates and assessments made at the date these Financial Statements were prepared.

In preparing these condensed interim Financial Statements, the critical judgments delivered by Management to apply the Company's accounting policies and the sources of information used for the related estimates are the same as those delivered in the Financial Statements for fiscal year ended December 31, 2022.

### a) Fair value of property, plant, and equipment

The Company has opted to value land, buildings, facilities, and machinery at fair value applying discounted cash flows or market comparable techniques.

The fair value calculated by means of the discounted cash flow was used to value facilities, machinery, and turbines. These cash flows were prepared on the basis of estimates with an approach to consider different scenarios based on their probability of occurrence.

The following variables have been taken into account in relation to the estimates made: (i) exchange rate fluctuations; (ii) availability and dispatch of turbines associated with demand projections based on vegetative growth; (iii) operating and maintenance cost; (iv) number of employees; (v) discount rate used, among others. Each of these scenarios contemplate different assumptions regarding the critical variables used.

The discounted cash flows at December 31, 2022 consider two scenarios (pessimistic and base scenarios) with different probabilities of occurrence. The two scenarios arise from current rate schedules and are combined with different turbine dispatch alternatives.

The criteria considered in each scenario are the following:

- 1. Base scenario: In this case, the Company considers a historical average availability and an expected dispatch based on projections of the demand for energy with a vegetative growth. Probability of occurrence: 70%.
- 2. Pessimistic scenario: In this case, the Company considers a historical average availability and a dispatch of less than expected of the demand for energy. Probability of occurrence: 30%.

In all scenarios, a discount rate in US dollars of approximately 11.50% was used, which contemplates the future scenarios.

The percentages of probability of occurrence assigned are mainly based on the occurrence of different past events (experience).

### NOTE 5: CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Cont'd)

### a) Fair value of property, plant, and equipment (Cont'd)

Actual results could differ from estimates, so the projected cash flows might be badly affected if any of the above-mentioned factors changes in the near future.

The Company cannot assure that the future behavior of those variables will be in line with projections, and differences might arise between the estimated cash flows and the ones really obtained.

The fair value determination of property, plant, and equipment is significantly affected by the US dollar exchange rate. This situation, valuation processes and results are discussed and approved by the Board of the Companies at least once a year.

However, if the discounted cash flows differ by 10% from Management estimates, the Company will need:

- To increase the fair value of land, buildings, facilities, and machinery by USD 13 million, if it were favorable; or
- To reduce the fair value of land, buildings, facilities, and machinery by USD 13 million, if it were not favorable.

At June 30, 2023, the Company has analyzed the variables considered in the calculation of the recoverable value of property, plant, and equipment and concluded that there were no significant changes in those variables.

#### NOTE 6: FINANCIAL RISK MANAGEMENT

In view of its business activities, the Company is exposed to various financial risks: market risk (including the foreign exchange risk, interest rate risk and price risk), credit risk, and liquidity risk.

These condensed interim Financial Statements do not include all the information regarding risk management required for annual Financial Statements. These Financial Statements must be read jointly with the Financial Statements for the year ended on December 31, 2022. There have been no significant changes in the risk management policies since the last annual closing date.

### NOTE 16: LOANS (Cont'd)

The due dates of Company loans and their exposure to interest rates are as follows:

	06/30/2023	12/31/2022
Fixed rate		
Less than 1 year	33,584	29,451
Between 1 and 2 years	16,391	17,431

Between 1 and 2 years	357	905
Between 2 and 3 years	84	35
	3,071	1,613
	93,316	91,546

The fair value of Company's international bonds at June 30, 2023 and December 31, 2022 amounts to approximately USD 54,053 and USD 45,096, respectively. This value was calculated based on the estimated market price of the Company's international bonds at the end of each fiscal period. The applicable fair value hierarchy would be Level 1.

The other floating rate loans are measured at fair value. Given the proximity of their issuance, fixed-rate loans do not differ significantly from their fair value.

Fair values are based on the present value of the contractual cash flows, using a discount rate derived from observable market prices of other similar debt instruments plus the corresponding credit risk.

As a result of the issue of International Bonds, the Company has undertaken standard commitments for this type of issue, whose specific conditions are detailed in the pertinent public prospectus. At the date of these condensed interim Financial Statements, the Company is in compliance with all commitments undertaken.

Company loans are denominated in the following currencies:

	06/30/2023	12/31/2022
Argentine pesos	12,123	9,048
US dollars	81,193	82,498

The gross transactions recorded in the deferred tax account are as follows:

	06/30/2023	06/30/2022
Balance at beginning of year	(26,971)	(28,962)
Charge to Income Statement	2,450	(2,842)
Balance at period end	(24,521)	(31,804)

Notes to the condensed interim Financial Statements (Cont'd)

### NOTE 17: INCOME TAX - DEFERRED TAX (Cont'd)

Total Income Tax charge is made up as follows:

	06/30/2023	06/30/2022
Deferred tax	2,450	(2,859)
Expiration of Minimum Notional Income Tax	-	(193)
Variation in the prior-year provision	<u>-</u>	17
Income Tax	2,450	(3,035)

The Income Tax charge calculated under the deferred tax method corresponds to the following breakdown:

Items	Balances at December 31, 2022	Charge to Income Statement	Balances at June 30, 2023
		USD	-
Other receivables	(30)	3	(27)
Mutual funds	3	(4)	(1)
Property, plant, and equipment	(38,704)	2,555	(36,149)
Inventories	(62)	10	(52)
Loans	(521)	151	(370)
Employee benefit plan	43	5	48
Tax-purpose inflation adjustment	(3,612)	1,627	(1,985)
Tax loss	15,912	(1,897)	14,015
Total	(26,971)	2,450	(24,521)

Income Tax losses are valued at the rate prevailing in the year in which they are expected to be used, considering their index-adjustment in line with the tax-purpose inflation adjustment procedures mentioned in Note 4 to the Financial Statements at December 31, 2022. In accordance with the guidelines of IFRIC 23 "Uncertainty over Income Tax Treatments" and with the opinions of the legal and tax advisors, the Company has adjusted the tax losses for inflation by applying the domestic wholesale price index, as laid down in Section 19 of the Income Tax Law. The Company recognizes the deferred tax assets only if there are sufficient future taxable profits against which the tax losses may be offset.

Accumulated tax losses pending use at June 30, 2023 and which may be offset against taxable income for the year ended on that date are the following:

Year	USD	Year of expiration
Tax losses for the year 2018	21,906	2,023
Tax losses for the year 2019	18,135	2,024
Total accumulated tax losses at June 30, 2023	40,041	

Notes to the condensed interim Financial Statements (Cont'd)

### **NOTE 17: INCOME TAX - DEFERRED TAX (Cont'd)**

On June 16, 2021, the National Executive Branch enacted Law No. 27630. Detailed below are the amendments introduced by the law:

- Income Tax rate: The fixed rate for companies was eliminated and a new progressive rate structure was established for nine Income Tax brackets, in relation to the level of accumulated net taxable profits. The new rates are the following: 25% for accumulated net taxable profits ranging between \$0 and \$5 million; 30% for the second tax bracket, between \$5 and \$50 million and 35% for taxable profits in excess of \$50 million. It is also established that the fixed amounts in the tax brackets shall be adjusted by applying the CPI for fiscal years beginning on or after January 1, 2022.
- Tax on dividends: A 7% rate has been set.

Amendments are applicable for annual reporting periods beginning on or after January 1, 2021.

Pursuant to the National Government Budget Law (Law No. 27701), it was stated that taxpayers who, by applying the comprehensive tax inflation adjustment set forth by the Income Tax Law (Title VI), determine a positive inflation adjustment during the first and second fiscal years beginning on or after January 1, 2022, may allocate one third (1/3) of the adjustment during that fiscal year and the remaining two thirds (2/3) in equal parts in the immediately following two fiscal years.

Only taxpayers who have made an investment equivalent to or exceeding thirty billion Argentine pesos (ARS 30,000,000 thousands) to purchase, build, manufacture, prepare or import fixed assets -except for vehicles- during each of the two (2) fiscal years immediately following that on which the first third was computed will be able to compute the above mentioned positive inflation adjustment. Non-compliance with this requirement will result in the benefit loss.

The reconciliation between Income Tax charged to income and that resulting from the application of the tax rate to the accounting profit before taxes is shown below:

	06/30/2023	06/30/2022
Pre-tax profit/(loss)	(4,672)	7,387
Current tax rate	35%	35%

### Determination of fair value

The Company classifies fair value measurements of financial instruments using a three-level hierarchy, which gives priority to the inputs used in making such measurements: Fair value hierarchies:

- -Level 1: Inputs such as (unadjusted) quoted prices in active markets for identical assets or liabilities.
- -Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., prices) or indirectly (i.e. deriving from prices).
- -Level 3: Inputs on the assets or liabilities not based on observable market inputs (i.e. unobservable inputs).

These charts show financial assets and liabilities measured at fair value at June 30, 2023 and December 31, 2022 and their allocation to the different hierarchy levels:

At June 30, 2023	Level 1	Level 3	Total
Assets			
Cash and cash equivalents			
Mutual funds	1,439	-	1,439
Property, plant, and equipment		134,112	134,112
Total	1,439	134,112	135,551

Notes to the condensed interim Financial Statements (Cont'd)

### NOTE 18: FINANCIAL AND NON-FINANCIAL ASSETS AND LIABILITIES (Cont'd)

<b>At December 31, 2022</b>	Level 1	Level 3	Total
Assets			
Cash and cash equivalents			
Mutual funds	150	-	150
Property, plant, and equipment	<u>-</u>	138,196	138,196
Total	150	138,196	138,346

There were no reclassifications of financial instruments among the different levels.

The fair value of financial instruments traded in active markets is based on quoted market prices at the date of these Financial Statements. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in Level 1.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximize the use of observable market data where it is available and rely as little as possible on the Company's specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2. No financial instruments should be included in Level 2. If one or more of the significant inputs are not based on observable market inputs (i.e. unobservable inputs), the instrument is included in Level 3. These instruments are included in Level 3. This is the case of the revaluation of certain categories of property, plant, and equipment.

Specific valuation techniques used to determine the fair value of property, plant, and equipment include:

- a) As for Land and Buildings, they have been adjusted by a method using coefficients that comprise changes in the purchasing power of the currency to conform a fair value.
- b) The fair values of Facilities and Machinery were calculated by means of the discounted cash flows (See Note 5.a).

The valuation processes and results for the determination of fair value of property, plant, and equipment are discussed and approved by the Companies' Boards of Directors at least once a year.

### NOTE 20: GUARANTEES PROVIDED FOR FINANCIAL OPERATIONS WITH RELATED PARTIES

### Loan JPMorgan Chase Bank, N.A.

On July 7, 2020, ASA, CTR and JP Morgan Chase Bank N.A. ("JPM") entered into a Corporate Guarantee Agreement, whereby they secured the loan granted to GMSA by JPM for USD 14,808 thousand. This loan is allocated to financing 85% of the amount payable to PW Power Systems LLC ("PWPS"), as exporter, for the repair and upgrading services provided for certain natural gas turbines owned by GMSA (formerly purchased from PWPS) as agreed upon under a service contract. This financing is secured by Export-Import Bank ("Exim Bank") and ASA and CTR acted as guarantors, as stated above.

The guarantee package includes the following: (i) a promissory note issued by GMSA in favor of JPM for the amount of the principal to be provided in each disbursement under the loan agreement, each of them secured by CTR and ASA, under the Argentine law; (ii) a promissory note governed by the laws of the State of New York, issued by GMSA; and (iii) a suretyship by CTR and ASA, both as joint and several debtors and principal payors, pursuant to the Corporate Guarantee Agreement.

The balance at the date of presentation of the condensed interim Financial Statements amounted to USD 7,404.

### **NOTE 21: WORKING CAPITAL**

The Company reported a surplus of USD 3,609 in its working capital (calculated as current assets less current liabilities) at June 30, 2023. The surplus in working capital amounted to USD 1,950 at December 31, 2022. Further, see Note 26: Subsequent Events.

#### **NOTE 22: SEGMENT REPORTING**

The information on exploitation segments is presented in accordance with the internal information furnished to the Chief Operating Decision Maker (CODM). The Board of Directors of the Company has been identified as the highest authority in decision-making, responsible for allocating resources and assessing the performance of the operating segments.

Management has determined the operating segment based on reports reviewed by the Board of Directors and used for strategic decision making.

The Board of Directors considers the business as having a single segment, the generation and sale of electric energy.

The information used by the Board of Directors for decision-making is based primarily on operating indicators of the business. Considering that the adjustments between the prior accounting standards and IFRS refer to non-operating items, such information is not substantially affected by the application of the new standards.

Notes to the condensed interim Financial Statements (Cont'd)

### **NOTE 23: ECONOMIC CONTEXT IN WHICH THE COMPANY OPERATES**

The Company has been operating in a complex economic environment characterized by a strong volatility, both nationally and internationally.

The main indicators in our country are as follows:

- The year-on-year GDP increase expected for 2023 is around 2.8% as projected by the IMF WEO Report.
- Cumulative inflation between December 31, 2022 and June 30, 2023 was 50.68%.
- Between December 31, 2022 and June 30, 2023, the peso depreciated 44.90% relative to the US dollar, according to the Banco de la Nación Argentina exchange rate.
- The monetary authority imposed tighter foreign exchange restrictions, which have also affected the value of the foreign currency in existing alternative markets for certain exchange transactions that are restricted in the official market.

The government took a number of actions in 2023 and 2022 in response to the peso devaluation, the decline in BCRA reserves and in dollar deposits, and the high volatility of interest rates.

This context of volatility and uncertainty persisted at the date of issue of these Financial Statements. However, all issuances performed over the last 12 months in the capital markets as well as renegotiations with local banks have been successful and it is expected that they continue so in the next fiscal year; this context might limit access to the debt market and could create difficulties in the renegotiation of existing liabilities.

Company Management permanently monitors the performance of variables affecting its business, to define the course of action and identify the potential impact on its economic and financial position. The Company's Financial Statements must be read in light of these circumstances.

### NOTE 24: MAIN INSURANCE CONTRACTS (Cont'd)

#### Operational all risk coverage - loss of profit

Operational all risk insurance provides coverage for all risks of loss or physical damage to the insured's property and/or for risks for which it is responsible while situated in the location(s) described in the policy, provided that such damages occurred accidentally, suddenly and in an unforeseen manner and make it necessary to repair and/or replace as a direct consequence of any of the risks covered by the insurance policy. The aim of this policy is to cover the loss of profit caused by the interruption of the activities as a result of the accident, both as regards the profit that is no longer obtained and the expenses the Company continues to bear despite its inactivity, such that the insured may be in the same financial situation as if the accident had not occurred.

On October 30, 2022, the all-risk insurance policy of all generators of Grupo Albanesi was renewed for a further 13 months through first-class insurers, as listed below: Starr Insurance Companies, Nación Seguros, Federación Patronal, Sancor, Chubb and Provincia Seguros.

### Civil liability

The Company has taken out insurance coverage for underlying civil liability of the insured, as a result of injuries and/or death of third parties and/or damages to third-party property, caused and/or derived from the development of the insured's activity, subject to the terms, conditions, limitations and exclusions contained in the policy.

This coverage is structured as follows:

An individual policy for each of the Group companies was taken out, with a compensation limit of USD 1,000 per event and per location and two reinstatements during the effective term of the policy.

In addition, an insurance policy common to all companies has been taken out with a compensation limit of USD 9,000 per event and during the effective term of the policy in excess of USD 1,000 (individual policies), with two reinstatements.

### Directors and Officers (D&O) liability insurance

This policy covers all actions or decision-making of directors and/or officers acting in such capacity, outside the professional service or company where they work; for example, hirings and firings of employees; financial, advertising and marketing decisions; mergers or acquisitions; shareholders' statements, accounting records, which are performed with negligence or fault, error or imprudence and cause an economic damage to an employee, shareholder or third party. It does not cover fraudulent activities.

It also covers the company in case of stock-exchange claims or claims from holders of bonds or securities.

It covers the personal property of present, past or future directors and/or officers, and the company's exposure to capital market risks.

### Automobile insurance

This insurance covers the damage to own vehicles as well as extra-contractual civil liability of the owner, user, or driver of the automobile involved in an accident where third parties are injured or die.

### **Transport insurance**

The Company has an insurance policy that covers the transport expenses incurred by all generators of Grupo Albanesi under the modality of sworn statement to be presented monthly in arrears. This urban, national, or international transport insurance policy covers the losses or damages to the insured's goods while they are being carried whether by land, air or sea.

Notes to the condensed interim Financial Statements (Cont'd)

### NOTE 24: MAIN INSURANCE CONTRACTS (Cont'd)

#### **Customs bonds**

Temporary imports: This guarantee avoids the payment of pertinent duties for the entry of goods into the country, provided that they are exported in a term determined, at which time the guarantee is released.

Temporary exports: The amount of pertinent duties are guaranteed for the export of those exported goods which will be reimported.

### **Directors' qualification bond**

This guarantee is required by the General Companies Law (Law No. 19550, Section 256, Paragraph 2) from directors of corporations and members of the administrative bodies of other companies (LLC, joint stock company). This bond protects the Company against non-compliance with obligations by Directors or Managing partners while performing their duties.

### Mandatory life insurance

Employers are required to take out Mandatory Group Life Insurance in favor of their employees. This insurance policy provides 24-hour coverage for employees' risk of death for whatever reason and without limitation in Argentina and abroad.

### Life insurance, as required by the LCT

This insurance covers obligations arising under the Employment Contract Law, if the company has to pay compensation in case of total and permanent disability or death of the employee, for whatever reason.

#### **Group life insurance**

The Company has taken out a Group Life Insurance Policy to the benefit of all Group's employees. This Policy provides coverage by granting compensation in case of death, partial losses caused by accidents, total and permanent disability, advance payments in case of serious and deadly diseases, organ transplants and birth of posthumous child.

### **Environmental bond**

The Environmental Damage Risk Insurance Policy with Group Incidence complies with environmental bond required by the enforcement authorities under General Environmental Law No. 25675, Section. 22.

### Electronic equipment technical insurance

This insurance provides coverage for the risks that may be suffered by fixed or mobile office electronic equipment for data processing, such as PCs, notebooks, photocopiers, telephone central systems, etc., as per a detail provided by the insured in case of accidental, sudden and unforeseen events.

### NOTE 25: LEASE AGREEMENT FOR THE ACQUISITION OF CERTAIN ASSETS

Lease agreement between CTR and GLSA for the acquisition of certain assets

On April 17, 2023, GLSA accepted CTR's offer involving the lease agreement for the acquisition of certain assets for the development of the Arroyo Seco Project, whose characteristics are outlined below:

Lessor: Central Térmica Roca S.A.

Lessee: Generación Litoral S.A.

Notes to the condensed interim Financial Statements (Cont'd)

### NOTE 25: LEASE AGREEMENT FOR THE ACQUISITION OF CERTAIN ASSETS (Cont'd)

Amount: USD 17,794.

Fee and payment method: The fee will be made up of (i) the Amortization Value and (ii) the Financial Cost.

- The amortization value will arise from applying the relevant percentage to the value of the assets. In the event that the payments are denominated in US dollars, the amount in dollars converted to pesos using the selling exchange rate prevailing at the close of the day prior to the payment to the manufacturer will be considered.

Installment	Percentage
No.	
1	5%
2	5%
3	15%
4	15%
5	15%
6	15%
7	15%
8	15%

- The financial cost will be calculated by applying an interest rate equivalent to 30/35-days BADLAR for deposits over one million pesos + 5% per year on the unpaid balance of the amortization values, on all amounts paid to the manufacturer.

The total fee will be payable in 8 (eight) quarterly installments, the first due 15 (fifteen) months after the Lease Offer Acceptance date.

Advances to the manufacturer: GLSA and CTR acknowledge that the manufacturer may require an advance for the acquisition of the assets in order to ensure the timely availability of the assets. The parties may make said advances directly to the manufacturer. If made by the lessor, any amounts advanced will generate a credit in favor of GLSA, which will be remunerated at an interest rate equivalent to 30/35-days BADLAR for deposits over one million pesos + 6% per year (the "Remunerated Advances"). The Remunerated Advances will be denominated in pesos and in the event that the advances to the manufacturer are denominated in US dollars, the Remunerated Advances will be converted into pesos using the selling exchange rate prevailing at the close of the day prior to the disbursement. Furthermore, the Remunerated Advances may be offset at any time, in whole or in part, at GLSA's exclusive option, against the amounts to be paid to the lessor under the agreement, including for the purposes of paying the fees and/or the purchase price.

### a) International issuance

Generación Mediterránea S.A. ("GMSA") and Central Térmica Roca S.A. ("CTR" and, together with GMSA, the "Issuers") announced on July 19 the pricing of their offering of USD 74,999 thousand of secured notes with a coupon of 13.25%, maturing in 2026 (the "New Notes"). The sale of the New Notes was completed in the week following the announcement in July 2023. The Issuers will use the proceeds of this offering to refinance existing indebtedness, including the amortization of their existing 9.625% coupon notes due in 2023 (the "2023 Notes").

This transaction marks a milestone for the Issuers, including exchange agreements on approximately 48.5% of its 2023 Notes for New Notes and New Funds. The success of this transaction in a market environment surrounded by uncertainty confirms the trust that the investment community has placed on the Issuers. The Issuers expect to maintain a mutually beneficial relationship with all their noteholders. Following expiration of the Offering Period, the results of the placement of the Negotiable Obligations are mentioned below:

**Nominal value:** USD 74,999. It is further reported that (i) USD 41,394 thousand were paid in cash; and (ii) USD 33,605 were paid in kind through the delivery of the Existing Notes.

### Summary of Activity at June 30, 2023 and 2022

### Sales:

Net sales for the six-month period ended on June 30, 2023 amounted to USD 17,899, compared with USD 24,792 for the same period in 2022, showing a decrease of USD 6,803 (28%).

During the six-month period ended on June 30, 2023, the dispatch of energy was 642,320 MWh, showing a decrease, compared with 644,444 MWh for the same period in 2022.

Below is a description of the Company's main revenues, and their variation during the six-month period ended on June 30, 2023, as against the same period of 2022:

- (i) USD 11,722 from energy and power sales on the forward market to CAMMESA under Resolution No. 220/07, representing a 51% decrease as against the USD 24,167 for the six-month period ended on June 30, 2022. This variation is explained by the decrease in the amount of MWh of energy sold compared to the same period of the prior year. This decrease in the amount sold is mainly due to the expiration of the Wholesale Demand Contract (ES Resolution No. 220/07) for TG01 unit of CTR in June 2022.
- (ii) USD 6,177 from energy and power sales on the forward market to CAMMESA under Resolution No. 95, as amended, plus spot, representing an increase of USD 5,642 as against the USD 535 for the six-month period ended on June 30, 2022. This variation is explained by the increase in the amount of MWh of energy sold compared to the same period of the prior year.

### Cost of sales:

Total cost of sales for the six-month period ended on June 30, 2023 reached USD 7,685 compared with USD 6,871 for the same period in 2022, reflecting an increase of USD 814 (12%).

Below is a description of the Company's main cost of sales, and their variation during the six-month period ended on June 30, 2023, as against the same period of 2022:

- (i) USD 5,379 for depreciation of property, plant, and equipment, which accounted for a 17% increase compared with the USD 4,597 for the same period of 2022. This variation is mainly due to the addition of property, plant, and equipment for the period. This item does not entail an outlay of cash.
- (ii) USD 1,098 for salaries, social security liabilities, and employee benefits, up 13% from the USD 976 recorded in the same period of 2022. This variation is explained by salary increases.

#### Gross income/(loss):

Gross income/(loss) for the six-month period ended on June 30, 2023 amounted to USD 10,214 compared with the USD 17,831 recorded in the same period of 2022, accounting for a decrease of USD 7,617 (43%).

### Selling expenses:

Total selling expenses for the six-month period ended on June 30, 2023 reached USD 191 compared with USD 292 for the same period of 2022, reflecting a decrease of USD 101 (35%).

The main component of the Company's selling expenses is the following:

(i) USD 191 for taxes, rates, and contributions, representing a 35% decrease from the USD 292 in the same period of 2022, owing to lower sales of energy in the six-month period ended on June 30, 2023 compared to the same period of 2022.

### Summary of Activity at June 30, 2023 and 2022

### Administrative expenses:

Total administrative expenses for the six-month period ended on June 30, 2023 amounted to USD 2,970, showing a 25% increase from the USD 2,374 recorded in the same period of 2022.

The main components of the Company's administrative expenses are listed below:

(i) USD 2,858 for fees and compensation for services, which accounted for an increase of 43% from the USD 1,993 recorded in the same period of 2022. This variation is due to the increase in expenses billed by RGA for administrative services.

### Operating income/(loss):

Operating income/(loss) for the six-month period ended on June 30, 2023 amounted to USD 7,075 compared with the USD 15,166 recorded in the same period of 2022, accounting for a decrease of USD 8,091 (53%).

#### Financial and holding results, net:

Net financial and holding results for the six-month period ended on June 30, 2023 totaled a USD 11,747 loss, compared to a USD 7,779 loss for the same period in 2022, representing an increase of USD 3,968.

The most noticeable aspects of the variation are:

- (i) USD 4,132 loss from interest on loans, accounting for an increase of 46% compared with the USD 2,825 loss recorded in the same period of 2022. The variation is due to a higher financial debt in the six-month period ended on June 30, 2023 compared to the same period of 2022.
- (ii) USD 6,717 loss due to net exchange differences, accounting for an increase of 51% compared with the USD 4,439 loss recorded in the same period of 2022. The variation is mainly due to the fact that the assets position in pesos for the six-month period ended on June 30, 2023 is greater than that for the same period of 2022, generating a higher exchange difference.

### Income/(loss) for the period:

The Company reported a pre-tax loss of USD 4,672 for the six-month period ended on June 30, 2023, which accounted for a 181% decrease as against the USD 7,387 profit in the same period of 2022. This variation is mainly due to the exchange difference impact in the period.

The company recognized an Income Tax benefit of USD 2,450 for the six-month period ended on June 30, 2023, as against an income tax expense of USD 3,035 for the same period in 2022. This variation is mainly explained by the recognition of the inflation adjustment for tax purposes on accumulated tax losses.

Thus recording loss after Income Tax of USD 2,222 compared with USD 4,352 income for the same period in 2022.

### REVIEW REPORT ON THE CONDENSED INTERIM FINANCIAL STATEMENTS

#### Introduction

We have reviewed the accompanying condensed interim statement of financial position of Central Térmica Roca S.A. as at June 30<sup>th</sup>, 2023 and the related condensed interim statements of comprehensive income for the three-month and six-month periods then ended, and condensed statements of changes in equity and cash flows for the six-month period then ended and notes, comprising significant accounting policies and other explanatory notes. The Board of Directors is responsible for the preparation and presentation of this condensed interim financial information in accordance with International Accounting Standard 34 Interim Financial Information (IAS 34). Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

### Scope of our review

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of interim financial information performed by the independent auditor of the entity'. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34.

### Emphasis of Matter - Purpose of these condensed interim financial statements

We draw attention to note 3 to the condensed interim financial statements, which discloses the basis of preparation, including the purposes for preparing them. Our conclusion is not modified in respect of this matter.
